INID CODES FOR IDENTIFICATION OF BIBLIOGRAPHIC DATA

INVENTIONS, UTILITY MODELS

- (10) Number of publication for application, which has been examined
- (11) Number of patent and kind of document
- (21) Serial number of application
- (22) Date of filing of the application
- (23) Date of exhibition or the date of the earlier filing and the number of application, if any
- (24) Date from which patent may have effect
- (31) Number of priority application
- (32) Date of filing of priority application
- (33) Code of the country or regional organization allotting priority application number
- (44) Date of publication of application not granted, but examined and number of bulletin
- (45) Date of publication of registered document
- (51) International Patent Classification Index
- (54) Title of the invention
- (57) Abstract
- (60) Number of examined patent document granted by foreign patent office, date from which patent has effect and country code
- (62) Number of the earlier application and in case of divided application, date of filing an application
- (71) Name, surname and address of applicant (country code)
- (72) Name, surname of inventor (country code)
- (73) Name, surname and address of patent owner (country code)
- (74) Name, surname of representative or patent attorney
- (85) Date of commencement of the national phase of International Application
- (86) Number and date of filing of international application
- (87) Number and date of publication of international application

DESIGNS

- (10) Number of publication for application
- (11) Number of patent and kind of document or number of registration
- (15) Date of registration/Date of patent renewal
- (18) Expected expiration date of patent or registration
- (21) Serial number of application
- (22) Date of filing of the application
- (23) Date of exhibition or the date of the earlier filing and the number of application, if any
- (24) Date from which patent may have effect
- (28) Number of designs included in the application
- (30) Data relating to priority (number of application, date of filing of application, two-letter code identifying the authority with whom the priority application was made)
- (31) Number of priority application
- (32) Date of filing of priority application
- (33) Code of the country or regional organization allotting priority application number
- (34) Two-letter code according to WIPO St.3 identifying the authority with which the priority application was made
- (44) Date of publication of design and number of bulletin (the first publication)
- (45) Date of publication of design registered by WIPO and number of bulletin
- (51) International Classification for designs (class and subclass of the Locarno Classification)
- (54) Title of the invention
- (55) Reproduction of the design
- (57) Description of characteristic features of the design including indication of colors
- (62) Number of the earlier application, registration and document number and if available the date of filing an application in case of divided application
- (71) Name, surname and address of applicant (country code)
- (72) Name, surname of creator (country code)
- (73) Name, surname and address of patent owner (country code)
- (74) Name, surname of representative or patent attorney
- (81) Contracting states concerned
 - II designated contracting states according to the 1960 Act
 - III designated contracting states according to the 1999 Act
- (85) Owner's permanent address
- (86) Owner's nationality
- (87) Owner's residence
- (88) State in which the owner has a real and effective industrial or commercial establishment

TRADEMARKS

- (111) – Number of registration
- (151) – Date of registration
- (156) – Date of the renewal
- (181) – Expected expiration date of registration
- (186) – Renewal expiration date of registration
- (141) – Date of cancel of duration of the mark
- (210) – Serial number of application
- (220) – Date of filing of the application
- (230) – Data concerning exhibition
- (260) – Number of application, for which favorable decision of examination about registration has been taken (publication number)
- (310) – Number of the first application
- (320) – Date of filing of the first application
- (330) – Code, identifying national or regional Office where the first application was made
- (511) – International Classification of Goods and Services for the purposes of registration of trade marks and/or list of goods and/or services classified according thereto
- (526) – Disclaimer
- (531) – Description of figurative elements of Trade Marks according to the International Classification of the Figurative Elements of Marks
- (540) – Reproduction of Trade Mark
- (550) – Nature and kind of Trade Mark
- (580) – Date of recording of any kind changes in respect of applications or registrations
- (591) – Information concerning colors claimed
- (731) – Name and address of the applicant
- (732) – Name and address of the holder of the registration
- (740) – Name and address of the representative
- (750) – Address for correspondence
- (770) – Name and address of the previous applicant or holder in case of change in ownership
- (771) – Previous name and address of the applicant or holder in case of change in ownership
- (791) – Name and address of the licensee
- (793) – Indication of conditions and/or restrictions under the license (Type of license, number of license agreement, data of license, data of validity of license)
- (800) – Certain data relating to the international registration of Trade Marks under the Protocol Relating to Madrid Agreement (International registration number
- (891) – Date of subsequent designation

CODES FOR PUBLICATION IN BULLETIN

- (21) AP 0000 000000 – serial number of application for invention
- (10) AP 0000 0000 A – number of published application for invention (first publication)
- (11) P 0000 0000 B – number of patent for invention (second publication)
- (21) API 0000 000000 – number of application for imported patent
- (11) PI 0000 0000 A – number of imported patent (first publication)
- (21) AU 0000 000000 – serial number of application for utility model
- (10) AU 0000 000 U – number of published application for utility model (first publication)
- (11) U 0000 000 Y – number of patent for utility model (second publication)
- (21) AD 0000 000000 – serial number of application for design
- (10) AD 0000 000 S – number of published application for design (first publication)
- (11) D 0000 000 S – number of patent for design (second publication)

INTERNATIONAL PATENT CLASSIFICATION FOR INVENTIONS AND UTILITY MODELS

- SECTION A – HUMAN NECESSITIES
- SECTION B – PERFORMING OPERATIONS; TRANSPORTING
- SECTION C – CHEMISTRY; METALLURGY
- SECTION D – TEXTILES; PAPER
- SECTION E – FIXED CONSTRUCTIONS
- SECTION F – MECHANICAL ENGINEERING; LIGHTING; HEATING; WEAPONS; BLASTING
- SECTION G – PHYSICS
- SECTION H – ELECTRICITY

(54) **NOVEL PHENYLIMIDAZOLE DERIVATIVE AS PDE10A ENZYME INHIBITOR**

(57) There is represented compound

5,8-Dimethyl-2-[2-(1-methyl-4-phenyl-1H-imidazol-2-yl)-ethyl]-[1,2,4]thiazolo[1,5-a]pyrazine and pharmaceutically acceptable acid addition salts thereof. Said compound is applied at neurodegenerative and mental disorders treatment.

(54) **METHOD AND DEVICE FOR
UTILIZING STRAW-LIKE BIOMASS IN
FIXED BED GASIFICATION PROCESS**

(57) An invention relates to a method for utilizing biomass, wherein following steps are performed: first, at least one raw material containing carbon is thermally gasified. In a next step, the synthesis gas produced in the gasification is purified. During said purification, the temperature of synthesis gas is changed. Then the synthesis gas is preferably converted into liquid fuel by means of catalyzed chemical reaction, wherein straw-like biomass is selected as the raw material containing carbon, the gasification is performed in fixed bed reactor, and ash-softening temperature of straw-like raw material is increased by adding at least one alkaline-earth salt.

(54) RAILCAR BRAKE LINKAGE

(57) There is represented linkage comprising a cylinder 1 connected to driving lever assembly, the drafts allocated from each side of car trucks, the wishbone suspensions consisting at least of two couples 6, 7, 8 and 9 of vertical levers, wherein each therefrom is hingedly connected to a support with its one end, and saddles 11, 12, 13 and 14 are fastened on another end thereof; at that, each saddle is equipped with a brake block 10. A hinge-lever assembly is allocated between each couple of vertical levers. This assembly is appropriated for clipping blocks executed as two – inner and outer levers 17, 18, 19, 20 allocated parallel to each other, and as bindings 15 and 16 are hingedly connected thereto; at that, by means of draft the lower end of each lever of hinge-lever mechanism is connected to this end of corresponding vertical lever, whereon the saddle is fastened; furthermore, upper ends of inner levers of hinge-lever mechanism allocated from each side of truck are hingedly connected to intermediate draft 5 binding them, and one from outer levers is connected to support by means of draft 4, and another is connected to driving lever assembly 2 by means of draft 3.

1 – Chemicals used in industry, science and photography, as well as in agriculture, horticulture and forestry; unprocessed artificial resins, unprocessed plastics; fertilizers; fire extinguishing compositions; tempering and soldering preparations; chemical substances for preserving foodstuffs; tanning substances; adhesives for industrial purposes; sensitized films, unexposed; synthetic resins; thermoplastic and thermosetting synthetic resins and organic compounds for molding, for general use in industrial processes; intermediate chemicals; organosilicon compounds, namely polysiloxanes and silanes in the form of resins, pastes, fluids, elastomers, vulcanization and acceleration products; anti-foaming agents; catalysts for paints; chemicals for development and setting of x-ray films and other chemicals in connection with the development of said films; phosphorescent substances; chemical substances used as nuclear fission materials; fuel for nuclear reactors; fused quartz in various forms, such as disks, ingots, rods and tubes for general use in industrial processes; adhesive materials for use in industry; polycrystalline alumina ceramic for general use in industrial processes; brazing and soldering fluxes and products; thermoplastic and thermosetting adhesives; chemicals, biochemicals and reagents for use in industry, science and research; chemical reagents, kits and products for analysis or diagnosis for scientific purposes, namely chemicals for cell culture and separation, purification of nucleic acid, nucleotides, fluorescent nucleotides, oligonucleotides, peptides, proteins, amino acids, organic molecules and markers for DNA/RNA synthesis; luminescence reagents; reagents for gene expression quantifying; reagents for polymerase chain reaction processes; reagents for rolling circle amplification processes; reagents for DNA cloning and vectors, enzymes for modification and restriction; reagents for labeling, sequencing and fractal analysis of nucleic acids and proteins and customized synthesis; reagents for recombinant protein purification and expression; chromatography media; reagents for electrophoresis, biocomputing, spectrophotometry and fluorometry; radiochemical products for scientific research; rea-

gents for scintillation proximity assay; tests for high data rate analysis for producing medicines; reagents for high-resolution laser microscopy, fluoroscopic microscopy and confocal microscopy; specialized chemicals for use in industry, science and research; gases and gas mixtures for use in industry, science and research; chemical substances and products for manufacture of pharmaceutical products, diagnostic products and substances; chemical testing reagents, saline solution and paper coated with reagents, all for scientific use and for use in laboratories; fissile chemicals for scientific research; radioactive isotopes and elements for use in industry, science and research; radioactive sources and norms for radiographic technology; radioactive sources for non-destructive testing, purification and sterilization technology; radionuclides for scientific research; chemical compounds and chemicals for treatment of water supply systems, wastewater treatment systems, cooling water circuits, boiler water and steam generating systems, boiler condensate systems, liquid separation systems, systems for water purification and dehydration in aqueous systems, conditioning systems, gas purification systems, industrial process systems, fuel treatment systems, hydrocarbon and gas treatment systems, petrochemical systems and gas and oil treatment systems, pulp and paper making systems, metal and plastic coating systems, metal treating systems; chemicals, namely chemical additives for gasoline, additives for heating oil and additives for improving the efficiency of turbine engine fuel; bags with chemically treated granular materials for absorbing water to be placed in fuel tanks; testing kit comprising reagents for determining the presence of algae and active organic organisms in diesel; bacterial cultures and nutritive elements for treating sludge and wastewater; polymeric chemicals for dispersing particles in steam production equipment; chemicals and chemical compounds used as anti-fouling and demulsifying agents in operations for producing coke and metallurgy-derived products; chemicals, catalysts, plastic semi-processed goods used as materials, filters for removing acid gases, untreated plastics, crystal whiskers and diamond gray; radiopharmaceuticals for scientific use and for research; polymeric membrane materials for liquid separation.

2 – Paints, varnishes, lacquers; preservatives against rust and against deterioration of wood; colorants; mordants; raw natural resins; metals in foil and powder form for painters, decorators, printers and artists; corrosion inhibitors in the form of a coating for use in the metal finishing industry, namely an acid aqueous product for final rinsing; corrosion inhibitors in the form of a coating for cooling water circuits; corrosion inhibitors in the form of a coating, namely resinous coatings for masonry and metal surfaces; covering materials, etching liquids; toner cartridges for printers; ink cartridges for printers;

toners, toners for copiers, toners for facsimile machines.

3 – Bleaching preparations and other substances for laundry use; cleaning, polishing, degreasing and abrasive preparations; soaps; perfumery, essential oils, cosmetics, hair lotions; dentifrices; cleaning preparations containing chemicals and chemical compounds for cleaning steel, aluminum, mixed and galvanized metal surfaces for general industrial use for manufacturing goods of metal; cleaning agents containing chemicals and chemical compounds for industrial use for removing contaminants in Industrial process systems; paint stripping preparations containing chemicals and chemical compounds for removing paint from equipment surfaces in spray-painting booth operations.

4 – Industrial oils and greases; lubricants; dust absorbing, wetting and binding compositions; fuels (including motor spirit) and illuminants; candles and wicks for lighting.

5 – Pharmaceutical and veterinary preparations; sanitary preparations for medical purposes; dietetic substances adapted for medical use, food for babies; plasters, materials for dressings; material for dental fillings and dental impressions; disinfectants; pesticides; fungicides, herbicides; pharmaceutical preparations for diagnosis; veterinary pharmaceutical preparations for diagnosis; veterinary and pharmaceutical substances for medical use; diagnostic preparations and reagents for medical use; diagnostic substances for medical use; contrasting substances for medical imaging; scanning diagnostic reagents for use in vivo; diagnostic imaging agents for magnetic resonance imaging (MRI); radiopharmaceuticals for medical and clinical use; radiopharmaceutical sources and norms for nuclear medicine; radioactive pharmaceuticals and non-radioactive reagents for producing radiopharmaceuticals for in-vivo diagnosis or for therapeutic use; gases and mixtures for medical imaging; pre-filled bottles containing reagents for medical diagnosis; pre-filled cartridges containing chemical solutions for medical use; pre-filled cylinders containing gases and gas mixtures for medical use; implantable radiotherapy devices consisting of radio-isotope brachytherapy sources in capsules; radiotherapy administration system consisting of radioactive pellets and of a bioabsorbable carrier set.

6 – Common metals and their alloys; metal building materials; transportable buildings of metal; materials of metal for railway tracks; non-electric cables and wires of common metal; ironmongery and small items of metal hardware; pipes and tubes of metal; safes; goods of common metal, not included in other classes; ores; locks of metal; metal security casings, namely key cabinets, security key storage tubes and boxes; sealed post boxes of metal for industrial,

residential, real estate and vehicle sales; metal key cabinets for key locking, search and storage; metal safes for keys; metals and alloys in unworked, liquid, sintered, pressed, machined, sheet, wire, pellet, rod, band and cast form; chains for keys; trolley wires for wiring, doors of metal, barriers of metal, electric garage doors, acid-resistant high-polymer coatings, sheet steel, steel panels for office floors, welding wires; small hardware of metal; small goods of metal; soundproofed sheets and plates of metal.

7 – Machines and machine tools; motors and engines (other than for land vehicles); machine coupling and transmission components (other than for land vehicles); agricultural implements other than hand-operated; incubators for eggs; apparatus, equipment and instruments for electricity production, namely electrical and wind energy generators generating electricity; turbines; turbines for energy production; wind turbines for energy production; wind turbines linked to wind farms, turbine-powered production installations, namely installations for electricity production; power-generating engines; and parts and components of all the aforesaid goods; solar energy electricity generators; machines and systems of machines, including parts and accessories for electricity production, transformation and conversion; dynamos, electric motors of all kinds, steam and gas turbines and their parts, electrical generators and their parts, aircraft engines, compressors; laundry washing machines, dishwashers, grinders and compactors of waste; pumps, namely centrifugal pumps, diaphragm pumps, bellows pumps, pumps and transfer pumps; liquid control devices, namely valves, regulators, actuators, ejectors, liquid separation cartridges and their parts, including semi-permeable diaphragms; filtering cartridges for various industrial machines for filtering applications, including for filtering of coating solutions for manufacturing of magnetic tapes and for filtering of petrochemicals, drinking water, beer in the brewing industry and other special chemicals; machines for supplying and applying chemicals for industrial use; axial-flow and radial-flow compressors; piston compressors; screw and sliding-vane compressors; rotary, vacuum, electric, submerged and centrifugal pumps; turbo-expanders, namely, air and electric compressors; CNG refueling machines for land vehicles and industrial equipment and accessories and parts of all the aforesaid goods, namely pumps, valves, fuel filters, filter housings, distributor rotors, blades, bearings and mechanical joints; steam condensers; motors for boats; turbo-compressors for engines; fuel injectors; industrial robots, machines for insertion of electronic components, dry etching machines, electric micro-discharge machines, systems for production of optical discs, precision connection equipment, treatment machines for printed wiring panels, welding rods, machines for as-

sembling parts, brazing machines, machines for fixing screws, electrical tools; electric motors, electric generators; elevators (lifts); washing and drying machines, electric washing machines, electric dishwashers; compressors (non-surgical); pumps, electric pumps; mixing, cutting and chopping machines, mixing machines, electric centrifuges, electric food processors, electric meat grinders, electric can openers, electric knife sharpeners, electric coffee grinders, electric ice crushers, electric waste-processing machines; garden tools, electric lawnmowers, garden vaporizers for disinfectants and insecticides; electric apparatus for cleaning, electric vacuum cleaners, electric floor polishers; electric window washers; electric hand tools and implements; welding machines, plasma, gas or arc-cutting machines for cutting metal; mixers, centrifuges, hand-held mixers, food processors.

