# INID CODES FOR IDENTIFICATION OF BIBLIOGRAPHIC DATA

## INVENTIONS, UTILITY MODELS

- (10) Number of publication for application, which has been examined
- (11) Number of patent and kind of document
- (21) Serial number of application
- (22) Date of filing of the application
- (23) Date of exhibition or the date of the earlier filing and the number of application, if any
- (24) Date from which patent may have effect
- (31) Number of priority application
- (32) Date of filing of priority application
- (33) Code of the country or regional organization allotting priority application number
- (44) Date of publication of application not granted, but examined and number of bulletin
- (45) Date of publication of registered document
- (51) International Patent Classification Index
- (54) Title of the invention
- (57) Abstract
- (60) Number of examined patent document granted by foreign patent office, date from which patent has effect and country code
- (62) Number of the earlier application and in case of divided application, date of filing an application
- (71) Name, surname and address of applicant (country code)
- (72) Name, surname of inventor (country code)
- (73) Name, surname and address of patent owner (country code)
- (74) Name, surname of representative or patent attorney
- (85) Date of commencement of the national phase of International Application
- (86) Number and date of filing of international application
- (87) Number and date of publication of international application

## DESIGNS

- (10) Number of publication for application
- (11) Number of patent and kind of document or number of registration
- (15) Date of registration/Date of patent renewal
- (18) Expected expiration date of patent or registration
- (21) Serial number of application
- (22) Date of filing of the application
- (23) Date of exhibition or the date of the earlier filing and the number of application, if any
- (24) Date from which patent may have effect
- (28) Number of designs included in the application
- (30) Data relating to priority (number of application, date of filing of application, two-letter code identifying the authority with whom the priority application was made)
- (31) Number of priority application
- (32) Date of filing of priority application
- (33) Code of the country or regional organization allotting priority application number
- (34) Two-letter code according to WIPO St.3 identifying the authority with which the priority application was made
- (44) Date of publication of design and number of bulletin (the first publication)
- (45) Date of publication of design registered by WIPO and number of bulletin
- (51) International Classification for designs (class and subclass of the Locarno Classification)
- (54) Title of the invention
- (55) Reproduction of the design
- (57) Description of characteristic features of the design including indication of colors
- (58) Date of recording of any kind of amendment in the Register
- (62) Number of the earlier application, registration and document number and if available the date of filing an application in case of divided application
- (71) Name, surname and address of applicant (country code)
- (72) Name, surname of creator (country code)
- (73) Name, surname and address of patent owner (country code)
- (74) Name, surname of representative or patent attorney
- (81) Contracting states concerned
  - II designated contracting states according to the 1960 Act
  - III designated contracting states according to the 1999 Act
- (85) Owner's permanent address
- (86) Owner's nationality
- (87) Owner's residence
- (88) State in which the owner has a real and effective industrial or commercial establishment

## TRADEMARKS

- (111) – Number of registration
- (151) – Date of registration
- (156) – Date of the renewal
- (181) – Expected expiration date of registration
- (186) – Renewal expiration date of registration
- (141) – Date of cancel of duration of the mark
- (210) – Serial number of application
- (220) – Date of filing of the application
- (230) – Date concerning exhibition
- (260) – Number of application, for which favorable decision of examination about registration has been taken (publication number)
- (310) – Number of the first application
- (320) – Date of filing of the first application
- (330) – Code, identifying national or regional Office where the first application was made
- (511) – International Classification of Goods and Services for the purposes of registration of trade marks and/or list of goods and/or services classified according thereto
- (531) – Description of figurative elements of Trade Marks according to the International Classification of the Figurative Elements of Marks
- (540) – Reproduction of Trade Mark
- (550) – Nature and kind of Trade Mark
- (580) – Date of recording of any kind changes in respect of applications or registrations
- (591) – Information concerning colors claimed
- (731) – Name and address of the applicant
- (732) – Name and address of the holder of the registration
- (740) – Name and address of the representative
- (750) – Address for correspondence
- (770) – Name and address of the previous applicant or holder in case of change in ownership
- (771) – Previous name and address of the applicant or holder in case of change in ownership
- (791) – Name and address of the licensee
- (793) – Indication of conditions and/or restrictions under the license (Type of license, number of license agreement, data of license, data of validity of license)
- (800) – Certain data relating to the international registration of Trade Marks under the Protocol Relating to Madrid Agreement (International registration number)

## CODES FOR PUBLICATION IN BULLETIN

(54) **DRY POWDER INHALER DEVICE**

(57) There is represented dry powder inhaler device comprising an outer housing (1), an inner housing (2) disposed therein, a lid (devil) executed rotatable relative to outer housing (1), blister band (4) locked by turning, lower first chamber (2.2) including said band coiled, and a mouthpiece (3); at that, additionally, it comprises an moving element (5) allocated movable in axle, clips (music) allocated rotatable around turning contact pin (8.2) and a cushion (8.4) having blocking lug (8.1) in one end thereof. Furthermore, the inhaler device comprises a holding lug (5.1) allocated capable to be engaged with blocking lug (8.1) on the actuating element (5), a spring (9) and a pusher (6.1) connected to lid disengaging the actuating element (5).

(54) **DEVICE AND METHOD FOR  
PURIFYING AIR FROM NON-DESIRED  
COMPONENTS AND FOR  
ELIMINATING SUCH COMPONENTS**

(57) Present invention relates to device for purifying air from non-desired gases, microorganisms and drops. The device comprises purifying chamber throughout which the purified air flow is passing. Ionized air 1 is directed to mist spray or vapor in purifying chamber. Ionizing voltage is increased to create ozone; then, the flow is passing to ionic flow sprayers 8 working under high voltage and creating continuous flow collecting surfaces 9 and gripping the drops, hard particles, as well as fluid componentry connected therewith. Purified air volume specifies purifying device shape and volume.

