- (44) Date of publication of application not granted, but examined and number of bulletin
- (45) Date of publication of registered document
- (51) International Patent Classification Index
- (54) Title of the invention
- (57) Abstract
- (60) Number of examined patent document granted by foreign patent office, date from which patent has effect and country code
- (62) Number of the earlier application and in case of divided application, date of filing an application
- (71) Name, surname and address of applicant (country code)
- (72) Name, surname of inventor (country code)
- (73) Name, surname and address of patent owner (country code)
- (74) Name, surname of representative or patent attorney
- (85) Date of commencement of the national phase of International Application
- (86) Number and date of filing of international application
- (87) Number and date of publication of international application

DESIGNS

- (10) Number of publication for application
- (11) Number of patent and kind of document or number of registration
- (15) Date of registration/Date of patent renewal
- (18) Expected expiration date of patent or registration
- (21) Serial number of application
- (22) Date of filing of the application
- (23) Date of exhibition or the date of the earlier filing and the number of application, if any
- (24) Date from which patent may have effect
- (28) Number of designs included in the application
- (30) Data relating to priority (number of application, date of filing of application, two-letter code identifying the authority with whom the priority application was made)
- (31) Number of priority application
- (32) Date of filing of priority application
- (33) Code of the country or regional organization allotting priority application number
- (34) Two-letter code according to WIPO St.3 identifying the authority with which the priority application was made
- (44) Date of publication of design and number of bulletin (the first publication)
- (45) Date of publication of design registered by WIPO and number of bulletin
- (51) International Classification for designs (class and subclass of the Locarno Classification)
- (54) Title of the invention
- (55) Reproduction of the design
- (57) Description of characteristic features of the design including indication of colors
- (62) Number of the earlier application, registration and document number and if available the date of filing an application in case of divided application
- (71) Name, surname and address of applicant (country code)
- (72) Name, surname of creator (country code)
- (73) Name, surname and address of patent owner (country code)
- (74) Name, surname of representative or patent attorney
- (81) Contracting states concerned
 - II designated contracting states according to the 1960 Act
 - III designated contracting states according to the 1999 Act

One from track 2 sections 5 has more distant sides then another for setting in each other at folding thereof; at that, the sections 5 are additionally connected to each other with through circle trays 9 executed in side parts 8 located adjacent to rotating transversal axis 4, and in parts 10 adjacent to the axis 4 they are connected with applicator sticks 11 movable installed in the trays 9. A stacker 43 installed on vehicle chassis is used for stacking mechanized bridge 1. Longitudinal guides 45 coupled in two rows are fixed onto vehicle chassis 44. Pulling out platform 46 is inserted with slipping ability in the guides 45. Rotating supports 47 are

installed on platform 46 nozzle arm ends for platform manipulation improvement at existence of obstacles. Pulling out platform 46 has Π -like lifting-lowering frame 48 installed therefrom longitudinal guides nozzle side. The platform 46 has flexible connection 49 with vehicle 44 case, which by means of through hole is connected to drum with drive installed on the case for frame reeling-curling at manipulation thereof.