9 – Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; automatic vending machines and mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment and computers; fire-extinguishing apparatus; protective helmets for sports; spectacles, sunglasses, goggles for sports; computer software, computer game software; fuel pumps for service stations for aircraft engine refueling; fuel distribution equipment, namely calibrated fuel pumps, electric fuel-level gauges, control valves for regulating gas flow and fuel lines; automated systems for service-station management comprising operating software, calibrated fuel pumps, flow control panels, fuel lines and pump nozzles for refueling of land vehicles, marine vehicles and aircraft; gas meters; on-board and roadside signaling and communication systems, train inspection systems, crossing notification systems, apparatus for electric control of switching; GPS tracking and monitoring systems for the railway and transit industries; electrical distribution products and devices, namely capacitors, circuit breakers, circuit-breaker patch boards, circuit closers, contact breakers, commutators, contactors, current rectifiers, current limiters, electric contacts, electric collectors, electric conductors, electric connectors, electric controllers, electric inductors, electric power supply systems, distribution boards and branch boxes (electricity), electrical distribution consoles, electrical switchboards and switchboxes; software for persons in charge of troubleshooting and maintenance of programmable controllers, software for blood vessel analysis, including heart vessel analysis, also with calculation functions with

regard to blood vessels, software for medical patient-monitoring equipment, software for receiving, processing, transmitting and displaying data, software for developing customized programs for asset allocation; software for use on line enabling vendors of office equipment to place orders, to manage portfolios and communicate with the company; software for accessing mortgage and insurance information, software for collecting data concerning vital signs, software for analyzing electrical systems and electronic instruction manuals sold in the form of sets, software for employees of financial institutions used for assessing customers' financial investments and processing the sale of the investments identified, software for obtaining information on the risk of flooding with regard to real property, software for developing graphic user interfaces and displaying data, software for calculating mortgage payments, software for controlling and managing vehicle fleet maintenance services, software for using and accessing commercial information technology services, software used by clients to obtain information regarding lease portfolios, software for a radiology information system for radiologists and radiology departments, software for managing databases containing information on employees and patients for archiving purposes and patient follow-up, software installed on and used with PCs and medical monitoring equipment for graphic user interfaces, software for sending encrypted and compressed data to radio-paging (transport) systems, software for providing access to web sites so that buyers and sellers can carry out business transactions by electronic means, and software for subterranean navigation, namely navigation of the assembly of a depth probe for oil drilling and drilling assemblies so as to set up subterranean installations; electronic, nuclear, industrial and laboratory instruments and apparatus, for testing, measuring, calculating and monitoring; electrical products, electricity production and distribution products and voltage surge protection products, namely lightning conductors, armored rods; electric capacitors; switches for lighting; input/output devices and controls; fuses; controls for lighting; switch boxes, DELs, namely light-emitting diodes, electrical voltage regulators, voltage surge protectors, voltage surge limiters, voltmeters, electrical circuit boards, relays and timers, electromagnetic switches and limit switches, manual full-voltage starters, reduced-voltage starters, electric disconnecting switches and switches, splitters for circuit boards and short-cycling panels, circuit breakers and disconnecting switches, transformers, electric circuit and electric lighting boards, electric wires, cables, cords and conductors, electric wiring and accessories, lightning conductors, electricity meters, wattmeters, grounding resistances, humidity and temperature sensors; industrial calibration sensors, push buttons, engine and motor control centers and their

electric controls and voltage regulators included in this class; computer programs and software for medical use, industrial use and for research; electrophoresis apparatus; chromatography columns and pumps; apparatus for microfabrication; apparatus for bio-informatics systems; scintillation apparatus; imaging apparatus for luminescent and radioactive emissions; integrated purification and synthesis systems; oligonucleotide-producing apparatus; optical laser systems for digital imaging; laboratory glassware; vials and micro-vials; microtiter plates; software for managing hospital operating rooms; software for intensive care information management; software for industrial operation control; software and manuals therefor sold in the form of sets for plant management; graphic interface computer programs for controlling machines in industrial automation applications; software for creating graphic presentations and editing dynamic data interfaces for real-time graphic applications for industrial and commercial use; communication software for providing connections among computer network users; software for injection molding of plastic; software for controlling, monitoring, simulating, communicating, recording and collecting data and for plant automation; software for integration of manufacturing machine operations, process control, supply of data for displaying, problem follow-up and production report generation; software packages for operating and programming grinders in the manufacture industry; computer hardware for monitoring Industrial processes, namely computerized monitors; portable computers, Ethernet cards and cables; computer networking hardware, memory boards; microchips; microprocessors; computer network hubs, switches and routers, computer accessories, displaying devices and terminals; computer whiteboards; processors and system cards; call controllers, operator interfaces, reference interfaces and data collectors; applications for manufacture and control, namely for statistical process control, data collection, direct digital control; document management systems; digital signal processing products and systems, namely, industrial automation controls and programmable logic controllers; adaptive control product in the form of an external controller for optimizing rough and semi-rough cutting performance of machine tools; distributed and remote input/output equipment, input/output modules, interface modules, electricity supplies and assembly equipment; anti-theft and burglar alarm systems; security devices, namely logic programming computers, control panels, electronic burglar detectors, electronic glass-breakage detectors, electronic vibration detectors, magnetic contacts for security systems, electronic switch plates, electronic motion detectors for alarm systems, electronic motion-sensitive switches, fixed connection sirens, audio loudspeakers, electronic navigation systems, alarm monitoring and access

control systems; fire, smoke and heat alarms and detectors; systems for access control with computer cards; card readers, card encoders and encoded cards for card-operated access control systems; video cameras; video devices for object recognition; video devices for object following; video devices for reading license plates; video devices for checking alarms; video devices for facial recognition; video devices for vehicle recognition; video devices for traffic detection; video devices for access door control; video devices for burglar detection; processing software or hardware used for analyzing digital video images for extracting, recording and reporting information automatically, and remote video surveillance systems for surveillance and security applications; central video monitors; videotape recorders; apparatus for shooting and filming; closed-circuit video systems; closed-circuit video systems consisting of one or several cameras and camera housings; wireless, short-range and radio-frequency transceivers; transceivers for electrical lines; communication monitoring equipment for operating closed-circuit cameras; communication monitoring equipment, namely numeric-pad controls, matrix switching devices, multiplexers, digital video recorders, integrated swinging panoramic zoom domes, remote video controllers, receivers, electronic alarms, triggers and management controls and video transmission devices sold separately or as parts of a closed-circuit camera operating system; personal digital assistants (PDAs) configured for use by real estate professionals; communication interfacing devices for personal digital assistants (PDAs); fiber-optic transmission systems, namely fiber-optic transmitters, receivers and transceivers for transmission of video signals, audio signals and data via optical fibers; electric switches; electromechanical locking devices; magnetic cards for locks, access control, presence control, alarms and security systems; electronic keys; portable electronic hardware for reception, control, storage, handling, display and transmission of data and for actuating electronic locks; electronic access cards and their readers and encoders; magnetic access cards and their readers and encoders; memory access cards and their readers and encoders; proximity cards and their readers and encoders; key holders and their readers and encoders; barcode access cards and their readers, encoders and laminators; access keypads; radio-frequency tracking devices; tracking and control systems consisting of one or several detectors, transceivers and radio-frequency beacons for determining and checking the location and movements of assets, stocks and people; infrared sensors; computer hardware and software for managing infrastructures and monitoring systems for accessing infrastructures and components thereof, namely control boards, access card readers and video imaging, video surveillance, digi-

tal hard disk recording, network transmission and remote access equipment and systems; networked digital video storage servers, applications for surveillance and access control, alarm and security monitoring, computer hardware and software for monitoring and operating access and security systems comprising locking systems, doors, access and identification devices; and security cases in the form of boxes for keys; surveillance and monitoring equipment sold separately or as components or in the form of sets such as systems comprising one or several surveillance cameras, hidden cameras, closed-circuit television cameras, camera casings, camera stands, lenses, video monitors, video recorders, digital recorders, video recording media, video switches, control panels, numerical pad controls, joysticks, interface apparatus for alarms and access control equipment, transceivers, receivers, transmitters, signal processors, multiplexers, matrix switches, controls, control panel casings, switch housings, transformers, switches, splitters, coaxial cables, connectors, motion detectors, microphones and loudspeakers; user interface software and control software for management of access, security and fire-extinguishing systems; electric locks; portable electronic communication and computer equipment for data reception, control, storage, handling, display and transmission for operating electronic locking devices; electronic key holders, readers and encoders; computer hardware and software for data processing; electric power supplies, namely batteries, rectifiers/regulators of current/voltage and transformers; control panels, namely electronic apparatus designed for electronically monitoring a predefined activity and for activating an anti-theft alarm; loudspeakers for sirens; and electronic siren controls, namely ringer tone generators and amplifiers for sirens; software for controlling communication equipment for operating and controlling closed-circuit cameras; switching devices integrating magnetically triggered blade switches for anti-theft alarm systems and fire alarm systems, in industrial tracking apparatus, revolution counters, security lock systems for equipment cabinets, industrial position-monitoring apparatus, electric cables and pump and valve monitoring apparatus and home security alarm systems; electric and electronic checking apparatus for detecting the presence of certain substances on people, in luggage and freight; electric and electronic checking apparatus for detecting the presence of explosives and/or narcotics on people, in luggage and freight; apparatus for detecting the presence of explosives and other contraband; timers or sensitive apparatus for detecting changes in conditions for launching and monitoring regeneration or washing cycles for waste treatment equipment; control valves for water treating and filtering equipment; bioreactors for cell culture; portable analysis instruments, namely a probe with a recorder for data con-

version equipped with microprocessors for measuring organic and inorganic products in water; filters and filter housings for laboratories; membrane filters for laboratories; silt density measuring devices; deionization devices for laboratories, filters and filter housings for laboratories; liquid separating apparatus for laboratories; membranes for laboratories; liquid flow control devices, namely pumps, valves, flowmeters and regulators for laboratories; ozone monitoring instruments; laboratory equipment, namely porous titration microplates for cellular biology and other applications in life sciences; electronic controls for water treatment and processes, namely apparatus for treatment of industrial and commercial water supply systems, boiler water systems, water cooling systems, cooling water systems and closed water-supply systems, systems for paper and pulp treatment, fuel treatment systems and metal treatment systems for analyzing system chemistry, determining the right treatment program, applying the desired treatment and monitoring treatment efficacy; data management software in the field of paper, pulp and water treatment; electronic controls for data processing in the field of paper, pulp and water treatment; apparatus for industrial water-supply systems for measuring and checking pH and conductivity; apparatus for supplying an industrial, commercial or municipal water supply system with measured quantities of chemicals; electronic testing apparatus for water treatment; laboratory testing equipment, namely apparatus for testing deposit levels and corrosion speed; mobile laboratory equipped with instruments and equipment for measuring and monitoring pH, conductivity and concentration of chromate in domestic and industrial water, for carrying out inorganic and microbiological water testing; electronic and electrochemical products, namely fuel cells; apparatus for converting photo-electric radiation to electrical energy, namely, photovoltaic solar modules, hybrid photovoltaic solar modules, electronic sensors for measuring solar radiation, photo-cells; apparatus for converting electronic radiation to electric energy, namely photovoltaic solar modules, systems and components and all related system components; printers, laser printers, ink-jet printers, multi-function and multi-purpose printers, parts of all the aforesaid goods; portable electronic devices for wireless reception and/or transmission of data, enabling users to store or manage personal information and to transmit and receive voice, video and image communications; software for synchronization of data between a remote unit or station and a fixed unit or station, and software providing a one-way and/or two-way wireless connection to data; portable digital electronic apparatus and related software; portable electronic devices for wireless data reception and/or transmission; software for re-orientation of messages, electronic mail and/or other data from a personal

computer or a server towards one or several portable electronic devices; computer programs and software for wireless device operation and management; apparatus for telecommunication; software for accessing, researching, indexing and recovering information and data from global computer networks and global communication networks, and for navigation on web sites in the aforesaid networks; software for sending and receiving short messages and electronic mail and for filtering non-text information from data; portable electronic devices for voice, video, data and image communications; computer game software for mobile telephone receivers; electronic game software for mobile telephone receivers; software, software packages; batteries, dry cells and batteries, rechargeable batteries, battery chargers, storage batteries, solar cells and batteries, fuel cells; carbon, carbon electrodes for dry batteries, carbon electrodes for welding; wiring apparatus, connectors (electric), electric cables, electric ducts, floor ducts specially designed for housing electric cables, ballast (for discharge lamps), wiring systems under carpets, code lighting switches, circuit breakers, magnetic starter switches and contactors, circuit protectors, switching devices, electric connecting boxes, device switches, output jacks, plugs (electric), insulating materials, electric timers, other wiring devices; signaling apparatus and instruments, video intercoms, intercom systems, electric door chimes, intercoms, fire alarms, gas-leak alarms, anti-theft alarms, portable emergency intercoms; acoustic machines and apparatus, radios, tape recorders/players, radio cassette recorders, portable tape players, compact disc recorders/players, minidisc recorders/players, minidisc consoles, DVD audio recorders/players, secured digital recorders/players, secured digital cards, loudspeakers, tuners, amplifiers, stereo systems, disc readers, graphic equalizers, alarm clocks, integrated circuit recorders, digital audio processing devices, earphones, headphones, microphones, cassette recorders/players, software for compact discs (prerecorded), electric megaphones, language laboratories, audio systems for cars, public address systems, mixing consoles, cleaning products for audio equipment, audio cables, video cables, other audio machines; audiovisual machines and apparatus, television sets, cathode ray tube display devices, cathode ray tubes, image pick-up tubes, plasma television sets, plasma display devices, television sets (liquid crystal display), liquid crystal display monitors, television sets combined with video tape recorders, television sets combined with disc players, antennas, tuners for satellite broadcasting, television tuners, Internet terminals, video projectors, video cassette recorders, camcorders, video cameras, video printers, laser disc players, video CD (compact disc) players, software for video CD (compact disc), video recorders/players for DVDs, color video systems for large-scale

display, cable television systems, hard disk units, video imaging devices, electric optical display boards, multi-purpose electric display systems, closed-circuit video equipment systems, software for DVDs, television cameras, video switches, non-linear editing systems, editing controllers, DVD creation systems, LED displays, other audiovisual machines; optical disc machines and apparatus; optical disc units, optical disc recorders, optical disc readers, optical disc changers, optical disc cartridges, optical disc recording systems; communication apparatus and machines, facsimile transceivers, transceivers, telephones, cellular mobile telephones, cases for cellular mobile telephones, telephone answering machines, private auto-switch systems, global positioning system receivers, radiotelephones, marine radars, radio-paging receivers, mobile communication systems, multi-channel access radio systems, electric panels for traffic information, videoconferencing systems, private portable telephone systems, local network systems, AV codecs (coder-decoders), navigation systems for cars (road guidance systems), electronic systems for road toll collection, GPS (global positioning system) antennas; surveillance (monitoring) apparatus and instruments, electric door opening devices, communication and surveillance systems for apartment structures, intruder detection systems, automated systems for surveillance and control of functions in buildings, security apparatus with several electrical layers; automatic control machines and instruments, electric distribution boards, road signal control apparatus, bus placement systems, ultrasound vehicle detectors, information and telecommunication networks for road traffic management, light dimmers, light switches, inverters, programmable control systems, transformers, cabinets, domestic electricity production systems, power capacitors; data processing equipment; computers and computer peripherals, word processors, software (recorded), image scanners for personal computers, printers, PC cards, computer keyboards, mice (data processing equipment), CD-ROM units, diskette units, card reading/writing systems, barcode readers, time recorders, portable data terminals, point-of-sale systems, data collection terminals, personal digital assistants (PDAs), DVD-RAM/ROM units, CAD/CAM (computer-aided design/computer-aided manufacturing) systems, hard disk units, electronic calculators, uninterruptible power supplies for computers /communication/ broadcasting; external storage devices, video cassettes, cleaning heads, D-VHS (video systems for household use), other computer peripherals; video tapes, audio cassettes, diskettes, optical discs, mini-discs, DVDs (digital versatile discs), integrated circuit memory cards; weighing and measuring apparatus and instruments, thermoluminescent dosimetry systems, portable x-ray dosimeters, electronic meters, ammeters, electricity consumption meters, grip measuring

devices, electric apparatus for measuring leakance, electric insulation meters, thermometers, measuring system processors, electric multi-circuit sector voltage monitors, micro-precision measuring devices, body fat monitors, pacers, audio/video analyzers, oscilloscopes, modulators, voltmeters, distortion meters, other measuring apparatus; sensors, light-sensitive sensors, thermometric sensors, position sensors, angular velocity sensors, rotation sensors, angle sensors, dew point sensors, other sensors; electric components, LEDs, liquid crystals, liquid crystal display modules, magnetrons, diodes, transistors, thermostats, integrated circuits, semi-conductor storage devices, micro-computers with a single chip, cartridges for microphones with electric capacitor, gray-scale image processors, thermal print heads, magnetic heads, permanent magnets, connectors, relays, display components, semi-conductor lasers, charge coupling devices, image detectors, film capacitors, over-oxygenation membrane units, electric tuner units, high-frequency units, coin validation units, note validation units, magnetic card reading/writing devices, voltage-controlled oscillators, phase-locking circuit synthesizing modules, wireless communication module units, optical transmission components, printed wiring boards, loudspeaker components, electricity supplies, AC adaptors, focusing magnets, inductors (coils), capacitors for electric apparatus, electric signal filters, transformers, deflection coils, thermistors, varistors, piezoelectric ceramic components, acoustic-optical components, resistances, potentiometers, encoders, printing units, hybrid integrated circuits, switching components, heat-welding wiring boards, transparent button boards, electroluminescent components, remote control units, magnetic resistance elements, thermal disconnects, other electric utensils for household use, electric flat irons, electric hair curlers, electric hair straightening or curling irons; electric arc-welding apparatus, welding electrodes, electric timers; equipment for processing data, particularly for financial applications; operating system programs; computer hardware and software, particularly for local and wide-range computer network development, maintenance and use; systems for reading memory cards and systems for reading stored data including integrated circuit memories and bank card memories; automatic ticket dispensers; accounting machines; encoded cards, including magnetic cards and integrated circuit cards, particularly for financial applications; card readers, printing apparatus, including printing apparatus for data processing systems and financial transaction systems; machines for banking institutions; encoders and decoders; modems; encoded magnetic cards, cards with electronic data, readers for encoded magnetic cards, readers for cards with electronic data, electronic encryption systems, computer hardware, computer terminals, software used in financial services, in the

banking and telecommunication industries; electric and electronic products, namely calculating machines, pocket planners, alarms and torches; bank cards, including printed bank cards and bank cards with magnetic memory and with integrated circuit memory; bank cards, credit cards, debit cards, including such cards equipped with integrated circuits and microprocessors; memory cards (smart cards); automatic cash dispensers; data processing equipment and computers including cards equipped with microprocessors and integrated circuits; computer hardware in the form of integrated circuit cards and card readers containing transponders and other proximity payment devices; computer mouse pads; machines and machine systems, including parts and accessories for transmission, distribution and control of electricity; induction devices, electrical displacement devices, electricity control and regulation devices, electricity measuring instruments, electrical protection devices, switchboards, switchboard apparatus, wiring devices and supplies; liquid control devices, namely, flowmeters, manostats, sequential timers, electric controls and switches; electric devices for killing insects, audio amplifiers for keyboards, external memories for musical instruments; electro-thermal hair curling apparatus, electric hair straightening or curling irons, electric hair curlers; systems for managing data and preserving archives in the field of anesthesia.

