# INID CODES FOR IDENTIFICATION OF BIBLIOGRAPHIC DATA

## INVENTIONS, UTILITY MODELS

- (10) Number of publication for application, which has been examined
- (11) Number of patent and kind of document
- (21) Serial number of application
- (22) Date of filing of the application
- (23) Date of exhibition or the date of the earlier filing and the number of application, if any
- (24) Date from which patent may have effect
- (31) Number of priority application
- (32) Date of filing of priority application
- (33) Code of the country or regional organization allotting priority application number
- (44) Date of publication of application not granted, but examined and number of bulletin
- (45) Date of publication of registered document
- (51) International Patent Classification Index
- (54) Title of the invention
- (57) Abstract
- (60) Number of examined patent document granted by foreign patent office, date from which patent has effect and country code
- (62) Number of the earlier application and in case of divided application, date of filing an application
- (71) Name, surname and address of applicant (country code)
- (72) Name, surname of inventor (country code)
- (73) Name, surname and address of patent owner (country code)
- (74) Name, surname of representative or patent attorney
- (85) Date of commencement of the national phase of International Application
- (86) Number and date of filing of international application
- (87) Number and date of publication of international application

## DESIGNS

- (10) Number of publication for application
- (11) Number of patent and kind of document or number of registration
- (15) Date of registration/Date of patent renewal
- (18) Expected expiration date of patent or registration
- (21) Serial number of application
- (22) Date of filing of the application
- (23) Date of exhibition or the date of the earlier filing and the number of application, if any
- (24) Date from which patent may have effect
- (28) Number of designs included in the application
- (30) Data relating to priority (number of application, date of filing of application, two-letter code identifying the authority with whom the priority application was made)
- (31) Number of priority application
- (32) Date of filing of priority application
- (33) Code of the country or regional organization allotting priority application number
- (34) Two-letter code according to WIPO St.3 identifying the authority with which the priority application was made
- (44) Date of publication of design and number of bulletin (the first publication)
- (45) Date of publication of design registered by WIPO and number of bulletin
- (51) International Classification for designs (class and subclass of the Locarno Classification)
- (54) Title of the invention
- (55) Reproduction of the design
- (57) Description of characteristic features of the design including indication of colors
- (58) Date of recording of any kind of amendment in the Register
- (62) Number of the earlier application, registration and document number and if available the date of filing an application in case of divided application
- (71) Name, surname and address of applicant (country code)
- (72) Name, surname of creator (country code)
- (73) Name, surname and address of patent owner (country code)
- (74) Name, surname of representative or patent attorney
- (81) Contracting states concerned
  - II designated contracting states according to the 1960 Act
  - III designated contracting states according to the 1999 Act
- (85) Owner's permanent address
- (86) Owner's nationality
- (87) Owner's residence
- (88) State in which the owner has a real and effective industrial or commercial establishment

## TRADEMARKS

- (111) – Number of registration
- (151) – Date of registration
- (156) – Date of the renewal
- (181) – Expected expiration date of registration
- (186) – Renewal expiration date of registration
- (141) – Date of cancel of duration of the mark
- (210) – Serial number of application
- (220) – Date of filing of the application
- (230) – Data concerning exhibition
- (260) – Number of application, for which favorable decision of examination about registration has been taken (publication number)
- (310) – Number of the first application
- (320) – Date of filing of the first application
- (330) – Code, identifying national or regional Office where the first application was made
- (511) – International Classification of Goods and Services for the purposes of registration of trade marks and/or list of goods and/or services classified according thereto
- (531) – Description of figurative elements of Trade Marks according to the International Classification of the Figurative Elements of Marks
- (540) – Reproduction of Trade Mark
- (550) – Nature and kind of Trade Mark
- (580) – Date of recording of any kind changes in respect of applications or registrations
- (591) – Information concerning colors claimed
- (731) – Name and address of the applicant
- (732) – Name and address of the holder of the registration
- (740) – Name and address of the representative
- (750) – Address for correspondence
- (770) – Name and address of the previous applicant or holder in case of change in ownership
- (771) – Previous name and address of the applicant or holder in case of change in ownership
- (791) – Name and address of the licensee
- (793) – Indication of conditions and/or restrictions under the license (Type of license, number of license agreement, data of license, data of validity of license)
- (800) – Certain data relating to the international registration of Trade Marks under the Protocol Relating to Madrid Agreement (International registration number)

## CODES FOR PUBLICATION IN BULLETIN

- (21) AP 0000 000000 – serial number of application for invention
- (10) AP 0000 0000 A – number of published application for invention (first publication)
- (11) P 0000 0000 B – number of patent for invention (second publication)
- (21) API 0000 000000 – number of application for imported patent
- (11) PI 0000 0000 A – number of imported patent (first publication)
- (21) AU 0000 000000 – serial number of application for utility model
- (10) AU 0000 000 U – number of published application for utility model (first publication)
- (11) U 0000 000 Y – number of patent for utility model (second publication)
- (21) AD 0000 000000 – serial number of application for design
- (10) AD 0000 000 S – number of published application for design (first publication)
- (11) D 0000 000 S – number of patent for design (second publication)