(57) There is represented multiplate partitioned inductor generator construction with offset coils and self-installing rotor discs. The generator includes stator and rotor discs, in which radial cutouts the magnetic segments are inserted. Ring magnetic cores are installed from disc inductor face side; ring magnetic cores are switched to the cores with the coils offset outside the discs. Fluoroplastic bearings are installed between rotor and stator discs. Rotor disc is bounded with especial dowel with a shaft making rotor disc capable be shifted

7 – Machines and machine tools as well as their parts including automated machines and machine tools as well as their parts; motors and engines (other than for land vehicles); couplings and devices for power transmission (except those for land crafts); agricultural implements other than hand-operated; electric generators and current generators; apparatus for handling and transporting included in this class; transport and handling belts; pneumatic transporters; transporters and conveyors; control devices for machines or motors; pneumatic controls for machines, motors and engines; drives for machines; driving motors other than for land vehicles, particularly drives for ships, hydraulic controls for machines and engines; hydraulic engines and motors; robots; turbocompressors; pumps; compressors; mills; generators for wind turbines; floating or non-floating drilling rigs; elevator control devices.

9 – Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, analyzing, indicating, signaling, monitoring apparatus, instruments and devices, including: parts for all the aforesaid goods, emergency (rescue) and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, including parts for all the aforesaid goods; CDs; electronic publications, downloadable; apparatus for recording, transmitting and reproducing sound and images; data processing equipment and computers; microprocessors; software; lasers, not for medical purposes; chargers for electric storage batteries; timer switches (except for clockwork mechanisms); condensers [capacitors]; electric collectors; electric pliers; electric wires, lines and cables; accumulator boxes and connection boxes; cable identification sheaths for electrical transmission lines and cable identification yarns for electrical transmission lines; cable ducts; inductors; magnetic recording media; semi-conductors; electric and electronic apparatus, devices and instruments including parts thereof for the production, distribution and supply of energy, particularly alternative energy; fuel cells; sound recording disks; mechanisms for coin-operated apparatus; cash registers; calculating machines; extinguishers; electronic, magnetic and optical storage, floppy disks, magnetic disks, optical disks; data protection apparatus; computer peripherals; current inverters; current rectifiers; current converters; electrical connection parts; connection sleeves; transistors, thyristors, electric diodes; semiconductor power elements; transformers [electricity]; resistances, electric; distribution panels and cabinets; batteries; integrated switching circuits (chips); printed circuit boards; computer operating programs; diagnostic apparatus (not for medical purposes); remote control apparatus; anti-interference devices; memories for apparatus for data processing; switching panels and

consoles; commutators (switches); electric relays; modems; ducts [electricity]; connectors for electrical transmission lines; electric measuring and regulating apparatus in the form of voltage regulators; sensors; fuses and electrical safety devices included in this class; distribution connection panels; voltmeters; counters; electric current switches; dosing and measuring apparatus; electric power distribution installations; electric and electronic installations for (remote) control of automated industrial processes, including electronic display boards as well as acoustic and optical warning devices, control panels, distribution consoles, control cables and buttons; automatic steering apparatus for vehicles; installations and apparatus for transmitting, switching and controlling electric current included in this class, including their parts, particularly high, medium and low-voltage electrical distribution installations and installations for transmitting high-voltage direct current; heavy current circuits; aerial cables for heavy currents; electric power reactors, transformers and components therefor; distribution transformers; solar.

11 – Apparatus for lighting as well as heating, cooling and ventilation, including fans, sanitary installations; ventilation and air-conditioning installations; apparatus for steam generation, cooking, ventilation and water supply; solar collectors; heat pumps; ovens.

37 – Construction, including advice in this field; repair; installation work, including advice in this field; servicing, commissioning and maintenance as well as installation works particularly for industrial installations; installation, implementation, maintenance and repair of computer hardware and office machines; maintenance of computer hardware, particularly computers and computer network installations; installation, maintenance, repair and noise suppression of machines and apparatus and electrical installations; installation and maintenance of oil pipelines; underwater construction; consulting in connection with repairs and installation work; consulting in any of the aforesaid services.

42 – Research in the scientific and industrial field; programming for data processing; provision of computer programs on data networks, particularly on the Internet and the World Wide Web; providing technical information concerning the use of computers, computer hardware, software, computer databases and computer networks; materials testing; services provided by an industrial designer; services of a designer for packaging; quality control; underwater exploration; raw material testing; engineering services relating to environmental impact, advice in the field of energy saving, providing technical advice in connection with energy-saving measures, technical advisors' services in the field of energy saving and energy performance; computer software design, particularly in the field of computer security; network engineers' services including computer and network

security consulting; scientific and industrial research in the field of network technology; actualization (update) of software; executing of chemical analyses; analyses for the exploitation of oil reservoirs; oil prospecting; oil-well testing; preparation of analyses for oil reservoir exploitation; oil-field surveys; services provided by architects; physics research; chemical research; physicist services; computer consulting services, particularly in the field of technical security; reconstitution of computer data; software maintenance; computer system analyses; research and development; research in the field of machine construction and engineering; technical surveys; engineering work including advice provided by engineers, particularly consultation in the field of technical security; technical project studies as well as related consulting; rental of computer software and data processing apparatus; development of software; services provided by an engineer.

45 – Legal services; licensing of intellectual property rights; exploitation of patents.