10 – Surgical, medical, dental and veterinary apparatus and instruments, artificial limbs, eyes and teeth; orthopedic articles; suture materials; test kits for clinical medical use comprising test tubes, test plates and indicator diagrams for evaluating test results; systems comprising medical apparatus and accessories for administering measured doses of pharmaceutical preparations; bottles for medical use; cannulas for medical use; syringes for medical use; injectors for medical use; cartridges for medical use; infusion pumps used for administering liquids intravenously; needles for medical use; cardiac output monitors; humidity and heat exchangers for medical use; bacterial filters for medical use; gas analyzers for medical use; patient monitoring systems, namely gas monitors; pulse oximeters, multi-parameter monitors, ECG monitors, invasive and non-invasive blood pressure monitors, neuromuscular transmission monitors, metabolic monitors and spirometers for diagnostic, intensive care and anesthesia applications; anesthetic machines and ventilators; anesthesia and intensive care accessories for a single patient, namely gas sampling lines, airway adapters, respiratory circuits, spirometry tubes and sensors, tubes, water separators, pulse oximetry sensors, non-invasive sphygmomanometers, rinsing sets, anesthesia masks, carbon dioxide absorbers, temperature-sensing probes and nebulizers; central nervous system monitors; gastric tonometers; gradient coils, namely magnetic gradient coils for magnetic reso-

nance imaging; medical diagnosis devices, namely bone densitometers; fetal monitoring apparatus, namely fetal pulse and vital sign monitors; patient monitoring apparatus, namely, vital sign and cardiac monitors, medical imaging systems, namely ultrasound imaging machines for medical diagnosis, imaging devices for diagnostic and screening applications for planning operations and surgery, and their parts and accessories; medical diagnosis apparatus for displaying diagnostic images, namely spot film apparatus, image intensifiers, fluoroscopes, mobile x-ray devices, x-ray film viewers, CAT scans, nuclear resonance apparatus, ultrasound scanners, magnetic resonance apparatus, positron emission tomography apparatus (PET scans) and their parts and accessories, including tables and pads; electronic apparatus for measuring blood pressure, laser apparatus for medical treatment, ultrasound diagnosis equipment, acoustic apparatus, laser scalpels, electric massaging apparatus, portable vibrators for medical use, low-frequency muscle stimulators for medical use, high-frequency apparatus for medical use, electric air mattresses for preventing bedsores, electric inhalers for therapeutic use, electrically heated pads, CCD (charge-coupled device) sensor systems, medical apparatus for measuring bone density.

11 – Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; solar panels, panels for capturing solar energy; solar lighting accessories, namely lighting units and solar light fixtures for indoor and outdoor use; solar-thermal installations, namely solar-thermal modules; solar water heaters; gas and electric cooking apparatus for household use, namely gas and electric cookers, cooking rings; gas and electric cooktops and ovens; heat exchangers; thick-wall chemical reactors and nuclear reactors and accessories and components thereof, namely, heat pumps, valves for steam systems and valves for regulating liquid and gas flow; electric lamps of all kinds and their parts; electric lighting accessories and their parts; freezers, air-conditioning apparatus, electric ovens, cookers, electric refrigerators; microwave ovens for cooking; wall-mounted cooking ovens for household use; food heating drawers; convection ovens, gas and electric cooktops; gas and electric cookers and cooking ovens; ventilation hoods for stoves and exhaust fans; water filters; water softeners; laundry driers; electric fans, ceiling fans, flashlights; vehicle lamps and lights; electric lights for Christmas trees; liquid separation devices; liquid concentration devices; liquid recycling devices; filters for filtering of solids from gas and liquids or for filtering of liquids from gas and for filtering of an immiscible liquid from another; spiral cartridges or elements contained in a tubular plastic sleeve for concentrating goods and removing impurities in liquid treatment systems; water condi-

tioning devices for residential use; reverse osmosis modules and their membranes; devices and systems for water purification consisting of clarification units, electric deionization systems, condensate polishing filters, vacuum degassing devices, ultrafiltration devices, ultraviolet sterilization devices, ion exchangers, systems for regeneration of acids and caustic products, reverse osmosis systems, forced-air carbonate removal devices, filters, systems for supplying chemicals and devices for storage of bulk goods, sold with automatic controls and instruments for monitoring device and system operation parameters, electrochemical purification devices for liquids for industrial, commercial and municipal use; water filtering devices for household, industrial and commercial use; wastewater purification units; drinking water purification devices for household, industrial and commercial use; liquid separating devices, namely industrial liquid filters; recycling devices, namely liquid purification devices; water treatment equipment, namely cartridges; water treatment equipment for household use, namely water softeners and water conditioners; support filters and depth filters for removing deposits, iron, sulfur, tastes and smells from water; reverse-osmosis water purification devices; depth filter units and cartridges for filtering liquids and air for household, industrial and commercial use; disposable cartridge filters for filtering industrial water; apparatus and installations for lighting, incandescent bulbs, gas discharge starters, grooved fluorescent lamps, fluorescent lamps, tungsten and halogen lamps, pocket lamps, fluorescent lanterns, other lamps, fluorescent lighting apparatus, dynamo lighting kits for bicycles, germicidal lamps, other lighting apparatus; cooking apparatus and installations, automatic bread-making machines for household use, electric kettles, electric rice cookers, gas rice cookers, crock pots, electric grills, cooking ovens, toasters, coffee machines, cookers, electric thermal-insulating coffee machines, gas cookers, induction cooktops, electric barbecue grills, microwave ovens, gas cookers with ovens, electric saucepans, sink trays, other kitchen ranges; freezing and refrigerating apparatus and installations, refrigerators, freezers, cold/hot water dispensers, refrigerating and freezing display cases, electric water coolers, ice-making apparatus; ventilation apparatus and instruments, electric fans, fans, electric air purifiers, extractor hoods for cookers, electric dehumidifiers, electric humidifiers, blowers, blinds propelling cold air, air exhaust units, ceiling fans, ceiling ventilators, electrostatic dust extractors, their parts and components, all included in this class; other ventilation apparatus and installations; heating apparatus and installations, apparatus for steam generating, drying, cooling and air conditioning, air conditioners, blade fans for air conditioning, apparatus for cooling air by evaporation, stoves, electric radiators, electric blankets, electric floor carpets,

kerosene-powered fan heaters, electric foot warmers (kotatsu), wireless gas radiators, other heating/cooling and air-conditioning installations; water distribution apparatus; sanitary installations, electric bidets, toilets, self-cleaning toilet seats, portable toilets, systems for wastewater treatment by aeration, water purifiers, incinerators (waste incinerators), household waste processors, saunas, bathtubs, bath installations, electric showers; water heaters, gas-powered instantaneous water heaters, other water heaters; driers, dish driers, electric hair driers, laundry driers, other driers; electric lamps, electric driers, electric-resistance heating cables; metallic kitchen sinks; laundry driers.

12 – Vehicles; apparatus for locomotion by land, air or water; electric motors and diesel engines for land vehicles; bicycles, tires and tubeless tires for bicycles, automatic vehicles, electric bicycles; tires.

14 – Precious metals and their alloys and goods in precious metals or coated therewith, not included in other classes, particularly commemorative medals and coins; jewelry, precious stones; pins; timepieces and chronometric instruments; key rings.

16 – Paper, cardboard and goods made from these materials, not included in other classes; printed matter, particularly postage stamps; newspapers, periodicals, books, photographs and posters; bookbinding material; stationery; adhesives (glues) for stationery or household purposes; artists' supplies; paint brushes; typewriters and office requisites (except furniture); instructional or teaching material (except apparatus); plastic materials for packaging (not included in other classes); printing type; printing blocks; computer printouts; checkbooks, punched cards; electronic newspapers and periodicals; paper shredders, electric staplers, battery-powered letter openers, electric pencil sharpeners, electric perforators, electronic typewriters, ribbon cartridges for electronic typewriters, apparatus for printing checks, thermal paper; disposable paper or cellulose diapers, pants, diapers and napkins.

17 – Rubber, gutta-percha, gum, asbestos, mica and goods made from these materials and not included in other classes; plastics in extruded form for use in manufacture; packing, stopping and insulating materials; flexible pipes not of metal; silicone mastics for various uses, particularly for caulking of bathtubs, boats and automobiles; impervious and road covering material made of silicone, roofing covering made of silicone rubber; plastic compounds for glazing; plastic materials in the form of sheets, plates, blocks, all for manufacture; electric insulation materials, electric insulation devices, including insulating varnish, silicone rubber compounds; plastic materials in the form of sheets, rods or plates, modeling materials.

18 – Leather and imitations of leather, and goods made of these materials and not included in other classes; animal skins; trunks and travelling bags; umbrellas, parasols and walking sticks; whips, harness and saddlery.

19 – Non-metallic building materials; rigid pipes, not of metal, for building; asphalt, pitch and bitumen; transportable buildings, not of metal; monuments, not of metal; thermoplastic building materials, namely thermoplastic molded and extruded materials used as substitutes for wood, metal or glass, for supporting or covering; doors (not of metal), rain gutters, ceiling panels, folding doors, wooden floors, roofing tiles, prefabricated houses, laminates, connecting tracks, steps (ladders) not of metal, building materials with soundproofing properties; non-metallic roofs, with solar cells; plastic panels for building; thermoplastic materials used as building materials for insulation, covering (roofing) and glazing; water pipes made of PVC (polyvinyl chloride).

25 – Clothing, footwear, headgear.

28 – Games, toys; gymnastic and sporting articles not included in other classes; decorations for Christmas trees; playing cards; electric floats for fishing, apparatus for tying fishing lines to hooks, electronic apparatus for practicing golf, wax applicators for skis; stationary exercise bicycles and rollers.

29 – Meat, fish, poultry and game; meat extracts; preserved, dried and cooked fruits and vegetables; jellies, jams, compotes; eggs, milk and milk products; edible oils and fats.

30 – Coffee, tea, cocoa, sugar, rice, tapioca, sago, artificial coffee; flour and preparations made from cereals, bread, pastry and confectionery, edible ices; honey, treacle; yeast, baking-powder; salt, mustard; vinegar, sauces (condiments); spices; ice for refreshment.

32 – Beers; mineral and aerated waters and other non-alcoholic beverages; fruit beverages and fruit juices; syrups and other preparations for making beverages.

35 – Advertising; dissemination of advertisements by all media, particularly in the form of themed messages focused on human values; advertising by sponsorship (sponsoring); business management; business administration; office functions; promotion of the goods and services of others, by means of contractual agreements, particularly partnership (sponsorship) and licensing agreements, affording them with increased notoriety and/or enhanced image and/or sympathy derived from the notoriety and/or enhanced image resulting from cultural and sporting events, particularly international events and/or sympathy generated by the above; promotion

of the goods and services of others by means of what is referred to as the initial interest factor driving the public to consider, from among many competitors, goods or services presented with signs, emblems or messages so as to capture its attention; promotion of the goods and services of others by means of the so-called image transfer; rental of advertising space of all type and on all media, whether digital or not; business administration of the participation of national teams to an international sports competition, and promotion intended for the public and bodies interested in providing support to the aforesaid teams; inventory management services; advice relating to stock monitoring services; advertising by means of direct marketing for others consisting in marketing of databases; advice for advertising by means of direct marketing for others consisting in marketing of databases; advisory services in connection with business reorganization; automobile and truck fleet management services, namely billing via a global computer network; advice in connection with the management of automobile and truck fleets; business administration consultancy; management of power plants of others; advice regarding management of electric power plants; commercial services, namely administration of contracts for repair and servicing; supply chain management services and advice relating to the purchase and supply in terms of chemicals and chemical services; product inventory and supply services, limitation of costs; advice, marketing, analysis of prices and costs concerning devices for electrochemical purification of liquids for industrial use; administrative, commercial and technical management of computer files; data input and processing services; consultancy regarding information technology management; management of value-added data transmission networks and computer servers (multimedia systems, interactive videography, global computer networks for telecommunications); retail sale of electric and electronic machines and apparatus (grouping, for others, of a range of goods so as to enable customers to view and purchase said goods at their convenience in a retail store carrying electrical goods); information concerning the sale of raw materials; commercial information, commercial information agencies; rental of photocopiers; promotion of the sale of goods and services of others including by means of advertisements, promotional competitions, awarding of prizes and bonuses in the form of promotional lotteries, discounts, reduction tokens and value-added offers in connection with the use of payment cards; promotion of sporting events and competitions for use by others; promotion of concerts and of cultural events for others; organization of exhibitions for commercial or advertising purposes; provision of documentation, namely direct mail advertising, distribution of advertising material, distribution of samples; reproduction of documents;

advertising concerning the promotion of commercial sales of goods and services for retail sale purposes; provision of information in connection with e-commerce and electronic retail sale; provision of information concerning the purchase of goods and services on line via the Internet and other computer networks; tourist documentation services, namely advertising concerning transport, travel, hotels, accommodation, food and meals, sports, entertainment and sightseeing tours, tourist agency services; maintenance of computerized databases.

36 – Insurance underwriting; financial affairs; banking; monetary affairs; real estate affairs; credit card services; financing of sporting and cultural activities; rental of buildings and accessory buildings set up for corporate entertainment events; private mark and equity financing services; financial analysis and consultation; financial services in connection with credit cards; credit card services, namely granting credit to others; financial asset management for others; insurance and reinsurance services, namely underwriting of all types of insurance; equity capital investment services; insurance underwriting services in the field of bonds; financial security underwriting services; personal loan financing; lending against collateral; acquisition financing services; commercial financing services; commercial real-estate agency services; mutual funds; loan and private capital investments; information, assistance and advice in all the aforesaid fields; lease-purchasing of mobile and modular structures; insurance brokerage services; credit agency services in the field of commercial and consumer credit; financing of real estate loans and financial and banking services; monetary operations particularly by means of bank cards or customer loyalty cards; financial clearing services; issuing of checks and letters of credit; financial services; insurance services; financial operations; bill payment services; debit card services; payment card services; pre-payment card services; electronic transactions by credit and debit card; electronic transfer of funds; electronic money and smart card services; provision of liquidities; payment and credit card services replacing cash payments; electronic capital transfer services; check verification; encasement of checks; safe deposit system and automated teller services; payment processing services; authentication and verification of transactions; provision of financial information via a global computer network; financial sponsoring of festivals and concerts; financial services for purchasing goods and services sold in retail at points-of-sale for promotion purposes; information services in the field of tourism, namely financial information; financial services for tourist assistance purposes; lease-purchasing of telephones, facsimile machines and other telecommunication equipment; lease-purchasing of transport containers.

37 – Construction; repair; installation services; replacement, overhaul and maintenance of power plants, motors and engines, turbines, wind turbines and apparatus, equipment and instruments for energy and electricity production and their parts, components and accessories; installation, maintenance and repair of compressors and pumps, namely machines, turbo-expanders, fuel pumps and fuel distribution equipment, CNG refueling equipment, gas turbines, steam turbines, air-cooled heat exchangers, steam condensers, thick-wall reactors and tubular reactors; maintenance and repair of gas and oil pipelines; drilling and pumping of oil and gas; drilling for crude oil; installation of tubes and pipelines for drilling of oil wells; rental of tools for drilling oil and gas wells; remote monitoring, diagnosis, repair and maintenance for the repair and maintenance of airplane engines, turbines, electrical equipment, medical equipment, locomotives, including parts and accessories of all the aforesaid goods; rental of construction equipment; chemical cleaning of glass-coated reactor vats used in the pharmaceutical and chemical treatment industries; maintenance of heat transfer systems and of condensers; maintenance and repair of equipment with computerized cooling systems, repair and maintenance of electrical equipment, apparatus, instruments and machines; maintenance and repair in the gas and oil field; services relating to installation of point-of-sales terminals in stores; computer maintenance services; installation and repair of electric apparatus; repair of radio receivers and television receivers; repair and maintenance of electric apparatus and instruments for communication; repair and maintenance of electric household appliances; repair and maintenance of electric lighting apparatus; repair and maintenance of electric apparatus for distribution and control; repair and maintenance of electric motors; repair and maintenance of machines and instruments for measuring and/or testing; repair and maintenance of medical apparatus and instruments; repair and maintenance of machines and tools for shaping metals; repair and maintenance of cooking apparatus; repair and maintenance of automatic vending machines; repair and maintenance of water purification apparatus; repair and maintenance of musical instruments; repair and maintenance of watches and clocks; repair and maintenance of gas-fired water heaters for household use; repair and maintenance of bathtubs; repair of toilets with water points; installation, maintenance and repair of computer hardware; repair and maintenance of air-conditioning apparatus; installation, maintenance and repair of office equipment and machines; installation, maintenance and repair of machinery equipment; repair of vehicles; repair and maintenance of electric apparatus and instruments for communication; repair and maintenance of computers; repair and maintenance of electronic printers; repair of telephones;

electricity works; telecommunication equipment; installation, maintenance and repair of compressors, pumps, namely, machines, turbo-expanders, fuel pumps and fuel distribution equipment, CNG refueling equipment, gas turbines, steam turbines, air-cooled heat exchangers, steam condensers, thick-wall reactors and tubular reactors; repair and maintenance of gas and oil wells.

