INID CODES FOR IDENTIFICATION OF BIBLIOGRAPHIC DATA

INVENTIONS, UTILITY MODELS

- (10) Number of publication for application, which has been examined
- (11) Number of patent and kind of document
- (21) Serial number of application
- (22) Date of filing of the application
- (23) Date of exhibition or the date of the earlier filing and the number of application, if any
- (24) Date from which patent may have effect
- (31) Number of priority application
- (32) Date of filing of priority application
- (33) Code of the country or regional organization allotting priority application number
- (44) Date of publication of application not granted, but examined and number of bulletin
- (45) Date of publication of registered document
- (51) International Patent Classification Index
- (54) Title of the invention
- (57) Abstract
- (60) Number of examined patent document granted by foreign patent office, date from which patent has effect and country code
- (62) Number of the earlier application and in case of divided application, date of filing an application
- (71) Name, surname and address of applicant (country code)
- (72) Name, surname of inventor (country code)
- (73) Name, surname and address of patent owner (country code)
- (74) Name, surname of representative or patent attorney
- (85) Date of commencement of the national phase of International Application
- (86) Number and date of filing of international application
- (87) Number and date of publication of international application

DESIGNS

- (10) Number of publication for application
- (11) Number of patent and kind of document or number of registration
- (15) Date of registration/Date of patent renewal
- (18) Expected expiration date of patent or registration
- (21) Serial number of application
- (22) Date of filing of the application
- (23) Date of exhibition or the date of the earlier filing and the number of application, if any
- (24) Date from which patent may have effect
- (28) Number of designs included in the application
- (30) Data relating to priority (number of application, date of filing of application, two-letter code identifying the authority with whom the priority application was made)
- (31) Number of priority application
- (32) Date of filing of priority application
- (33) Code of the country or regional organization allotting priority application number
- (34) Two-letter code according to WIPO St.3 identifying the authority with which the priority application was made
- (44) Date of publication of design and number of bulletin (the first publication)
- (45) Date of publication of design registered by WIPO and number of bulletin
- (51) International Classification for designs (class and subclass of the Locarno Classification)
- (54) Title of the invention
- (55) Reproduction of the design
- (57) Description of characteristic features of the design including indication of colors
- (58) Date of recording of any kind of amendment in the Register
- (62) Number of the earlier application, registration and document number and if available the date of filing an application in case of divided application
- (71) Name, surname and address of applicant (country code)
- (72) Name, surname of creator (country code)
- (73) Name, surname and address of patent owner (country code)
- (74) Name, surname of representative or patent attorney
- (81) Contracting states concerned
 - II designated contracting states according to the 1960 Act
 - III designated contracting states according to the 1999 Act
- (85) Owner's permanent address
- (86) Owner's nationality
- (87) Owner's residence
- (88) State in which the owner has a real and effective industrial or commercial establishment

(54) **DIABETIC ALCOHOLIC BEVERAGE
AND PREPARATION METHOD
THEREOF**

(57) There is represented a beverage containing water-spirit mix wherein water is concentrated with silver Ag ions, and spirit is ethyl alcohol of 40 vol.% strength, earth apple acid hydrolyzate, aromatic spirit on basis of anisetree, polyatomic spirits, natural honey; in preference, the beverage contains lactose or lactulose or combination thereof, and earth apple acid hydrolyzate preparation method provides tubers and stems washing, chipping, extraction therewith 28% ethyl alcohol, adding therein citric acid, filtration, ethyl alcohol adding in the extract, received mass hydrolysis with existence of apple and succinic acids, sedimentation, cooling, holding and filtration. Beverage preparation method provides water-spirit mix preparation with rectified spirit and drinking water concentrated with silver Ag ions, earth apple acid hydrolyzate, honey, polyatomic spirits and aromatic spirit on basis of anisetree, mixing thereof, holding, filtration, beverage strength correction and bottling thereof.

(54) **CONVECTIONAL DRYER OF PANEL MATERIALS HAVING LACQUERED SURFACES**

(57) There is represented convectional dryer including cylindrical drying chamber executed in a

casing 4, forcing 19 and exhaust 20 fans, electric heating coils 21, a carrousel 3 installed in drying chamber, carrousel drive 42 with chain drive. At that, four zones with decreasing temperature intensity are created in drying chamber in direction opposite of carrousel rotation. Four access holes 43 for operator, which are executed with organic glass, are disposed on cylindrical drying chamber perimeter on visual height. Fluid temperature measurement instrumentation TP-1 44 are mounted vertically by means of holders 45 so, that first instrument is allocated in beginning of zone I, and fourth – in the end of zone IV, the others – in the zones II and III, with 100° gradation from the instrument of zone I.