## INTERNATIONAL PATENT CLASSIFICATION FOR INVENTIONS AND UTILITY MODELS

- SECTION A – HUMAN NECESSITIES
- SECTION B – PERFORMING OPERATIONS; TRANSPORTING
- SECTION C – CHEMISTRY; METALLURGY
- SECTION D – TEXTILES; PAPER
- SECTION E – FIXED CONSTRUCTIONS
- SECTION F – MECHANICAL ENGINEERING; LIGHTING; HEATING; WEAPONS; BLASTING
- SECTION G – PHYSICS
- SECTION H – ELECTRICITY

#### (54) MAGNETOHYDRAULIC TAPPET

(57) A tappet comprises a case 1 executed as interconnected hydrocylinders 3 and 6 of various diameters with the pistons 4 and 7 placed therein; at that, a piston rod 8 of hydrocylinder of small diameter is assigned for connection with an actuator, and a piston of big diameter is an electromagnetic armature located inside of

electromagnetic coil 2 located in a hydrocylinder 3 of bigger diameter. An electromagnetic latch 14 is fixed onto case bottom and an armature 15 thereof has the bars 16 and 17 from both sides; at that one bar 16 end contacts with unidirectional fluid valve of piston 4 of bigger diameter, and bar 17 another end actuates on switch 18 contact.

**(54) NOVEL ANTIBODIES APPLIED TO TREAT CANCER**

(57) An invention relates to: novel antibodies, in preference, created murine monoclonal antibodies, which are chimeric, humanized, and capable to bound specifically with human protein CD151, also, amino acid and nucleic acid sequences coded for said antibodies. The invention also relates to: said antibodies application as medicament at diagnostic methods, prophylactic and/or therapeutic treatment of cancer. Furthermore, the invention relates to: products and/or compositions containing said antibodies combined with other anticancer antibodies and/or medicament or with toxins and/or radioelements, and application thereat certain cancer prevention and/or treatment.

**(54) ANTIFRICTION AND FRICTION MODIFIERS AND RAIL AND WHEEL SURFACES FRICTION MODIFICATION SYSTEM**

(57) There is represented a system comprising a case with a nest 5 executed therein. The nest has a bar 8 inserted therein with friction lubricant for pressure to wheel and/or rail rolling surface 11 at an equipment conveyance. An additional nest 4 is executed in the case, and a bar 3 with antifriction lubricant for pressure to wheel and/or rail head side surface comb 10 is inserted therein; furthermore, a mean 9 for water feeding on friction surface of wheel with rail is connected to reservoir and fixed

on the case. A bar with friction lubricant is a modifier executed with following components:

zeolite	20-70%,
high-silica sand	20-70%,
water	2-20%,
filler	5-40%,
coupling agent	3-30%,

and a bar with antifriction lubricant is a modifier executed with following components:

graphite	0-10%,
molybdenum disulfide	0-30%,
water	3-20%,
bentonitic clay	20-80%,
anticorrosive and antifoam	
filler	5-40%,
coupling agent	3-30%.

(511)

4 – Industrial oils and greases; lubricants; dust absorbing, wetting and binding compositions; fuels (including motor spirit) and illuminants; candles and wicks for lighting; gases as fuels; liquid gases, industrial gases; liquefied and compressed natural gas; electrical energy.

7 – Machines, namely steam engines, oil refining machines, dishwashers, washing machines; motors and engines (except for land vehicles); machine coupling and transmission components (except for land vehicles); electric kitchen machines including electric blenders for household purposes, as far as included in this class; power generation plants, namely wind-powered generators; hand-held tools, other than hand-operated; power generation plants, namely gas operated generators; power generation plants essentially consisting of dynamos and/or electric generators and/or current generators and/or turbines (except for land vehicles), hydro turbines or alternating current generators; oil refining machines.

9 – Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; electric measuring apparatus and instruments; magnetic data carriers, recording discs; automatic vending machines and mechanisms for coin operated apparatus; cash registers, calculating machines, data processing equipment and computers; web pads (data processing apparatus); electric equipment, hardware and software for the remote operation and remote control of equipment and facilities in the house and in the garden; electronic hotel guides; electric equipment, hardware, software for the detection of malfunctions (also by way of remote diagnosis) and for the transmission of data relating to such malfunctions and the correction thereof in appliances and equipment in the house and in the garden, as far as included in this class; fire-extinguishing apparatus; alarm systems; home security devices (alarm systems); burglar alarms; safety cameras; appliances for receiving, recording, transmitting, processing, output and reproduction of data, voice, text, signals, sound and images; sound carriers, sound-image carriers (except unexposed films), data carriers; sound recording devices, image transmitting devices, audio and video transceivers, television sets, telephones, remote control devices, radiotelephony sets, radiotelegraphy sets, magnetic tape devices for data processing, electric measuring devices, monitors for computer hardware, peripheral equipment for computers, photocopiers and photocopying machines (including electronic and thermal equipment and machines), CD