38 – Telecommunications; television program broadcasting, broadcasting of televised programs (live or recorded); cellular telephone communication; communications by electronic computer terminals, by databases and by telecommunication networks connected to the Internet; communications by telex; communications by telegrams; communications by telephone; communications by facsimile machines; radio paging services; teleconferencing communications; television broadcasting; cable television broadcasting; radio broadcasting; news agencies; other message transmission services; dissemination of a commercial site on the Internet; radio and television broadcasting provided via the Internet; electronic mail; provision of access to computer information newsletters and to discussion forums on line; transmission of messages and images via computers; provision of access to services for ordering and buying at home and at the office via computer and/or interactive communication technologies; telecommunication of information (including Web pages), computer programs and all other data; electronic mail services; provision of access to the Internet for users; telecommunication connections to the Internet or to databases; provision of access to web sites for digital music on the Internet; provision of access to MP3 web sites on the Internet; rental of access time to a central database (telecommunications); provision of access to search engines; operation of discussion forums on the Internet; rental of access time to a database server; rental of access time to a computer database (telecommunication services); simultaneous broadcasting, particularly by means of electronic interconnections, of films and of sound and video recordings; wireless data messaging services, particularly services enabling a user to send and/or receive messages via a wireless data network; one-way and two-way messaging services; electronic transmission of data, images, documents and audio and video data, including texts, cards, letters, messages, mail, animations and electronic mail, via local or global communication networks, including the Internet, intranets, extranets, television, mobile communication networks, cellular networks and satellite networks; electronic transmission of software via local or global communication networks, including the Internet, intranets, extranets, television, mobile communication networks, cellular networks and satellite networks; provision of access to databases and to local or global communication networks, including the Internet, intranets, extranets,

television, mobile communication, cellular and satellite networks; transmission and relay of messages, namely electronic transmission of messages; telecommunication services for dissemination of information by mobile telephone, namely transmission of data to mobile telephones; communication by mobile telephone; transmission and reception of voice communication services; transmission and reception on a value-added network; telecommunication services by telematic means and by multimedia networks; rental of access time to a database server center.

39 – Transport; packaging and storage of goods; arranging of tours; storage of media containing still and moving images; distribution of oil or gas by pipelines; rental of automobiles, airplanes, self-propelled and marine vehicles; delivery and storage of chemicals in the field of water treatment and of pulp and paper making systems; boat transport; vehicle reservation services; information services concerning travel; travel reservation services; assistance for planning of transport before travel; printing product distribution; transport ticket reservation; information services in the field of tourism, namely transport information; information services in the field of tourism, namely information on reservation of tickets for transport, travel and sightseeing tours; information services in the field of tourism, namely information on planned activities for sightseeing tours and transport; services in connection with transport for tourist assistance; tourist reservation services, namely ticket reservation services and transport reservation services; information relating to prices, timetables and means of transport; tourist assistance services concerning transport ticket, travel and sightseeing tour reservation; tourist assistance services concerning planned sightseeing tours; tourist reservation services, namely reservation of tickets for transport, travel and sightseeing tours; preparation of travel reports via a global computer network.

40 – Treatment of materials; cinematographic film development; photograph enlargement, photograph printing, photographic film development; rental of photographic machines and instruments for developing, printing, enlarging or finishing; processing of oil; processing of gas; refining of oil and gas; wastewater treatment services, water treatment services, namely desalination, purification, treatment, cleaning of ion-exchange resins; membrane regeneration services; operation of electric power plants of others; advice regarding operation of electric power plants; provision of information to others, on a global computer network, concerning industrial systems for water purification.

41 – Educational services; providing of training; entertainment; sporting and cultural activities, televised sporting and cultural entertainment; organization of exhibitions for cultural and educational purposes;

operating lotteries and competitions; betting and gambling services in connection with or relating to sports; entertainment services provided during sporting events or concerning sporting events; organization of sporting and cultural events and activities; organization of real or virtual sporting competitions; operation of sports facilities; rental of audio and video equipment; production, presentation and distribution of films and of sound and video recordings; rental of sound and video recordings; rental and/or provision via a computer network of interactive entertainment and education products, namely interactive compact discs, CD-ROMs, computer games; entertainment, namely presentation of interactive entertainment and education products, namely interactive compact discs, CD-ROMs, computer games; covering televised and broadcast sporting events; production of television and radio programs and of videotapes; production of cartoons; production of animated shows for television; reservation of tickets for sporting events and shows; timing of sports events; organization of beauty contests; interactive entertainment; on-line betting services; provision of games on the Internet; provision of raffle services; information concerning entertainment or education, provided on line from a data bank or the Internet; electronic game services provided by means of the Internet; provision of electronic publications on line; publication of books, magazines, texts (other than publicity texts) and periodicals; publication of books, magazines, texts (other than publicity texts) and of electronic periodicals on line; provision of digital music from the Internet; provision of digital music from MP3 web sites; provision of sporting results; information services concerning sports and sporting events; rental of recorded sounds and images; audio production services; information services concerning sporting events provided on line from a computer database or the Internet; editing and publishing services; provision of digital music (non-downloadable); offering digital music by means of telecommunications; publication of statistics regarding sporting results and audience ratings for sporting competitions; training in the use and operation of systems for signaling and notification of crossings for the railway and transit industries; education services in the field of medical imaging and diagnosis, namely conducting of seminars, conferences, symposiums or workshops concerning the pharmaceutical industry, intended for medical doctors and employees of pharmaceutical companies; education services, namely conducting of seminars, conferences, symposiums or workshops in the field of life sciences and biotechnology for scientists and researchers; conducting of seminars on problems in connection with industrial water treatment; training services in all the aforesaid fields; training services in the field of management and medicine by means of the use of instructions and

demonstrations provided on line, via the Internet, intranets and extranets; education services, namely conducting of practical training workshops, courses and seminars including demonstrations in the field of medicine and management; design, conducting and hosting of courses, seminars and all training activities in the field of information technology; organization and performance of concerts; booking of seats for shows; movie presentations; entertainment information; film production; show production; theater production services; operation of golf facilities; health club services (fitness training); sports camp services; presentation of live performances; film projections; organization of shows (impresario services); holiday camp services (entertainment); movie studios; news reporter services; provision of on-line electronic publications, not downloadable; music hall services; education services, namely conducting of courses, seminars, presentations, video presentations, provision of educational material, namely dissemination of material in the field of financial knowledge; education services in the field of tourism; information services in the field of tourism, namely information services regarding reservation of tickets for recreational events; information services in the field of tourism, namely information services regarding entertainment; information services in the field of tourism, namely information services regarding planned sporting, cultural and recreational activities; services in connection with entertainment for tourist assistance; tourist reservation services, namely activity and entertainment reservation services; assistance services for tourists concerning reservation of tickets for recreational events; assistance services for tourists concerning planned sporting, cultural and recreational activities.

42 – Scientific and technological services and research and design relating thereto; industrial analysis and research services; carrying out laboratory analyses; design and development of computers and software; services relating to wind and wind energy, namely professional consultancy and engineering services; design for others in connection with wind energy; industrial design services; design of equipment and installations for generating energy, wind energy and electricity; engineering services, technical consultancy and research for the gas and oil industries; exploration services relating to oil and gas; geophysical drilling for the gas and oil Industries; gas and oil field analysis; gas and oil prospecting, namely locating and testing of wells; gas and oil well testing; gas and oil pipeline inspection; remote monitoring and diagnosis services in connection with compressors, pumps, turbo-expanders, fuel pumps and fuel distribution equipment, CNG refueling equipment, gas turbines, steam turbines, air-cooled heat exchangers, steam condensers, thick-wall reactors and tubular reactors; information technology solution services in the field of railway

and transit industries on a global scale; research, consultancy and assistance services in connection with engineering, design and development problems encountered by governments, individuals and companies whether industrial or commercial and by public institutions; computer programming services for others; software design and analysis services for others; information technology consultancy services; maintenance and updating of computer software for others; software installation; design and analysis of computer systems for others; consultancy services relating to chemical research; consultancy services in connection with the discovery and evaluation of medicines and components with diagnostic, prophylactic and/or therapeutic properties; consultancy services concerning diagnostic methods by means of optical laser systems; tests for high data rate analysis for producing medicines; customer analysis and synthesis services; biotechnological services; technical assistance in connection with factory automation software, namely maintenance of software and periodical updating of software; customized design of security access systems; design and consultancy services relating to configuration of systems used in fiber-optic technology applications; technical assistance services, namely resolution of problems in connection with computer hardware, video and electronic communication and computer software; technical consultancy services relating to information technology and software in the field of security and access systems; technical consultancy services relating to surveillance cameras; customized design of security systems, access systems and systems for checking inventories and property for others; laboratory and testing services for liquid separation and membrane testing; engineering and consultancy services regarding water treatment, water supply systems, cooling water circuits, industrial boiler water systems, systems for water supply and industrial processes, industrial fuel treatment systems, pulp and paper making systems, systems for treating plastics and metals; engineering and technical assistance services concerning the design and configuration of systems comprising computer hardware and software for use in treatment of water supply systems and pulp and paper making systems, oil and petrochemical product treatment systems and metal and plastic finishing operations; consultancy services in all the aforesaid fields; chemical testing concerning supply of chemical treatment products via industrial water systems; programming for information processing machines, particularly programming services in the field of electronic money; development of computer programs for securing data transfers; industrial development and research services in the field of information technology; all technical consultancy in the field of information technology; development of computerized databases and computer programs; development of software

concerning machines, apparatus and instruments; rental of data processing apparatus; computer engineering services; consultancy regarding computer programming and data processing, particularly in connection with financial transactions; hosting of computer sites [Web sites]; maintenance of computer software; provision of search engines for the Internet; quality control; computer data recovery; research and development of new products (for others); technical project studies; land surveying; updating of software; maintenance of software, engineering, testing and research concerning electric machines, apparatus and instruments, computer rental; recovery of data, images, documents and of audio and video data, including texts, cards, letters, messages, mail, animations and electronic mail, via global or local communication networks, including the Internet, intranets, extranets, television, mobile communication networks, cellular networks and satellite networks; identification and testing of microbiological organisms.

43 – Services for providing food and drink; cafeteria and restaurant services; hospitality services, namely providing food and drink; catering services; reservation of hotels and temporary accommodation; bar services; coffee shops; rental of meeting rooms; operation of tourist homes; providing information in the field of tourism, namely accommodation information; providing information in the field of tourism, namely information on provision of food and drink; accommodation information for tourist assistance; services in connection with providing food and drink for tourist assistance; reservation services for tourism, namely reservation of hotel rooms and of food and drink; information services in the field of tourism, namely information concerning the reservation of hotel rooms, accommodation, food and drink; assistance provided to tourists concerning the reservation of hotel rooms, accommodation, food and drink; tourist reservation services, namely reservation of hotel rooms, accommodation, food and drink; rental of mobile and modular structures.

44 – Medical services; medical and pharmaceutical toxicological controls; veterinary services; hygienic and beauty care for human beings and animals; agriculture, horticulture and forestry services; advisory services in connection with medical imaging and diagnosis; advisory services in connection with prophylactic properties, therapeutic properties and pharmaceutical product diagnosis; medical information services; medical imaging services; medical diagnosis services; consultancy services in all the aforesaid fields; rental of medical systems.

1 – Chemicals used in industry, science and photography, as well as in agriculture, horticulture and forestry; unprocessed artificial resins, unprocessed plastics; fertilizers; fire extinguishing compositions; tempering and soldering preparations; chemical substances for preserving foodstuffs; tanning substances; adhesives for industrial purposes; sensitized films, unexposed; synthetic resins; thermoplastic and thermosetting synthetic resins and organic compounds for molding, for general use in industrial processes; intermediate chemicals; organosilicon compounds, namely polysiloxanes and silanes in the form of resins, pastes, fluids, elastomers, vulcanization and acceleration products; anti-foaming agents; catalysts for paints; chemicals for development and setting of x-ray films and other chemicals in connection with the development of said films; phosphorescent substances; chemical substances used as nuclear fission materials; fuel for nuclear reactors; fused quartz in various forms, such as disks, ingots, rods and tubes for general use in industrial processes; adhesive materials for use in industry; polycrystalline alumina ceramic for general use in industrial processes; brazing and soldering fluxes and products; thermoplastic and thermosetting adhesives; chemicals, biochemicals and reagents for use in industry, science and research; chemical reagents, kits and products for analysis or diagnosis for scientific purposes, namely chemicals for cell culture and separation, purification of nucleic acid, nucleotides, fluorescent nucleotides, oligonucleotides, peptides, proteins, amino acids, organic molecules and markers for DNA/RNA synthesis; luminescence reagents; reagents for gene expression quantifying; reagents for polymerase chain reaction processes; reagents for rolling circle amplification processes; reagents for DNA cloning and vectors, enzymes for modification and restriction; reagents for labeling, sequencing and fractal analysis of nucleic acids and proteins and customized synthesis; reagents for recombinant protein purification and expression; chromatography media; reagents for electrophoresis, biocomputing, spectrophotometry and fluorometry; radiochemical products for scientific research; reagents for scintillation proximity assay; tests for high data rate analysis for producing medicines; reagents for high-resolution laser microscopy, fluoroscopic microscopy and confocal microscopy; specialized chemicals for use in indus-

try, science and research; gases and gas mixtures for use in industry, science and research; chemical substances and products for manufacture of pharmaceutical products, diagnostic products and substances; chemical testing reagents, saline solution and paper coated with reagents, all for scientific use and for use in laboratories; fissile chemicals for scientific research; radioactive isotopes and elements for use in industry, science and research; radioactive sources and norms for radiographic technology; radioactive sources for non-destructive testing, purification and sterilization technology; radionuclides for scientific research; chemical compounds and chemicals for treatment of water supply systems, wastewater treatment systems, cooling water circuits, boiler water and steam generating systems, boiler condensate systems, liquid separation systems, systems for water purification and dehydration in aqueous systems, conditioning systems, gas purification systems, industrial process systems, fuel treatment systems, hydrocarbon and gas treatment systems, petrochemical systems and gas and oil treatment systems, pulp and paper making systems, metal and plastic coating systems, metal treating systems; chemicals, namely chemical additives for gasoline, additives for heating oil and additives for improving the efficiency of turbine engine fuel; bags with chemically treated granular materials for absorbing water to be placed in fuel tanks; testing kit comprising reagents for determining the presence of algae and active organic organisms in diesel; bacterial cultures and nutritive elements for treating sludge and wastewater; polymeric chemicals for dispersing particles in steam production equipment; chemicals and chemical compounds used as anti-fouling and demulsifying agents in operations for producing coke and metallurgy-derived products; chemicals, catalysts, plastic semi-processed goods used as materials, filters for removing acid gases, untreated plastics, crystal whiskers and diamond gray; radiopharmaceuticals for scientific use and for research; polymeric membrane materials for liquid separation.

2 – Paints, varnishes, lacquers; preservatives against rust and against deterioration of wood; colorants; mordants; raw natural resins; metals in foil and powder form for painters, decorators, printers and artists; corrosion inhibitors in the form of a coating for use in the metal finishing industry, namely an acid aqueous product for final rinsing; corrosion inhibitors in the form of a coating for cooling water circuits; corrosion inhibitors in the form of a coating, namely resinous coatings for masonry and metal surfaces; covering materials, etching liquids; toner cartridges for printers; ink cartridges for printers; toners, toners for copiers, toners for facsimile machines.

3 – Bleaching preparations and other substances for laundry use; cleaning, polishing, degreasing and abrasive preparations; soaps; perfumery, essential oils,

cosmetics, hair lotions; dentifrices; cleaning preparations containing chemicals and chemical compounds for cleaning steel, aluminum, mixed and galvanized metal surfaces for general industrial use for manufacturing goods of metal; cleaning agents containing chemicals and chemical compounds for industrial use for removing contaminants in industrial process systems; paint stripping preparations containing chemicals and chemical compounds for removing paint from equipment surfaces in spray-painting booth operations.

4 – Industrial oils and greases; lubricants; dust absorbing, wetting and binding compositions; fuels (including motor spirit) and illuminants; candles and wicks for lighting.

5 – Pharmaceutical and veterinary preparations; sanitary preparations for medical purposes; dietetic substances adapted for medical use, food for babies; plasters, materials for dressings; material for dental fillings and dental impressions; disinfectants; pesticides; fungicides, herbicides; pharmaceutical preparations for diagnosis; veterinary pharmaceutical preparations for diagnosis; veterinary and pharmaceutical substances for medical use; diagnostic preparations and reagents for medical use; diagnostic substances for medical use; contrasting substances for medical imaging; scanning diagnostic reagents for use in vivo; diagnostic imaging agents for magnetic resonance imaging (MRI); radiopharmaceuticals for medical and clinical use; radiopharmaceutical sources and norms for nuclear medicine; radioactive pharmaceuticals and non-radioactive reagents for producing radiopharmaceuticals for in-vivo diagnosis or for therapeutic use; gases and mixtures for medical imaging; pre-filled bottles containing reagents for medical diagnosis; pre-filled cartridges containing chemical solutions for medical use; pre-filled cylinders containing gases and gas mixtures for medical use; implantable radiotherapy devices consisting of radio-isotope brachytherapy sources in capsules; radiotherapy administration system consisting of radioactive pellets and of a bioabsorbable carrier set.

6 – Common metals and their alloys; metal building materials; transportable buildings of metal; materials of metal for railway tracks; non-electric cables and wires of common metal; ironmongery and small items of metal hardware; pipes and tubes of metal; safes; goods of common metal, not included in other classes; ores; locks of metal; metal security casings, namely key cabinets, security key storage tubes and boxes; sealed post boxes of metal for industrial, residential, real estate and vehicle sales; metal key cabinets for key locking, search and storage; metal safes for keys; metals and alloys in unworked, liquid, sintered, pressed, machined, sheet, wire, pellet, rod, band and cast form; chains for keys; trolley wires for wiring, doors of metal, barriers of metal,

electric garage doors, acid-resistant high-polymer coatings, sheet steel, steel panels for office floors, welding wires; small hardware of metal; small goods of metal; soundproofed sheets and plates of metal.