7 – Machines for the chemical industry, beverage industry, agriculture, metal treating, textile industry, waste disposal and waste process industry, food industry, wood processing and plastics processing, as well as machine tools; mechanical apparatus and instruments for the pressure increase of water; couplings and transmission components, other than for land vehicles; agricultural implements, other than hand-operated; pumps for heating installations; pumps being machines, in particular for building installations, for water supply and water disposal and for industry and agriculture (other than pumps for medical purposes and air pumps), cleaning apparatus and systems; base plate mounted pumps; glanded pumps; glandless pumps; multi-stage centrifugal pumps; borehole pumps; effluent pumps; sewage pumps; pumps being machines and pump systems consisting thereof for drinking and process water, wastewater, ground water, wastewater treat-

ment, drainage, all included in this class; pumps for pressure increase; insulation jackets being parts of pumps; mixers and stirring units being machines for wastewater treatment; elevating apparatus being machines; mechanical elevating apparatus for wastewater and excrements; spare parts for pumps, included in this class; motors, in particular electric motors, other than for land vehicles; spare parts for motors, included in this class; crankcases for machines, motors and engines; control mechanisms for machines, motors and engines; fittings for engine boilers; joints being parts of engines; speed governors for machines, motors and engines; speed adjusters for machines, motors and engines; pressure reducers being parts of machines; pressure regulators being parts of machines; pressure valves being parts of machines; electrically operated brushes being parts of machines; filters being parts of machines, motors or engines; taps being parts of machines, motors or engines; couplings, other than for land vehicles; compressors for refrigerators; pumps being parts of machines, motors or engines; pump diaphragms; regulators being parts of machines; slides being parts of machines; ventilators for motors; valves being parts of machines; self-regulating fuel pumps; regulators, in particular pressure regulators.

9 – Scientific, nautical, surveying, photographic, film, optical, weighing, measuring, signal, control, salvage and teaching apparatus and instruments; apparatus and instruments for conduction, connection, conversion, storage, regulation and control of electricity; mechanical devices and apparatus for the analysis and dosing of water; equipment for recording, transmission and reproduction of sound and images; magnetic data carriers; calculating machines; fire extinguishers; regulation and control devices, included in this class; electrotechnical instruments included in this class, namely armatures, indicators, electric installations for the remote control of industrial operations, apparatus for commutation, regulating apparatus, distribution consoles and control panels, electro-dynamic apparatus for the remote control of signals, coils, sensors, monitoring apparatus and electric connectors; junction boxes and distribution boxes for electricity; sprinkler systems and water systems for fire protection; laboratory devices for measuring and evaluation of water quality, included in this class; fuel cells; electronic publications, downloadable; bus systems for data processing, consisting of hardware and software; software; optical, magnetic and electronic data carriers; testing apparatus, not for medical purposes; connections for electric lines; electric batteries; films, exposed; observation instruments; magnetic encoders (data processing); identity cards, encoded; service cards, encoded; CDs for sound and/or images; computers; computer operating systems, stored; computer peripheral devices; computer programs, stored; computer programs, downloadable; computer

software, stored; data processing apparatus; dosage dispensers; fuse wire; revolution counters; choking coils; pressure measuring apparatus; pressure indicators; electric installations for the remote control of industrial operations; electric connectors; electric couplings; electric transformers; electric wires; electric cables; electric capacitors; electromagnetic coils; anti-interference devices for electricity; telerupters; remote controls; devices for the remote control of apparatus and instruments, also bidirectional; semiconductors; integrated circuits; interfaces being interface apparatus or programs for computers; electric cable ducts; wire connectors for electricity; smart cards being integrated circuit cards; boiler control instruments; terminals for electricity; comparators; electric contacts; electric regulating apparatus; copper wire, insulated; educational and teaching apparatus; electric conductors; luminous signs; optical fibres; magnetic tapes; encoded cards, magnetic; solenoid valves being electromagnetic switches; quantity indicators; measuring apparatus; measuring instruments; microprocessors; modems; monitors being computer hardware; monitors being computer programs; apparatus and instruments for physics; RFID chips; RFID scanners; cathodic anti-corrosion apparatus; switches; electric apparatus for commutation; distribution consoles for electricity; control panels for electricity; electrical sensors for the acquisition of physical values, namely pressure sensors, differential pressure sensors, temperature sensors, flow sensors, acceleration sensors; simulators for the steering and control of vehicles and aircrafts; computer memories; electric coils; plugs; sockets; bar code readers; electricity conduits; ammeters; circuit breakers; electric converters; telemetric apparatus and instruments; temperature control units and/or thermostats; thermometers, not for medical purposes; thermostats; sound recording carriers; voltage surge protectors; electric monitoring apparatus; junction sleeves for electric cables; connectors for electricity; heat regulating apparatus; water level indicators; automatic time switches; computer central processing units; electrical ducts.