7 – Machines and machine tools; motors and engines (other than for land vehicles); machine coupling and transmission components (other than for land vehicles); agricultural implements other than hand-operated; incubators for eggs; apparatus, equipment and instruments for electricity production, namely electrical and wind energy generators generating electricity; turbines; turbines for energy production; wind turbines for energy production; wind turbines linked to wind farms, turbine-powered production installations, namely installations for electricity production; power-generating engines; and parts and components of all the aforesaid goods; solar energy electricity generators; machines and systems of machines, including parts and accessories for electricity production, transformation and conversion; dynamos, electric motors of all kinds, steam and gas turbines and their parts, electrical generators and their parts, aircraft engines, compressors; laundry washing machines, dishwashers, grinders and compactors of waste; pumps, namely centrifugal pumps, diaphragm pumps, bellows pumps, pumps and transfer pumps; liquid control devices, namely valves, regulators, actuators, ejectors, liquid separation cartridges and their parts, including semi-permeable diaphragms; filtering cartridges for various industrial machines for filtering applications, including for filtering of coating solutions for manufacturing of magnetic tapes and for filtering of petrochemicals, drinking water, beer in the brewing industry and other special chemicals; machines for supplying and applying chemicals for industrial use; axial-flow and radial-flow compressors; piston compressors; screw and sliding-vane compressors; rotary, vacuum, electric, submerged and centrifugal pumps; turbo-expanders, namely, air and electric compressors; CNG refueling machines for land vehicles and industrial equipment and accessories and parts of all the aforesaid goods, namely pumps, valves, fuel filters, filter housings, distributor rotors, blades, bearings and mechanical joints; steam condensers; boat engines; turbo-compressors for engines; fuel injectors; welding machines, industrial robots, machines for insertion of electronic components, dry etching machines, electric micro-discharge machines, systems for production of optical discs, precision connection equipment, treatment machines for printed wiring panels, welding rods, machines for assembling parts, brazing machines, machines for fixing screws, electrical tools; electric motors, electric generators; elevators (lifts); washing and drying machines, electric washing machines, electric dishwashers; compressors (non-surgical); pumps, electric pumps; mixing, cutting and chopping machines, mixing machines, electric centrifuges, electric food processors, electric meat

grinders, electric can openers, electric knife sharpeners, electric coffee grinders, electric ice crushers, electric waste-processing machines; garden tools, electric lawnmowers, garden vaporizers for disinfectants and insecticides; electric apparatus for cleaning, electric vacuum cleaners, electric floor polishers; electric window washers; electric hand tools and implements; plasma, gas or arc-cutting machines for cutting metal; mixers, centrifuges, hand-held mixers, food processors.

9 – Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; automatic vending machines and mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment and computers; fire extinguishing apparatus; protective helmets for sports; spectacles, sunglasses, goggles for sports; computer software, computer game software; fuel pumps for service stations for aircraft engine refueling; fuel distribution equipment, namely calibrated fuel pumps, electric fuel-level gauges, control valves for regulating gas flow and fuel lines; automated systems for service-station management comprising operating software, calibrated fuel pumps, flow control panels, fuel lines and pump nozzles for refueling of land vehicles, marine vehicles and aircraft; gas meters; on-board and roadside signaling and communication systems, train inspection systems, crossing notification systems, apparatus for electric control of switching; GPS tracking and monitoring systems for the railway and transit industries; electrical distribution products and devices, namely capacitors, circuit breakers, circuit-breaker patch boards, circuit closers, contact breakers, commutators, contactors, current rectifiers, current limiters, electric contacts, electric collectors, electric conductors, electric connectors, electric controllers, electric inductors, electric power supply systems, distribution boards and branch boxes (electricity), electrical distribution consoles, electrical switchboards and switchboxes; software for persons in charge of troubleshooting and maintenance of programmable controllers, software for blood vessel analysis, including heart vessel analysis, also with calculation functions with regard to blood vessels, software for medical patient-monitoring equipment, software for receiving, processing, transmitting and displaying data, software for developing customized programs for asset allocation; software for use on line enabling vendors of office equipment to place orders, to manage portfolios and communicate with the company; software for accessing mortgage and insurance information, software for collecting data

concerning vital signs, software for analyzing electrical systems and electronic instruction manuals sold in the form of sets, software for employees of financial institutions used for assessing customers' financial investments and processing the sale of the investments identified, software for obtaining information on the risk of flooding with regard to real property, software for developing graphic user interfaces and displaying data, software for calculating mortgage payments, software for controlling and managing vehicle fleet maintenance services, software for using and accessing commercial information technology services, software used by clients to obtain information regarding lease portfolios, software for a radiology information system for radiologists and radiology departments, software for managing databases containing information on employees and patients for archiving purposes and patient follow-up, software installed on and used with PCs and medical monitoring equipment for graphic user interfaces, software for sending encrypted and compressed data to radio-paging (transport) systems, software for providing access to web sites so that buyers and sellers can carry out business transactions by electronic means, and software for subterranean navigation, namely navigation of the assembly of a depth probe for oil drilling and drilling assemblies so as to set up subterranean installations; electronic, nuclear, industrial and laboratory instruments and apparatus, for testing, measuring, calculating and monitoring; electrical products, electricity production and distribution products and voltage surge protection products, namely lightning conductors, armored rods; capacitors; switches for lighting; input/output devices and controls; fuses; controls for lighting; switch boxes, DELs, namely light-emitting diodes, electrical voltage regulators, voltage surge protectors, voltage surge limiters, voltmeters, electrical circuit boards, relays and timers, electromagnetic switches and limit switches, manual full-voltage starters, reduced-voltage starters, electric disconnecting switches and switches, splitters for circuit boards and short-cycling panels, circuit breakers and disconnecting switches, transformers, electric circuit and electric lighting boards, electric wires, cables, cords and conductors, electric wiring and accessories, lightning conductors, electricity meters, wattmeters, grounding resistances, humidity and temperature sensors; industrial calibration sensors, push buttons, engine and motor control centers and their electric controls and voltage regulators included in this class; computer programs and software for medical use, industrial use and for research; electrophoresis apparatus; chromatography columns and pumps; apparatus for microfabrication; apparatus for bio-informatics systems; scintillation apparatus; imaging apparatus for luminescent and radioactive emissions; integrated purification and synthesis systems; oligonucleotide-producing apparatus; optical

laser systems for digital imaging; glassware for laboratories; vials and micro-vials; microtiter plates; software for managing hospital operating rooms; software for intensive care information management; software for industrial operation control; software and manuals therefor sold in the form of sets for plant management; graphic interface computer programs for controlling machines in industrial automation applications; software for creating graphic presentations and editing dynamic data interfaces for real-time graphic applications for industrial and commercial use; communication software for providing connections among computer network users; software for injection molding of plastic; software for controlling, monitoring, simulating, communicating, recording and collecting data and for plant automation; software for integration of manufacturing machine operations, process control, supply of data for displaying, problem follow-up and production report generation; software packages for operating and programming grinders in the manufacture industry; computer hardware for monitoring Industrial processes, namely computerized monitors; portable computers, Ethernet cards and cables; computer networking hardware, memory boards; microchips; microprocessors; computer network hubs, switches and routers, computer accessories, displaying devices and terminals; computer whiteboards; processors and system cards; call controllers, operator interfaces, reference interfaces and data collectors; applications for manufacture and control, namely for statistical process control, data collection, direct digital control; document management systems; digital signal processing products and systems, namely, industrial automation controls and programmable logic controllers; adaptive control product in the form of an external controller for optimizing rough and semi-rough cutting performance of machine tools; distributed and remote input/output equipment, input/output modules, interface modules, electricity supplies and assembly equipment; anti-theft and burglar alarm systems; security devices, namely logic programming computers, control panels, electronic burglar detectors, electronic glass-breakage detectors, electronic vibration detectors, magnetic contacts for security systems, electronic switch plates, electronic motion detectors for alarm systems, electronic motion-sensitive switches, fixed connection sirens, audio loudspeakers, electronic navigation systems, alarm monitoring and access control systems; fire, smoke and heat alarms and detectors; systems for access control with computer cards; card readers, card encoders and encoded cards for card-operated access control systems; camcorders; video devices for object recognition; video devices for object following; video devices for reading license plates; video devices for checking alarms; video devices for facial recognition; video devices for vehicle recognition; video devices for traffic de-

tection; video devices for access door control; video devices for burglar detection; processing software or hardware used for analyzing digital video images for extracting, recording and reporting information automatically, and remote video surveillance systems for surveillance and security applications; central video monitors; video recorders; apparatus for shooting and filming; closed-circuit video systems; closed-circuit video systems consisting of one or several cameras and camera housings; wireless, short-range and radiofrequency transceivers; transceivers for electrical lines; communication monitoring equipment for operating closed-circuit cameras; communication monitoring equipment, namely numeric-pad controls, matrix switching devices, multiplexers, digital video recorders, integrated swinging panoramic zoom domes, remote video controllers, receivers, electronic alarms, triggers and management controls and video transmission devices sold separately or as parts of a closed-circuit camera operating system; personal digital assistants (PDAs) configured for use by real estate professionals; communication interfacing devices for personal digital assistants (PDAs); fiber-optic transmission systems, namely fiber-optic transmitters, receivers and transceivers for transmission of video signals, audio signals and data via optical fibers; electric switches; electromechanical locking devices; magnetic cards for locks, access control, presence control, alarms and security systems; electronic keys; portable electronic hardware for reception, control, storage, handling, display and transmission of data and for actuating electronic locks; electronic access cards and their readers and encoders; magnetic access cards and their readers and encoders; memory access cards and their readers and encoders; proximity cards and their readers and encoders; key holders and their readers and encoders; barcode access cards and their readers, encoders and laminators; access keypads; radio-frequency tracking devices; tracking and control systems consisting of one or several detectors, transceivers and radio-frequency beacons for determining and checking the location and movements of assets, stocks and people; infrared sensors; computer hardware and software for managing infrastructures and monitoring systems for accessing infrastructures and components thereof, namely control boards, access card readers and video imaging, video surveillance, digital hard disk recording, network transmission and remote access equipment and systems; networked digital video storage servers, applications for surveillance and access control, alarm and security monitoring, computer hardware and software for monitoring and operating access and security systems comprising locking systems, doors, access and identification devices; and security cases in the form of boxes for keys; surveillance and monitoring systems sold separately or as components or in the form of sets such as systems comprising one or several

surveillance cameras, hidden cameras, closed-circuit television cameras, camera casings, camera stands, lenses, video monitors, video recorders, digital recorders, video recording media, video switches, control panels, numerical pad controls, joysticks, interface apparatus for alarms and access control equipment, transceivers, receivers, transmitters, signal processors, multiplexers, matrix switches, controls, control panel casings, switch housings, transformers, switches, splitters, coaxial cables, connectors, motion detectors, microphones and loudspeakers; user interface software and control software for management of access, security and fire-extinguishing systems; electric locks; portable electronic communication and computer equipment for data reception, control, storage, handling, display and transmission for operating electronic locking devices; electronic key holders, readers and encoders; computer hardware and software for data processing; electric power supplies, namely batteries, rectifiers/regulators of current/voltage and transformers; control panels, namely electronic apparatus designed for electronically monitoring a predefined activity and for activating an anti-theft alarm; loudspeakers for sirens; and electronic siren controls, namely ringer tone generators and amplifiers for sirens; software for controlling communication equipment for operating and controlling closed-circuit cameras; switching devices integrating magnetically triggered blade switches for anti-theft alarm systems and fire alarm systems, in industrial tracking apparatus, revolution counters, security lock systems for equipment cabinets, industrial position-monitoring apparatus, electric cables and pump and valve monitoring apparatus and home security alarm systems; electric and electronic checking apparatus for detecting the presence of certain substances on people, in luggage and freight; electric and electronic checking apparatus for detecting the presence of explosives and/or narcotics on people, in luggage and freight; apparatus for detecting the presence of explosives and other contraband; timers or sensitive apparatus for detecting changes in conditions for launching and monitoring regeneration or washing cycles for water treatment equipment; control valves for water treating and filtering equipment; bioreactors for cell culture; portable analysis instruments, namely a probe with a recorder for data conversion equipped with microprocessors for measuring organic and inorganic products in water; filters and filter housings for laboratories; membrane filters for laboratories; silt density measuring devices; deionization devices for laboratories; filters and filter housings for laboratories; liquid separating apparatus for laboratories; membranes for laboratories; liquid flow control devices, namely pumps, valves, flowmeters and regulators for laboratories; ozone monitoring instruments; laboratory equipment, namely porous titration microplates for cellular biology and other app-

lications in life sciences; electronic controls for water treatment and processes, namely apparatus for treatment of industrial and commercial water supply systems, boiler water systems, water cooling systems, cooling water systems and closed water-supply systems, systems for paper and pulp treatment, fuel treatment systems and metal treatment systems for analyzing system chemistry, determining the right treatment program, applying the desired treatment and monitoring treatment efficacy; data management software in the field of paper, pulp and water treatment; electronic controls for data processing in the field of paper, pulp and water treatment; apparatus for industrial water-supply systems for measuring and checking pH and conductivity; apparatus for supplying an industrial, commercial or municipal water supply system with measured quantities of chemicals; electronic testing apparatus for water treatment; laboratory testing equipment, namely apparatus for testing deposit levels and corrosion speed; mobile laboratory equipped with instruments and equipment for measuring and monitoring pH, conductivity and concentration of chromate in domestic and industrial water, for carrying out inorganic and microbiological water testing; electronic and electrochemical products, namely fuel cells; apparatus for converting photo-electric radiation to electrical energy, namely, photovoltaic solar modules, hybrid photovoltaic solar modules, electronic sensors for measuring solar radiation, photo-cells; apparatus for converting electronic radiation to electric energy, namely photovoltaic solar modules, systems and components and all related system components; printers, laser printers, ink-jet printers, multi-function and multi-purpose printers, parts of all the aforesaid goods; portable electronic devices for wireless reception and/or transmission of data, enabling users to store or manage personal information and to transmit and receive voice, video and image communications; software for synchronization of data between a remote unit or station and a fixed unit or station, and software providing a one-way and/or two-way wireless connection to data; portable digital electronic apparatus and related software; portable electronic devices for wireless data reception and/or transmission; software for re-orientation of messages, electronic mail and/or other data from a personal computer or a server towards one or several portable electronic devices; computer programs and software for wireless device operation and management; telecommunication devices; software for accessing, researching, indexing and recovering information and data from global computer networks and global communication networks, and for navigation on web sites in the aforesaid networks; software for sending and receiving short messages and electronic mail and for filtering non-text information from data; portable electronic devices for voice, video, data and image communications; computer game soft-

ware for mobile telephone receivers; electronic game software for mobile telephone receivers; software, software packages; batteries, dry cells and batteries, rechargeable batteries, battery chargers, storage batteries, solar cells and batteries, fuel cells; carbon, carbon electrodes for dry batteries, carbon electrodes for welding; wiring apparatus, connectors (electric), electric cables, electric ducts, floor ducts specially designed for housing electric cables, ballast (for discharge lamps), wiring systems under carpets, code lighting switches, circuit breakers, magnetic starter switches and contactors, circuit protectors, switching devices, electric connecting boxes, device switches, output jacks, plugs (electric), insulating materials, electric timers, other wiring devices; signaling apparatus and instruments, video intercoms, intercom systems, electric door chimes, intercoms, fire alarms, gas-leak alarms, anti-theft alarms, portable emergency intercoms; acoustic machines and apparatus, radios, tape recorders/players, radio cassette recorders, portable tape players, compact disc recorders/players, minidisc recorders/players, minidisc consoles, DVD audio recorders/players, secured digital recorders/players, secured digital cards, loudspeakers, tuners, amplifiers, stereo systems, disc readers, graphic equalizers, alarm clocks, integrated circuit recorders, digital audio processing devices, earphones, headphones, microphones, cassette recorders/players, software for compact discs (prerecorded), electric megaphones, language laboratories, audio systems for cars, public address systems, mixing consoles, cleaning products for audio equipment, audio cables, video cables, other audio machines; audiovisual machines and apparatus, television sets, cathode ray tube display devices, cathode ray tubes, image pick-up tubes, plasma television sets, plasma display devices, television sets (liquid crystal display), liquid crystal display monitors, television sets combined with video tape recorders, television sets combined with disc players, antennas, tuners for satellite broadcasting, television tuners, Internet terminals, video projectors, video cassette recorders, camcorders, video cameras, video printers, laser disc players, video CD (compact disc) players, software for video CD (compact disc), video recorders/players for DVDs, color video systems for large-scale display, cable television systems, hard disk units, video imaging devices, electric optical display boards, multi-purpose electric display systems, closed-circuit video equipment systems, software for DVDs, television cameras, video switches, non-linear editing systems, editing controllers, DVD creation systems, LED displays, other audiovisual machines; optical disc machines and apparatus; optical disc units, optical disc recorders, optical disc readers, optical disc changers, optical disc cartridges, optical disc recording systems; communication apparatus and machines, facsimile transceivers, transceivers, telephones, cellular

mobile telephones, cases for cellular mobile telephones, telephone answering machines, private auto-switch systems, global positioning system receivers, radiotelephones, marine radars, radio-paging receivers, mobile communication systems, multi-channel access radio systems, electric panels for traffic information, videoconferencing systems, private portable telephone systems, local network systems, AV codecs (coder-decoders), navigation systems for cars (road guidance systems), electronic systems for road toll collection, GPS (global positioning system) antennas; surveillance (monitoring) apparatus and instruments, electric door opening devices, communication and surveillance systems for apartment structures, intruder detection systems, automated systems for surveillance and control of functions in buildings, security apparatus with several electrical layers; automatic control machines and instruments, electric distribution boards, road signal control apparatus, bus placement systems, ultrasound vehicle detectors, information and telecommunication networks for road traffic management, light dimmers, light switches, inverters, programmable control systems, transformers, cabinets, domestic electricity production systems, power capacitors; data processing equipment; computers and computer peripherals, word processors, software (recorded), image scanners for personal computers, printers, PC cards, computer keyboards, mice (data processing equipment), CD-ROM units, diskette units, card reading/writing systems, barcode readers, time recorders, portable data terminals, point-of-sale systems, data collection terminals, personal digital assistants (PDAs), DVD-RAM/ROM units, CAD/CAM (computer-aided design/computer-aided manufacturing) systems, hard disk units, electronic calculators, uninterruptible power supplies for computers / communication / broadcasting; external storage devices, video cassettes, cleaning heads, D-VHS (video systems for household use), other computer peripherals; video tapes, audio cassettes, diskettes, optical discs, mini-discs, DVDs (digital versatile discs), integrated circuit memory cards; weighing and measuring apparatus and instruments, thermoluminescent dosimetry systems, portable x-ray dosimeters, electronic meters, ammeters, electricity consumption meters, grip measuring devices, electric apparatus for measuring leakage, electric insulation meters, thermometers, measuring system processors, electric multi-circuit sector voltage monitors, micro-precision measuring devices, body fat monitors, pacers, audio/video analyzers, oscilloscopes, modulators, voltmeters, distortion meters, other measuring apparatus; sensors, light-sensitive sensors, thermometric sensors, position sensors, angular velocity sensors, rotation sensors, angle sensors, dew point sensors, other sensors; electric components, LEDs, liquid crystals, liquid crystal display modules, magnetrons, diodes, transistors,

thermostats, integrated circuits, semi-conductor storage devices, micro-computers with a single chip, cartridges for microphones with electric capacitor, gray-scale image processors, thermal print heads, magnetic heads, permanent magnets, connectors, relays, display components, semi-conductor lasers, charge coupling devices, image detectors, film capacitors, over-oxygenation membrane units, electric tuner units, high-frequency units, coin validation units, note validation units, magnetic card reading/writing devices, voltage-controlled oscillators, phase-locking circuit synthesizing modules, wireless communication module units, optical transmission components, printed wiring boards, loudspeaker components, electricity supplies, AC adaptors, focusing magnets, inductors (coils), capacitors for electric apparatus, electric signal filters, transformers, deflection coils, thermistors, varistors, piezoelectric ceramic components, acoustic-optical components, resistances, potentiometers, encoders, printing units, hybrid integrated circuits, switching components, heat-welding wiring boards, transparent button boards, electroluminescent components, remote control units, magnetic resistance elements, thermal disconnects, other electric utensils for household use, electric flat irons, electric hair curlers, electric hair straightening or curling irons; electric arc-welding apparatus, welding electrodes, electric timers; equipment for processing data, particularly for financial applications; operating system programs; computer hardware and software, particularly for local and wide-range computer network development, maintenance and use; systems for reading memory cards and systems for reading stored data including integrated circuit memories and bank card memories; automatic ticket dispensers; accounting machines; encoded cards, including magnetic cards and integrated circuit cards, particularly for financial applications; card readers, printing apparatus, including printing apparatus for data processing systems and financial transaction systems; machines for banking institutions; encoders and decoders; modems; encoded magnetic cards, cards with electronic data, readers for encoded magnetic cards, readers for cards with electronic data, electronic encryption systems, computer hardware, computer terminals, software used in financial services, in the banking and telecommunication industries; electric and electronic products, namely calculating machines, pocket planners, alarms and torches; bank cards, including printed bank cards and bank cards with magnetic memory and with integrated circuit memory; bank cards, credit cards, debit cards, including such cards equipped with integrated circuits and microprocessors; memory cards (smart cards); automated teller machines (ATMs); data processing equipment and computers including cards equipped with microprocessors and integrated circuits; computer hardware in the form of integrated circuit cards and

card readers containing transponders and other proximity payment devices; mouse pads; machines and machine systems, including parts and accessories for transmission, distribution and control of electricity; induction devices, electrical displacement devices, electricity control and regulation devices, electricity measuring instruments, electrical protection devices, switchboards, switchboard apparatus, wiring devices and supplies; liquid control devices, namely, flowmeters, manostats, sequential timers, electric controls and switches; electric devices for killing insects, audio amplifiers for keyboards, external memories for musical instruments; electro-thermal hair curling apparatus, electric hair straightening or curling irons, electric hair curlers; systems for managing data and preserving archives in the field of anesthesia.

10 – Surgical, medical, dental and veterinary apparatus and instruments, artificial limbs, eyes and teeth; orthopedic articles; suture materials; test kits for clinical medical use comprising test tubes, test plates and indicator diagrams for evaluating test results; systems comprising medical apparatus and accessories for administering measured doses of pharmaceutical preparations; bottles for medical use; cannulas for medical use; syringes for medical use; injectors for medical use; cartridges for medical use; infusion pumps used for administering liquids intravenously; needles for medical use; cardiac output monitors; humidity and heat exchangers for medical use; bacterial filters for medical use; gas analyzers for medical use; patient monitoring systems, namely gas monitors; pulse oximeters, multi-parameter monitors, ECG monitors, invasive and non-invasive blood pressure monitors, neuromuscular transmission monitors, metabolic monitors and spirometers for diagnostic, intensive care and anesthesia applications; anesthetic machines and ventilators; anesthesia and intensive care accessories for a single patient, namely gas sampling lines, airway adapters, respiratory circuits, spirometry tubes and sensors, tubes, water separators, pulse oximetry sensors, non-invasive sphygmomanometers, rinsing sets, anesthesia masks, carbon dioxide absorbers, temperature-sensing probes and nebulizers; central nervous system monitors; gastric tonometers; gradient coils, namely magnetic gradient coils for magnetic resonance imaging; medical diagnosis devices, namely bone densitometers; fetal monitoring apparatus, namely fetal pulse and vital sign monitors; patient monitoring apparatus, namely, vital sign and cardiac monitors, medical imaging systems, namely ultrasound imaging machines for medical diagnosis, imaging devices for diagnostic and screening applications for planning operations and surgery, and their parts and accessories; medical diagnosis apparatus for displaying diagnostic images, namely spot film apparatus, image intensifiers, fluoroscopes, mobile x-ray devices, x-ray film viewers, CAT

scans, nuclear resonance apparatus, ultrasound scanners, magnetic resonance apparatus, positron emission tomography apparatus (PET scans) and their parts and accessories, including tables and pads; electronic apparatus for measuring blood pressure, laser apparatus for medical treatment, ultrasound diagnosis equipment, acoustic apparatus, laser scalpels, electric massaging apparatus, portable vibrators for medical use, low-frequency muscle stimulators for medical use, high-frequency apparatus for medical use, electric air mattresses for preventing bedsores, electric inhalers for therapeutic use, electrically heated pads, CCD (charge-coupled device) sensor systems, medical apparatus for measuring bone density.

11 – Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; solar panels, panels for capturing solar energy; solar lighting accessories, namely lighting units and solar light fixtures for indoor and outdoor use; solar-thermal installations, namely solar-thermal modules; solar water heaters; gas and electric cooking apparatus for household use, namely gas and electric cookers, cooking rings; gas and electric cooktops and ovens; heat exchangers; thick-wall chemical reactors and nuclear reactors and accessories and components thereof, namely, heat pumps, valves for steam systems and valves for regulating liquid and gas flow; electric lamps of all kinds and their parts; electric lighting accessories and their parts; freezers, air-conditioning apparatus, electric ovens, cookers, electric refrigerators; microwave ovens for cooking; wall-mounted cooking ovens for household use; food heating drawers; convection ovens, gas and electric cooktops; gas and electric cookers and cooking ovens; ventilation hoods for stoves and exhaust fans; water filters; water softeners; laundry driers; electric fans, ceiling fans, flashlights; vehicle lamps and lights; electric lights for Christmas trees; liquid separation devices; liquid concentration devices; liquid recycling devices; filters for filtering of solids from gas and liquids or for filtering of liquids from gas and for filtering of an immiscible liquid from another; spiral cartridges or elements contained in a tubular plastic sleeve for concentrating goods and removing impurities in liquid treatment systems; water conditioning devices for residential use; reverse osmosis modules and their membranes; devices and systems for water purification consisting of clarification units, electric deionization systems, condensate polishing filters, vacuum degassing devices, ultra-filtration devices, ultraviolet sterilization devices, ion exchangers, systems for regeneration of acids and caustic products, reverse osmosis systems, forced-air carbonate removal devices, filters, systems for supplying chemicals and devices for storage of bulk goods, sold with automatic controls and instruments

for monitoring device and system operation parameters, electrochemical purification devices for liquids for industrial, commercial and municipal use; water filtering devices for household, industrial and commercial use; wastewater purification units; drinking water purification devices for household, industrial and commercial use; liquid separating devices, namely industrial liquid filters; recycling devices, namely liquid purification devices; water treatment equipment, namely cartridges; water treatment equipment for household use, namely water softeners and water conditioners; support filters and depth filters for removing deposits, iron, sulfur, tastes and smells from water; reverse-osmosis water purification devices; depth filter units and cartridges for filtering liquids and air for household, industrial and commercial use; disposable cartridge filters for filtering industrial water; apparatus and installations for lighting, incandescent bulbs, gas discharge starters, grooved fluorescent lamps, fluorescent lamps, tungsten and halogen lamps, pocket lamps, fluorescent lanterns, other lamps, fluorescent lighting apparatus, dynamo lighting kits for bicycles, germicidal lamps, other lighting apparatus; cooking apparatus and installations, automatic bread-making machines for household use, electric kettles, electric rice cookers, gas rice cookers, crock pots, electric grills, cooking ovens, toasters, coffee machines, cookers, electric thermal-insulating coffee machines, gas cookers, induction cooktops, electric barbecue grills, microwave ovens, gas cookers with ovens, electric saucepans, sink trays, other kitchen ranges; freezing and refrigerating apparatus and installations, refrigerators, freezers, cold/hot water dispensers, refrigerating and freezing display cases, electric water coolers, ice-making apparatus; ventilation apparatus and instruments, electric fans, fans, electric air purifiers, extractor hoods for cookers, electric dehumidifiers, electric humidifiers, blowers, blinds propelling cold air, air exhaust units, ceiling fans, ceiling ventilators, electrostatic dust extractors, their parts and components, all included in this class; other ventilation apparatus and installations; heating apparatus and installations, apparatus for steam generating, drying, cooling and air conditioning, air conditioners, blade fans for air conditioning, apparatus for cooling air by evaporation, stoves, electric radiators, electric blankets, electric floor carpets, kerosene-powered fan heaters, electric foot warmers (kotatsu), wireless gas radiators, other heating/cooling and air-conditioning installations; water distribution apparatus; sanitary installations, electric bidets, toilets, self-cleaning toilet seats, portable toilets, systems for wastewater treatment by aeration, water purifiers, incinerators (waste incinerators), household waste processors, saunas, bathtubs, bath installations, electric showers; water heaters, gas-powered instantaneous water heaters, other water heaters; driers, dish driers, electric hair driers,

laundry driers, other driers; electric lamps, electric driers, electric-resistance heating cables; sinks of metal; laundry driers.

12 – Vehicles; apparatus for locomotion by land, air or water; electric motors and diesel engines for land vehicles; bicycles, tires and tubeless tires for bicycles, automatic vehicles, electric bicycles; tires.

14 – Precious metals and their alloys and goods in precious metals or coated therewith, not included in other classes, particularly commemorative medals and coins; jewelry, precious stones; pins; timepieces and chronometric instruments; key rings.

16 – Paper, cardboard and goods made from these materials, not included in other classes; printed matter, particularly postage stamps; newspapers, periodicals, books, photographs and posters; book-binding material; stationery; adhesives (glues) for stationery or household purposes; artists' materials; paintbrushes; typewriters and office requisites (except furniture); instructional or teaching material (except apparatus); plastic materials for packaging (not included in other classes); printing type; printing blocks; computer printouts; checkbooks, punched cards; electronic newspapers and periodicals; paper shredders, electric staplers, battery-powered letter openers, electric pencil sharpeners, electric perforators, electronic typewriters, ribbon cartridges for electronic typewriters, apparatus for printing checks, thermal paper; disposable paper or cellulose diaper-pants, diapers and napkins.

17 – Rubber, gutta-percha, gum, asbestos, mica and goods made from these materials and not included in other classes; products made of semi-processed plastics; packing, stopping and insulating materials; flexible pipes not of metal; silicone mastic for various uses, particularly for caulking of bathtubs, boats and automobiles; impervious and road covering material made of silicone, roofing covering made of silicone rubber; plastic compounds for glazing; plastic materials in the form of sheets, plates, blocks, all for manufacture; electric insulation materials, electric insulation devices, including insulating varnish, silicone rubber compounds; plastic materials in the form of sheets, rods or plates, modeling materials.

18 – Leather and imitations of leather, and goods made of these materials and not included in other classes; animal skins; trunks and travelling bags; umbrellas, parasols and walking sticks; whips, harness and saddlery.

19 – Non-metallic building materials; rigid pipes, not of metal, for building; asphalt, pitch and bitumen; transportable buildings, not of metal; monuments, not of metal; thermoplastic building materials, namely thermoplastic molded and extruded

materials used as substitutes for wood, metal or glass, for supporting or covering; doors (not of metal), rain gutters, ceiling panels, folding doors, wooden floors, roofing tiles, prefabricated houses, laminates, connecting tracks, steps (ladders) not of metal, building materials with soundproofing properties; non-metallic roofs, with solar cells; plastic panels for building; thermoplastic materials used as building materials for insulation, covering (roofing) and glazing; water pipes made of PVC (polyvinyl chloride).

25 – Clothing, footwear, headgear.

28 – Games, toys; gymnastic and sporting articles not included in other classes; decorations for Christmas trees; playing cards; electric floats for fishing, apparatus for tying fishing lines to hooks, electronic apparatus for practicing golf, wax applicators for skis; stationary exercise bicycles and rollers.

29 – Meat, fish, poultry and game; meat extracts; preserved, dried and cooked fruits and vegetables; jellies, jams, compotes; eggs, milk and milk products; edible oils and fats.

30 – Coffee, tea, cocoa, sugar, rice, tapioca, sago, artificial coffee; flour and preparations made from cereals, bread, pastry and confectionery, edible ices; honey, treacle; yeast, baking powder; salt, mustard; vinegar, sauces (condiments); spices; ice for refreshment.

32 – Beers; mineral and aerated waters and other non-alcoholic beverages; fruit beverages and fruit juices; syrups and other preparations for making beverages.

35 – Advertising; dissemination of advertisements by all media, particularly in the form of themed messages focused on human values; advertising by sponsorship (sponsoring); business management; business administration; office functions; promotion of the goods and services of others, by means of contractual agreements, particularly partnership (sponsorship) and licensing agreements, affording them with increased notoriety and/or enhanced image and/or sympathy derived from the notoriety and/or enhanced image resulting from cultural and sporting events, particularly international events and/or sympathy generated by the above; promotion of the goods and services of others by means of what is referred to as the initial interest factor driving the public to consider, from among many competitors, goods or services presented with signs, emblems or messages so as to capture its attention; promotion of the goods and services of others by means of the so-called image transfer; rental of advertising space of all type and on all media, whether digital or not; business administration of the participation of national teams to an international sports competition,

and promotion intended for the public and bodies interested in providing support to the aforesaid teams; inventory management services; advice relating to stock monitoring services; advertising by means of direct marketing for others consisting in marketing of databases; advice for advertising by means of direct marketing for others consisting in marketing of databases; advisory services in connection with business reorganization; automobile and truck fleet management services, namely billing via a global computer network; advice in connection with the management of automobile and truck fleets; business administration consultancy; management of power plants of others; advice regarding management of electric power plants; commercial services, namely administration of contracts for repair and servicing; supply chain management services and advice relating to the purchase and supply in terms of chemicals and chemical services; product inventory and supply services, limitation of costs; advice, marketing, analysis of prices and costs concerning devices for electrochemical purification of liquids for industrial use; administrative, commercial and technical management of computer files; data input and processing services; consultancy regarding information technology management; management of value-added data transmission networks and computer servers (multimedia systems, interactive videography, global computer networks for telecommunications); retail sale of electric and electronic machines and apparatus (grouping, for others, of a range of goods so as to enable customers to view and purchase said goods at their convenience in a retail store carrying electrical goods); information concerning the sale of raw materials; commercial information, commercial information agencies; rental of photocopiers; promotion of the sale of goods and services of others including by means of advertisements, promotional competitions, awarding of prizes and bonuses in the form of promotional lotteries, discounts, reduction tokens and value-added offers in connection with the use of payment cards; promotion of sporting events and competitions for use by others; promotion of concerts and of cultural events for others; organization of exhibitions for commercial or advertising purposes; provision of documentation, namely direct mail advertising, distribution of advertising material, distribution of samples; document reproduction; advertising concerning the promotion of commercial sales of goods and services for retail sale purposes; provision of information in connection with e-commerce and electronic retail sale; provision of information concerning the purchase of goods and services on line via the Internet and other computer networks; tourist documentation services, namely advertising concerning transport, travel, hotels, accommodation, food and meals, sports, entertain-

ment and sightseeing tours, tourist agency services; maintenance of computerized databases.

36 – Insurance underwriting; financial affairs; banking; monetary affairs; real estate affairs; credit card services; financing of sporting and cultural activities; rental of buildings and accessory buildings set up for corporate entertainment events; private mark and equity financing services; financial analysis and consultation; financial services in connection with credit cards; credit card services, namely granting credit to others; financial asset management for others; insurance and reinsurance services, namely underwriting of all types of insurance; equity capital investment services; insurance underwriting services in the field of bonds; financial security underwriting services; personal loan financing; lending against collateral; acquisition financing services; commercial financing services; commercial real-estate agency services; mutual funds; loan and private capital investments; information, assistance and advice in all the aforesaid fields; lease-purchasing of mobile and modular structures; insurance brokerage services; credit agency services in the field of commercial and consumer credit; financing of real estate loans and financial and banking services; monetary operations particularly by means of bank cards or customer loyalty cards; financial clearing services; issuing of checks and letters of credit; financial services; insurance services; financial operations; bill payment services; debit card services; payment card services; pre-payment card services; electronic transactions by credit and debit card; electronic transfer of funds; electronic money and smart card services; provision of liquidities; payment and credit card services replacing cash payments; electronic capital transfer services; check verification; check cashing services; safe deposit system and automated teller services; payment processing services; authentication and verification of transactions; provision of financial information via a global computer network; financial sponsoring of festivals and concerts; financial services for purchasing goods and services sold in retail at points-of-sale for promotion purposes; information services in the field of tourism, namely financial information; financial services for tourist assistance purposes; lease-purchasing of telephones, facsimile machines and other telecommunication equipment; lease-purchasing of transport containers.