11 – Lighting, heating, steam generation, cooking, drying, ventilating and water conduit apparatus as well as sanitary installations; mechanic apparatus and instruments for water heating, treatment, softening and purification; heating installations, in particular water heating installations; heating elements; electric heating apparatus; heating boilers; heat pumps; heat accumulators; heat exchangers; solar collectors for heating applications; hot water installations; water conduits and distributions systems; pressure water tanks; HVAC and cooling apparatus, namely air conditioning systems and apparatus, humidifiers, cooling systems and machines, water cooling systems, in particular open or closed circuit cooling towers, refrigerating appliances and installations; water treatment systems and parts thereof,

namely water collection systems; water supply installations; fountains; installations for water recovery, namely well systems and installations for water treatment, included in this class; desalination plants; filters for drinking water; water filtering apparatus; installations for rainwater and ground water utilization, included in this class, namely installations for water supply, water treatment, sprinkling, watering and irrigation, all the afore-mentioned goods for use with submersible motor pumps, in particular for pressure regulation, with electric control and accessories, in particular water tanks; water softening plants and apparatus; water purification installations; water sterilizers; water disinfectant apparatus; apparatus for swimming pools, included in this class, namely chlorinating units; counter current installations for swimming pools; whirlpools; purification installations for sewage; installations for wastewater treatment, also by membranes and filters; expansion tanks for central heating systems; automatic watering installations; chlorinating units for swimming pools; insulation jackets being parts of heating and/or water-pipe systems; steam generating installations; district heating plants and apparatus; filters being parts of household or industrial installations; taps, included in this class; refrigerators; air cooling apparatus; oil burners; regulating accessories for water or gas apparatus and pipes; safety accessories for water or gas apparatus and pipes; thermostatic valves being parts of heating installations; volume expansion automats and automatic as for drinking and/or process water systems; water heaters; hot water installations; water-bearing fittings; water purification instruments and machines.

37 – Construction; installation work; installation, maintenance and repair of pumps, pump stations, mixers and stirring units, elevation systems, sewage plants, sewage disposal plants and sewerage; installation, maintenance and repair of motors and engines; installation, maintenance and repair of heating and air conditioning systems; installation, maintenance and repair of regulating and control systems and of additional components for HVAC and water treatment systems; installation of district and local heat networks; installation of wastewater treatment and disposal plants as well as installation of basins, ponds and pits for water preservation; services regarding flood protection, pressure drainage, ground water lowering, in particular for mining and surface mining, namely construction and maintenance services relating to civil engineering of systems for water, effluent and compressed air extraction as well as construction and maintenance services relating to civil engineering of systems for pressure drainage and ground water lowering, in particular for mining and surface mining ; construction and maintenance services relating to civil engineering of systems for excrement and mud extraction; information on repair work; installation, maintenance and repair of machi-

nes, in particular of pumps; installation, maintenance and repair of electrical systems and apparatus including control and regulating systems; installation, maintenance and repair of computers (hardware); plumbing; overhaul of worn out or destructed motors and engines.

42 – Scientific and technological services and research and services of a designer in respect of these; industrial analysis and research services; design and development of computer hardware and software; update of computer software; software update by microprocessor-controlled apparatus and instruments; technical consultancy, related to design and development of hardware, software, telecommunication systems, pumps, electric engines, heating and sanitary systems as well as of regulating and control systems; computer systems design; computer software design; services of a software engineer; services of a physicist; services of a technical measuring and testing laboratory; services of an engineer; conducting technical tests and checks; conducting technical measuring; conducting scientific studies; electronic data storage; computer programming; provision of information relating to technological research; scientific expertise; technical research; engineering research; implementation of computer programs in networks; installation, maintenance and repair of software for computer systems; calibration and functional testing of measuring equipment; configuration of computer networks by software; construction planning and technical project management; material testing; maintenance and installation of software; quality control; technical research projects and studies and information related thereto; rental and maintenance of computer software; rental of software for Internet access; scientific research.