37 – Construction; repair; installation services; replacement, overhaul and maintenance of power plants, motors and engines, turbines, wind turbines and apparatus, equipment and instruments for energy and electricity production and their parts, components and accessories; installation, maintenance and repair of compressors and pumps, namely machines, turbo-expanders, fuel pumps and fuel distribution equipment, CNG refueling equipment, gas turbines,

steam turbines, air-cooled heat exchangers, steam condensers, thick-wall reactors and tubular reactors; maintenance and repair of gas and oil pipelines; drilling and pumping of oil and gas; drilling for crude oil; installation of tubes and pipelines for drilling of oil wells; rental of tools for drilling oil and gas wells; remote monitoring, diagnosis, repair and maintenance for the repair and maintenance of airplane engines, turbines, electrical equipment, medical equipment, locomotives, including parts and accessories of all the aforesaid goods; rental of construction equipment; chemical cleaning of glass-coated reactor vats used in the pharmaceutical and chemical treatment industries; maintenance of heat transfer systems and of condensers; maintenance and repair of equipment with computerized cooling systems, repair and maintenance of electrical equipment, apparatus, instruments and machines; maintenance and repair in the gas and oil field; services relating to installation of point-of-sales terminals in stores; computer maintenance services; installation and repair of electrical appliances; repair of radio receivers and television receivers; repair and maintenance of electric apparatus and instruments for communication; repair and maintenance of electric household appliances; repair and maintenance of electric lighting apparatus; repair and maintenance of electric apparatus for distribution and control; repair and maintenance of electric motors; repair and maintenance of machines and instruments for measuring and/or testing; repair and maintenance of medical apparatus and instruments; repair and maintenance of machines and tools for shaping metals; repair and maintenance of cooking apparatus; repair and maintenance of automatic vending machines; repair and maintenance of water purification apparatus; repair and maintenance of musical instruments; repair and maintenance of watches and clocks; repair and maintenance of gas-fired water heaters for household use; repair and maintenance of bathtubs; repair of toilets with water points; installation, maintenance and repair of computer hardware; repair and maintenance of air-conditioning apparatus; installation, maintenance and repair of office equipment and apparatus; installation, maintenance and repair of machinery equipment; repair of vehicles; repair and maintenance of electric apparatus and instruments for communication; repair and maintenance of computers; repair and maintenance of electronic printers; repair of telephones; electricity works; telecommunication equipment; installation, maintenance and repair of compressors, pumps, namely, machines, turbo-expanders, fuel pumps and fuel distribution equipment, CNG refueling equipment, gas turbines, steam turbines, air-cooled heat exchangers, steam condensers, thick-wall reactors and tubular reactors; repair and maintenance of gas and oil wells.

38 – Telecommunications; television program broadcasting, broadcasting of televised programs (live or recorded); cellular telephone communication; communications by electronic computer terminals, by databases and by telecommunication networks connected to the Internet; communications by telex; communications by telegrams; communications by telephone; communications by facsimile machines; radio paging services; teleconferencing communications; television broadcasting; cable television broadcasting; radio broadcasting; news agencies; other message transmission services; dissemination of a commercial site on the Internet; radio and television broadcasting provided via the Internet; electronic mail; provision of access to computer information newsletters and to discussion forums on line; transmission of messages and images via computers; provision of access to services for ordering and buying at home and at the office via computer and/or interactive communication technologies; telecommunication of information (including Web pages), computer programs and all other data; electronic mail services; provision of access to the Internet for users; telecommunication connections to the Internet or to databases; provision of access to web sites for digital music on the Internet; provision of access to MP3 web sites on the Internet; rental of access time to a central database (telecommunications); provision of access to search engines; operation of discussion forums on the Internet; rental of access time to a database server; rental of access time to a computer database (telecommunication services); simultaneous broadcasting, particularly by means of electronic interconnections, of films and of sound and video recordings; wireless data messaging services, particularly services enabling a user to send and/or receive messages via a wireless data network; one-way and two-way messaging services; electronic transmission of data, images, documents and audio and video data, including texts, cards, letters, messages, mail, animations and electronic mail, via local or global communication networks, including the Internet, intranets, extranets, television, mobile communication networks, cellular networks and satellite networks; electronic transmission of software via local or global communication networks, including the Internet, intranets, extranets, television, mobile communication networks, cellular networks and satellite networks; provision of access to databases and to local or global communication networks, including the Internet, intranets, extranets, television, mobile communication, cellular and satellite networks; transmission and relay of messages, namely electronic transmission of messages; telecommunication services for dissemination of information by mobile telephone, namely, transmission of data to mobile telephones; communication by mobile telephone; transmission and reception of voice communication services; transmission

and reception on a value-added network; telecommunication services by telematic means and by multimedia networks; rental of access time to a database server center.

39 – Transport; packaging and storage of goods; arranging of tours; storage of media containing still and moving images ; distribution of oil or gas by pipelines; rental of automobiles, airplanes, self-propelled and marine vehicles; delivery and storage of chemicals in the field of water treatment and of pulp and paper making systems; boat transport; vehicle reservation services; information services concerning travel; travel reservation services; assistance for planning of transport before travel; printing product distribution; transport ticket reservation; information services in the field of tourism, namely transport information; information services in the field of tourism, namely information on reservation of tickets for transport, travel and sightseeing tours; information services in the field of tourism, namely information on planned activities for sightseeing tours and transport; services in connection with transport for tourist assistance; tourist reservation services, namely ticket reservation services and transport reservation services; information relating to prices, timetables and means of transport; tourist assistance services concerning transport ticket, travel and sightseeing tour reservation; tourist assistance services concerning planned sightseeing tours; tourist reservation services, namely reservation of tickets for transport, travel and sightseeing tours; preparation of travel reports via a global computer network.

40 – Treatment of materials; cinematographic film development; photograph enlargement, photograph printing, photographic film development; rental of photographic machines and instruments for developing, printing, enlarging or finishing; processing of oil; processing of gas; refining of oil and gas; wastewater treatment services, water treatment services, namely desalination, purification, treatment, cleaning of ion-exchange resins; membrane regeneration services; operation of electric power plants of others; advice regarding operation of electric power plants; provision of information to others, on a global computer network, concerning industrial systems for water purification.

41 – Educational services; providing of training; entertainment; sporting and cultural activities, televised sporting and cultural entertainment; organization of exhibitions for cultural and educational purposes; operating lotteries and competitions; betting and gambling services in connection with or relating to sports; entertainment services provided during sporting events or concerning sporting events; organization of sporting and cultural events and activities; organization of real or virtual sporting competitions; operation of sports facilities; rental of

audio and video equipment; production, presentation and distribution of films and of sound and video recordings; rental of sound and video recordings; rental and/or provision via a computer network of interactive entertainment and education products, namely interactive compact discs, CD-ROMs, computer games; entertainment, namely presentation of interactive entertainment and education products, namely interactive compact discs, CD-ROMs, computer games; covering televised and broadcast sporting events; production of television and radio programs and of videotapes; production of cartoons; production of cartoons for television; reservation of tickets for sporting events and shows; timing of sports events; organization of beauty contests; interactive entertainment; on-line betting services; provision of games on the Internet; provision of raffle services; information concerning entertainment or education, provided on line from a data bank or the Internet; electronic game services provided by means of the Internet; provision of electronic publications on line; publication of books, magazines, texts (other than publicity texts) and periodicals; publication of books, magazines, texts (other than publicity texts) and of electronic periodicals on line; provision of digital music from the Internet; provision of digital music from MP3 web sites; provision of sporting results; information services concerning sports and sporting events; rental of recorded sounds and images; audio production services; information services concerning sporting events provided on line from a computer database or the Internet; editing and publishing services; provision of digital music (non-downloadable); offering digital music by means of telecommunications; publication of statistics regarding sporting results and audience ratings for sporting competitions; training in the use and operation of systems for signaling and notification of crossings for the railway and transit industries; education services in the field of medical imaging and diagnosis, namely conducting of seminars, conferences, symposiums or workshops concerning the pharmaceutical industry, intended for medical doctors and employees of pharmaceutical companies; education services, namely conducting of seminars, conferences, symposiums or workshops in the field of life sciences and biotechnology for scientists and researchers; conducting of seminars on problems in connection with industrial water treatment; training services in all the aforesaid fields; training services in the field of management and medicine by means of the use of instructions and demonstrations provided on line, via the Internet, intranets and extranets; education services, namely conducting of practical training workshops, courses and seminars including demonstrations in the field of medicine and management; design, conducting and hosting of courses, seminars and all training activities in the field of

information technology; organization and performance of concerts; booking of seats for shows; movie presentations; entertainment information; film production; show production; theater production services; operation of golf facilities; health club services (fitness training); sports camp services; presentation of live performances; film projections; organization of shows (impresario services); holiday camp services (entertainment); movie studios; news reporter services; provision of on-line electronic publications, not downloadable; music hall services; education services, namely conducting of courses, seminars, presentations, video presentations, provision of educational material, namely dissemination of material in the field of financial knowledge; education services in the field of tourism; information services in the field of tourism, namely information services regarding reservation of tickets for recreational events; information services in the field of tourism, namely information services regarding entertainment; information services in the field of tourism, namely information services regarding planned sporting, cultural and recreational activities; services in connection with entertainment for tourist assistance; tourist reservation services, namely activity and entertainment reservation services; assistance services for tourists concerning reservation of tickets for recreational events; assistance services for tourists concerning planned sporting, cultural and recreational activities.

42 – Scientific and technological services and research and design relating thereto; industrial analysis and research services; carrying out laboratory analyses; design and development of computers and software; services relating to wind and wind energy, namely professional consultancy and engineering services; design for others in connection with wind energy; industrial design services; design of equipment and installations for generating energy, wind energy and electricity; engineering services, technical consultancy and research for the gas and oil industries; exploration services relating to oil and gas; geophysical drilling for the gas and oil industries; gas and oil field analysis; gas and oil prospecting, namely locating and testing of wells; gas and oil well testing; gas and oil pipeline inspection; remote monitoring and diagnosis services in connection with compressors, pumps, turbo-expanders, fuel pumps and fuel distribution equipment, CNG refueling equipment, gas turbines, steam turbines, air-cooled heat exchangers, steam condensers, thick-wall reactors and tubular reactors; information technology solution services in the field of railway and transit industries on a global scale; research, consultancy and assistance services in connection with engineering, design and development problems encountered by governments, individuals and companies whether industrial or commercial and by public institutions; computer programming servi-

ces for others; software design and analysis services for others; information technology consultancy services; maintenance and updating of computer software for others; installation of computer software; design and analysis of computer systems for others; consultancy services relating to chemical research; consultancy services in connection with the discovery and evaluation of medicines and components with diagnostic, prophylactic and/or therapeutical properties; consultancy services concerning diagnostic methods by means of optical laser systems; tests for high data rate analysis for producing medicines; customer analysis and synthesis services; biotechnological services; technical assistance in connection with factory automation software, namely maintenance of software and periodical updating of software; customized design of security access systems; design and consultancy services relating to configuration of systems used in fiber-optic technology applications; technical assistance services, namely resolution of problems in connection with computer hardware, video and electronic communication and computer software; technical consultancy services relating to information technology and software in the field of security and access systems; technical consultancy services relating to surveillance cameras; customized design of security systems, access systems and systems for checking inventories and property for others; laboratory and testing services for liquid separation and membrane testing; engineering and consultancy services regarding water treatment, water supply systems, cooling water circuits, industrial boiler water systems, systems for water supply and industrial processes, industrial fuel treatment systems, pulp and paper making systems, systems for treating plastics and metals; engineering and technical assistance services concerning the design and configuration of systems comprising computer hardware and software for use in treatment of water supply systems and pulp and paper making systems, oil and petrochemical product treatment systems and metal and plastic finishing operations; consultancy services in all the aforesaid fields; chemical testing concerning supply of chemical treatment products via industrial water systems; programming for information processing machines, particularly programming services in the field of electronic money; development of computer programs for securing data transfers; industrial development and research services in the field of information technology; all technical consultancy in the field of information technology; development of computerized databases and computer programs; development of software concerning machines, apparatus and instruments; rental of data processing apparatus; computer engineering services; consultancy regarding computer programming and data processing, particularly in connection with financial transactions; hosting of

computer sites [Web sites]; maintenance of computer software; provision of search engines for the Internet; quality control; computer data recovery; research and development of new products (for others); technical project studies; surveying; updating of software; maintenance of software, engineering, testing and research concerning electric machines, apparatus and instruments, computer rental; recovery of data, images, documents and of audio and video data, including texts, cards, letters, messages, mail, animations and electronic mail, via global or local communication networks, including the Internet, intranets, extranets, television, mobile communication networks, cellular networks and satellite networks; identification and testing of microbiological organisms.

43 – Services for providing food and drink; cafeteria and restaurant services; hospitality services, namely providing food and drink; catering services; reservation of hotels and temporary accommodation; bar services; coffee shops; rental of meeting rooms; tourist homes; providing information in the field of tourism, namely accommodation information; providing information in the field of tourism, namely information on provision of food and drink; accommodation information for tourist assistance; services in connection with providing food and drink for tourist assistance; reservation services for tourism, namely reservation of hotel rooms and of food and drink; information services in the field of tourism, namely information concerning the reservation of hotel rooms, accommodation, food and drink; assistance provided to tourists concerning the reservation of hotel rooms, accommodation, food and drink; tourist reservation services, namely reservation of hotel rooms, accommodation, food and drink; rental of mobile and modular structures.

44 – Medical services; medical and pharmaceutical toxicological controls; veterinary services; hygienic and beauty care for human beings and animals; agriculture, horticulture and forestry services; advisory services in connection with medical imaging and diagnosis; advisory services in connection with prophylactic properties, therapeutic properties and pharmaceutical product diagnosis; medical information services; medical imaging services; medical diagnosis services; consultancy services in all the aforesaid fields; rental of medical systems.

 7 – Machines and industrial robots use for processing of wood, metal, glass and plastics, machine tools (including galvanizing machines and electrolyzing machines); working machines and robotic mechanisms having same functions; lifting, carrying and transferring machines, robotic mechanism having same functions (including elevators, moving stairs, winches); machines and robotic mechanisms use for agricultural and stockbreeding purpose and processing of cereals, fruits, vegetables and foods; motors and machines other than those for land vehicles; electrical motors and parts (including parts used for land vehicles, included in this class); electric doors closers and openers; bearings, ball and roller bearings; wheel removing and mounting machines; alternators, generators, electricity generators, generators driven by solar energy; painting machines, automatic paint injection guns; electric staple machines and guns, electric adhesive guns, pressured air or liquid atomizers (guns) for machines; manual electric drillers; manual motor saws, cutting machines; spiral machines, pressured air producers, compressors, vehicle washing machine and robotic mechanism having same functions; welding machines, electric arc welding machines, electric soldering machines, electric arc cutting apparatus, electrodes for welding machines and robotic mechanism having same functions; printing machines; packaging machines, filling, plugging and closing machines; labeling machines, sorting machines and robots and robotic mechanism having same functions (including electrical apparatus for sealing plastics [packaging]); textile machines, sewing machines and industrial robots having same functions; pumps other than machine or motor parts (including fuel filling and dispensing pumps and atomizers); electric apparatus used in the kitchen for chopping, grinding, crushing, mixing and crumbling, washing machines (including laundry, dish washing machines, tumble drier for laundry use [not heated]), electrical cleaning machines use for floor, carpets and floor coverings, vacuum cleaners and their parts; automatic vending machines.

8 – Goods such as forks, spoons, knives, including those made of precious metals, non-electrical kitchen apparatus use for cutting, chopping and peeling purposes; hand-operated cutting tools and weapons;

shaving depilatory, manicure, pedicure and beauty care apparatus and instruments for personal use in this class (including electric hair straighteners, electric hair curling irons, scissors); hand tools (hand-operated) for repairing machines, instruments and vehicles, in the fields of construction, agriculture, horticulture and forestry; electric and non-electric steam irons.

9 – Apparatus and instruments used for measurement and estimation in the field of science and laboratory; apparatus for recording, transmission or reproduction of sound and images (including apparatus, hardware, software and peripherals for data processing, communication and reproduction); magnetic data carriers recording discs; computer programs and software recorded on magnetic media and optical discs; electronic publications downloadable from the internet and also recorded magnetic media and optical discs; cards with magnetic/optical reader; antennas, satellite antennas, amplifiers and parts thereof; automatic ticket dispensers; automated cash machines; electronic machines and apparatus; counters for measuring the consumption of the unit of time; timers; protective clothing, lifesaving and protecting equipments, including ear plugs for divers; glasses, sun glasses, lenses and their boxes, cases, parts and accessories; apparatus and electrical materials for transmission, conversion, storage and control of electricity (including cables and power supplies use for electric and electronic apparatus, batteries, accumulators, anodes cathodes); alarm apparatus (except vehicle alarms); electrical bells; signaling apparatus; speed indicators use for traffic purposes; fire engines; fire-extinguishing apparatus and devices (including fire hoses and fire-extinguishing valves); radars; submarine radars (sonars); night vision goggles; magnets, decorative magnets.

11 – Lighting apparatus (lightening armatures for vehicles, for indoors and outdoors); apparatus for heating and steam producing installations (including solid, liquid and gas fuel and electric stoves, cook stoves); climatization and air-conditioning devices; cooling apparatus and freezers; electric and gas apparatus, machines and devices used for cooking, drying and boiling (including electric and heating tumble drier for laundry use); hair driers and hand drying machines; sanitary installations and apparatus; water softening apparatus, water purifying apparatus, water purifying installations, sewage purifying installations; electrically heated coverlets and quilts not for medical purposes; electrically heated pillows; electrically heated footmuffs; electric heating pads not for medical purposes; water filters and aquarium filters; industrial type cooking, drying and cooling installations; pasteurizing and sterilizing machines.

35 – Services relating to advertising, marketing and public relations (including the organization of exhi-

bitions and fairs for trade purposes); office services, business administration, management and consultancy services related with these matters; accounting services; import and export agency services; commercial or industrial management assistance; organization and arrangement of public auctions; bringing together for the benefits of others of variety of machines and industrial robots use for processing of wood, metal, glass and plastics, machine tools (including galvanizing machines and electrolyzing machines), working machines and robotic mechanisms having same functions, lifting, carrying and transferring machines, robotic mechanism having same functions (including elevators, moving stairs, winches), machines and robotic mechanisms use for agricultural and stockbreeding purpose and processing of cereals, fruits, vegetables and foods, motors and machines other than those for land vehicles, electrical motors and parts (including parts used for land vehicles), electric doors closers and openers, bearings, ball and roller bearings; wheel removing and mounting machines, alternators, generators, electricity generators, generators driven by solar energy, painting machines, automatic paint injection guns, electric staple machines and guns, electric adhesive guns, pressured air or liquid atomizers (guns) for machines, manual electric drillers, manual motor saws, cutting machines, spiral machines, pressured air producers, compressors, vehicle washing machine and robotic mechanism having same functions, welding machines, electric arc welding machines, electric soldering machines, electric arc cutting apparatus, electrodes for welding machines and robotic mechanism having same functions, printing machines, packaging machines, filling, plugging and closing machines, labeling machines, sorting machines and robots and robotic mechanism having same functions (including electrical apparatus for sealing plastics [packaging]), textile machines, sewing machines and industrial robots having same functions, pumps other than machine or motor parts (including fuel filling and dispensing pumps and atomizers), electric apparatus used in the kitchen for chopping, grinding, crushing, mixing and crumbling, washing machines (including laundry, dish washing machines, tumble drier for laundry use [not heated]), electrical cleaning machines use for floor, carpets and floor coverings, vacuum cleaners and their parts, automatic vending machines, goods such as forks, spoons, knives, including those made of precious metals, non-electrical kitchen apparatus use for cutting, chopping and peeling purposes, hand-operated cutting tools and weapons, shaving depilatory, manicure, pedicure and beauty care apparatus and instruments for personal use in this class (including electric hair straighteners, electric hair curling irons, scissors), hand tools (hand-operated) for repairing machines, instruments and vehicles, in the fields of cons-

truction, agriculture, horticulture and forestry, electric and non-electric steam irons, apparatus and instruments used for measurement and estimation in the field of science and laboratory, apparatus for recording, transmission or reproduction of sound and images (including apparatus, hardware, software and peripherals for data processing, communication and reproduction), magnetic data carriers recording discs, computer programs and software recorded on magnetic media and optical discs, electronic publications downloadable from the internet and also recorded magnetic media and optical discs, cards with magnetic/optical reader, antennas, satellite antennas, amplifiers and parts thereof, automatic ticket dispensers, automated cash machines, electronic machines and apparatus, counters for measuring the consumption of the unit of time, timers, protective clothing, lifesaving and protecting equipments, including ear plugs for divers, glasses, sun glasses, lenses and their boxes, cases, parts and accessories, apparatus and electrical materials for transmission, conversion, storage and control of electricity (including cables and power supplies use for electric and electronic apparatus, batteries, accumulators, anodes cathodes), alarm apparatus (except vehicle alarms), electrical bells, signaling apparatus, speed indicators use for traffic purposes, fire engines, fire-extinguishing apparatus and devices (including fire hoses and fire-extinguishing valves), radars, submarine radars (sonars), night vision goggles, magnets, decorative magnets, lighting apparatus (lightening armatures for vehicles, for indoors and outdoors), apparatus for heating and steam producing installations (including solid, liquid and gas fuel and electric stoves, cook stoves), climatization and air-conditioning devices, cooling apparatus and freezers, electric and gas apparatus, machines and devices used for cooking, drying and boiling (including electric and heating tumble drier for laundry use), hair driers and hand drying machines, sanitary installations and apparatus, water softening apparatus, water purifying apparatus, water purifying installations, sewage purifying installations, electrically heated coverlets and quilts not for medical purposes, electrically heated pillows, electrically heated footmuffs, electric heating pads not for medical purposes, water filters and aquarium filters, industrial type cooking, drying and cooling installations, pasteurizing and sterilizing machines.

APPELLATIONS OF ORIGIN AND GEOGRAPHICAL INDICATIONS OF GOODS

AMENDMENTS TO REGISTRATION OF APPELLATION OF ORIGIN MUKUZANI

(Registration No. 2; Date: 30.08.2005)

In accordance with Order No. 2-299 of 26.12.2013 of the Minister of Agriculture of Georgia "On Determination of Specific Zone Borders of Wine of Appellation of Origin MUKUZANI", amendments were made to the specification of wine of appellation of origin MUKUZANI registered at the National Intellectual Property Centre of Georgia SAKPATENTI.

Proceeding from the above, in accordance with Article 8 (4) and (5) of the Law of Georgia on Appellations of Origin and Geographical Indications of Goods, the documentation submitted by the Ministry of Agriculture with regard to the specification of wine of appellation of origin MUKUZANI is published in the Official Bulletin of Industrial Property of Georgia. Within three months from data publication the remarks and additional information submitted to SAKPATENTI is sent for study to the Ministry of the corresponding field. If no information is submitted to SAKPATENTI within three months, the published data on MUKUZANI specification amendments will be reflected in the corresponding register.

SPECIFIC ZONE OF WINE MUKUZANI PRODUCTION

GEOGRAPHICAL LOCATION. The specific zone of wine MUKUZANI is located in the Eastern Georgia, Inner Kakheti, Gurjaani Municipality, on the right bank of latitudinal gorge of river Alazani, on the Northern-Eastern slope of Tsiv-Gombori Ridge, at 350-750 meter above sea level. In the South-West, towards North-East and East direction the territory of the zone consists of slightly and moderately inclined slopes and trails with slightly wavy surface, which becomes flat towards the North-East and borders on the first terrace of Alazani towards Chermiskhevi and Papriskhevi. Raw base includes whole villages: Mukuzani, Zegaani, Chumlaqi, Akhasheni and part of villages: Velistsikhe and Vazisubani.

CLIMATE. The weather in the specific zone of MUKUZANI is formed by atmospheric processes developed in subtropical and moderate latitudes and displaced from west to east. The processes taking place under the influence of the relief of the location are also of great significance. Those processes mainly include the cold air masses blowing from high peaks of the Caucasus glaciers of Kakheti. The climate is moderately damp here, with hot summer and moderately cold winter. The horizon on the area selected for vineyards is well-extended from East to West, which makes effective radiation regimen for vine on the slopes.

The annual duration of sunshine in wine-growing and wine-making micro-zone of Mukuzani is 2150-2200 hours, with 1600 hours during the vegetation period. Total solar radiation in the micro-zone of Mukuzani is no more than 130 kcal/cm², and it is 95-100 kcal/cm² during the vegetation period. Sum of direct annual radiation is 75 kcal/cm², and the dissipated radiation is 54 kcal/cm².

In the micro-zone, the average annual temperature is 12.5°C, in the warmest months (July-August) it is 23.6°C and it is 1.1°C in the coldest month – January.

Activation of the root system starts in the middle of May. The buds of Saperavi blossom in the middle of April, and flowering starts at the end of May. The grapes ripen in the second half of August. The technical ripening of grape takes place at the end of September. This needs active heat of 3500° and more, which in Mukuzani micro-zone accumulates at the altitude of about 750 m. The sum of active

temperatures ($\Sigma t > 10^\circ$) at the altitude of 350-750 m in Mukuzani vine-growing micro-zone varies between 4120-3440°.

Annual sum of atmospheric precipitations in the Mukuzani micro-zone is 645 mm in the vegetation period and during annual period it is 870 mm.

The amount of precipitations during the fruit formation period (VI-VII-VIII) is few, because additional irrigation is allowed. The period of grape ripening is moderately humid (0.59) and the vine needs no irrigation.

Average relative humidity of air is 71%. Air imbibition is the least in July (63%) and in August (60%), and it is relatively higher at the end of autumn (78%) and in winter (76-75%).

The snow cover appears in the last decade of December (from 27.XII) and melts in the middle of March. The number of snowy days in winter is 26. The first freezing in microzone starts at the end of December. Final freezing ends from March 24 and can occur once in ten years till the middle of April. Period without frost is more than 230 days.

The average of the annual absolute minimums of the air temperature is -9, -11°C. Once in every 10 years, minimum temperature can be -15°C.

Number of hail winds average 2,1. During the year hail winds are seen mostly in May (0,7 day) and in June (0,5 days).

Rhumb winds of western (32%) and southern-western (23%) directions prevail in the micro-zone. The number of days without wind is about 21% per annum. At night, before the sunrise, the cold air masses flowing down the high tops of the Caucasus Mountains intensify the danger of winter frosts and spring night frosts.

The specific zone of Mukuzani belongs to III group region of damaging winds region. Wind speed is 1.4m/min. The best means recommended for protection against the wind is planting two-row wind break belts.

SOIL. On the basis of the analysis of the existing research materials, the following types and varieties of soils are distinguished in the specific zone: brown, alluvial and dealluvial varieties:

- 1) Brown, weakly skeletal, clay and loamy soil of great thickness;
- 2) Dark brown (old alluvial), clay of great thickness;
- 3) Dark brown, weakly skeletal, average and light clay of average thickness;
- 4) Rendzina-brown, weakly skeletal, light clay and heavy loamy soil of great thickness;
- 5) Rendzina-brown, weakly skeletal, clay and loamy soil of average thickness;
- 6) Brown forest, weakly skeletal and stony, heavy loamy soil of great thickness;
- 7) Dealluvial-carbonate, clay of great thickness;
- 8) Alluvial-carbonate, clay of great thickness;
- 9) Alluvial-carbonate, clay, skeletal of great thickness.

Brown soils of great and average thickness are spread on most of the territory.

Dealluvial-carbonate soil forms relief of slightly inclined trails in the centre of micro zone, on the ends of Tsiv-Gombori South slopes.

Depth of profile in the soils of great thickness is from 80-100 cm to 110-130 cm, and the same indicator in the soils of average thickness is from 60-70 cm to 70-80 cm. The thickness of humus-containing active layer in the soils of great thickness is from 50-60 cm to 75-85 cm and from 30-40 cm to 40-50 cm in the soils of average thickness. The texture of the soils is loamy and light lumpy in the lower layers. Roots, organic remains, limestone pebbles are met in the soil profile. The content of calcium carbonates increase from up downwards and amounts to 24% in the lower layers. The lower layers of some sections (Rendzina brown) contain calcium carbonates in extremely great amounts of up to 64%.

The content of humus is little in every soil. The contents of hydrolysis nitrogen, soluble phosphorus and exchange potassium are mostly low. The reaction of soil area (pH) is average alkaline. The studied soil cover is spread on the inclined forms of the relief and the soils are developed on high-calcareous rocks. All the mentioned factors, together with the exposition, illumination and climatic conditions allow producing high-quality bulk wine “Mukuzani”.

AGRO-TECHNOLOGICAL REGULATIONS

In order to produce the wine of appellation MUKUZANI, the following agro-technological regulations should be observed by considering the soil and climatic conditions.

SPECIES OF SAPERAVI

Growing area: Up to 350-750 m above sea level.

Norm of loading per 1 sq. m.: 8-10 buds; 80-100 thousand buds per hectare.

Harvest: 7-8 tons per hectare.

SOIL CULTIVATION

Usage of organic-mineral fertilizers with cartographic agro-technological guidelines.

FERTILIZATION

Application of organic-mineral fertilizers under cartographic agricultural regulations.

PHYTO-SANITARY REGULATIONS

Pest and disease control by means of proper contact and systematic preparations registered in Georgia.

WINEMUKUZANI

MUKUZANI – Controlled high-quality, red dry wine of geographical appellation.

It is characterized by pomegranate color, with full, harmonious, velvet and elaborate taste, well-defined species-specific aroma and race, high-extractability.

Chemical properties of the wine MUKUZANI should correspond to the following indicators:

Volumetric spirit content –no less than 10.5%;

Mass concentration of sugars - no more than 4.0 g/dm³;

Titrated acidity – no less than 5.0 g/dm³;

Mass concentration of finished extract -no less than 20 g/dm³;

Concentration of total mass of sulphuric acid - no more than 160 g/dm³;

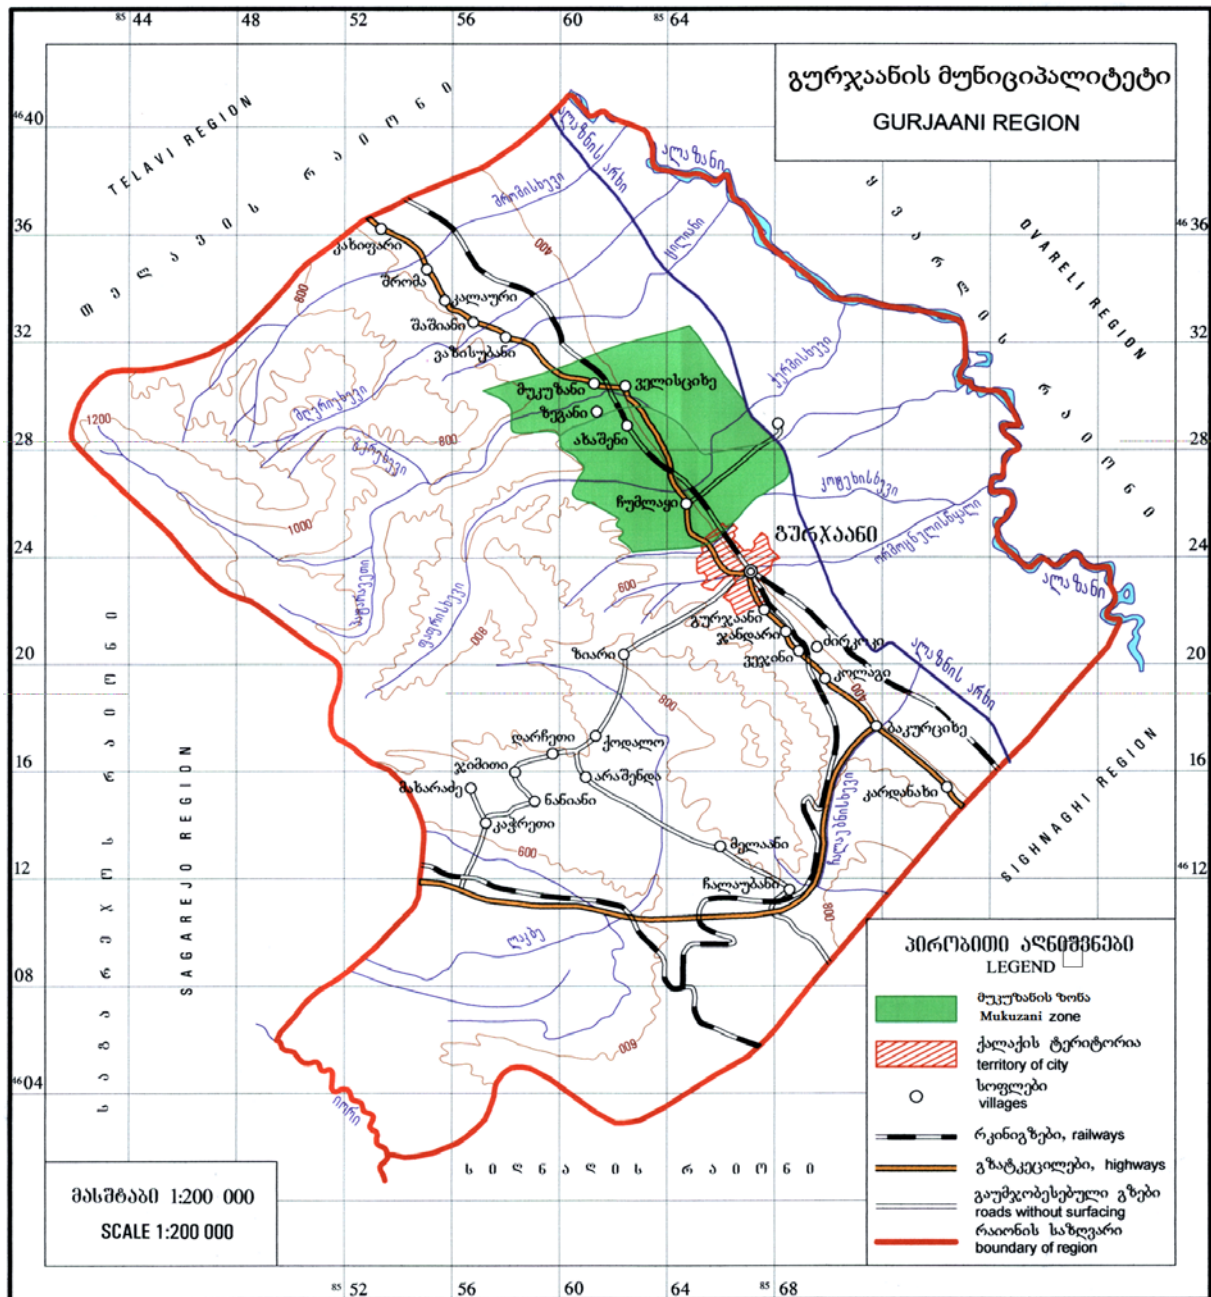

Concentration of free sulphuric acid - no more than 30 g/dm³;

Volatile acidity - no more than 1.2 g/dm³.

The rest norms should correspond to the legislative acts of Georgia and the EU Directive No. 1493/1999 of May 17, 1999.

AVAILABLE AREAS FOR SPECIFIC ZONE

The areas for specific zone of the wine MUKUZANI is 10.5 km². There is expected 3300 tons of conditional harvest; 214 500 decalitres of wine may be produced at the output of 65 decalitres out of 1 ton.