players, projectors, video recorders, electronic signal transmitters; video games as ancillary devices for use with television sets, circuit closers, ampere meters, circuit breakers, electric loss indicators, electric converters, electricity inverters, facsimile units, telecopying units, electric temperature indicators, sound amplifiers, sound reproduction devices, telephone transmitters, electricity distribution boxes, electricity distribution boards, heat monitoring apparatus, electric counters and meters, electric counting devices, time recording apparatus, timing devices (not for clockworks); other electric counting devices; power generation plants, essentially consisting of electric fuel cells; gasometers; electrochemical fuel cells for electricity generation; photovoltaic plants consisting of solar collectors for electricity generation; apparatus for electric powered vehicle recharging; electric accumulators for vehicles; apparatus for charging electric accumulators; data processing devices and computers for connecting electric vehicles to the energy system of a house, parking garage, petrol station, street light or parking meter; electric measuring apparatus and instruments; computer software for connecting electric vehicles to the energy system of a house, parking garage, petrol station, street light or parking meter; electric measuring apparatus and instruments; devices for measuring current consumption; devices for controlling current consumption; computer software for the transfer of data for the remote reading of electricity meters; computer hardware for the transfer of data for the remote reading of electricity meters; gas meters.

11 – Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; electrochemical fuel cells for heat generation; photovoltaic plants consisting of solar collectors for heat generation; fittings for gas and natural gas, namely gas pressure regulators as well as gas filters as part of domestic or industrial plants, natural gas preheaters, safety shut-off valves and blow-off valves for gas pressure regulating systems.

12 – Apparatus for locomotion by land, air or water; vehicles, in particular motor vehicles, electric vehicles, bicycles, electric bicycles, scooters, tricycles, motorbikes and parts thereof, as far as included in this class.

16 – Paper, cardboard and goods made from these materials, as far as included in this class; printed matter; bookbinding material; photographs; stationery; adhesives and glues for stationery or household purposes; artists' materials; paint brushes; typewriters and office requisites (except furniture); instructional and teaching material (except apparatus); plastic materials for packaging, as far as included in this class; printers' type; printing blocks; maps, atlases, hotel guides (printed products); prin-

ted products with information on installation work, repair services, handcraft services, plant engineering services, key services, caretaker services, services of a domestic help, services in the field of gardening, services in the field of house and real estate management, building and real estate Industry, technical and commercial property management.

25 – Clothing, footwear, headgear.

32 – Table waters, mineral waters and aerated waters and other non-alcoholic drinks; fruit drinks and fruit juices; syrups and other preparations for making beverages.

35 – Advertising; business management; business administration; office functions; advertising and marketing of products and services of power and water supply companies by advising on business economics, market research, public relations, organisation of exhibitions and fairs for advertising purposes, distribution of trade samples and presentation of goods for promotion purposes and by advertising; advertising and marketing of telecommunications networks including the services based thereon for the transmission of speech, data and images and multimedia value-added services by advising on business economics, market research, public relations, organisation of exhibitions and fairs for advertising purposes, distribution of trade samples and presentation of goods for advertising purposes and by advertising; preparation of advertising multimedia presentations; business management of power generation and power distribution plants; recruiting personnel for property management services; book-keeping with respect to property management measures; compilation of data in computer databases; systemization of data into computer databases; computerized file management; services of a price agency, namely investigating prices of goods and/or services; services of a multimedia agency, namely planning of advertising measures, presentation of companies on the Internet and in other media; conducting auctions and public sales, also on the Internet; invoicing for electronic ordering systems; presentation of goods and services; rental of advertising space, also on the Internet; provision of business contact information for goods and services via the Internet; provision of commercial contact information on the Internet; advertising on the Internet for third parties; business management and organisation consultancy in the field of energy, fuel cells, wind power plants and photovoltaic plants; marketing services, namely advertising for new technologies, in particular in the field of environment and energy; business management and organisation consultancy in the field of energy; cost-price analysis in the field of property management; consumer advice, also online, with regard to articles of daily use, luxury goods

and commodities, as well as goods and services for commercial and industrial needs; craftsmen placement services, also online; personnel recruitment services, namely placement of craftsmen; business administration of vehicle fleets; provision of expert business opinions to companies and businesses which deal with energy, water, waste water and lighting installations; business management consultancy in the field of business development; human resource management, namely personnel placement agency, personnel recruitment, selection of personnel, personnel management consultancy, temporary staff placement agency; business management and organisation consultancy on matters in connection with energy-saving measures and the optimization of heating systems; providing personnel for the operation of power plants, in particular hydropower plants, nuclear power plants, coal-fired power plants, gas and steam turbine power plants, cogeneration units, thermal power plants, heating plants, waste incineration plants, waste-to-energy plants, hydro and wind power plants, photovoltaic power plants and transformer stations; providing personnel for the operation of power generation and distribution plants; providing personnel for the operation of distribution and transportation networks; providing personnel for the operation of workshops; providing personnel for the operation of waste-water treatment plants; providing personnel for the operation and maintenance of telecommunication networks; providing personnel for the operation of electric street lighting systems; providing personnel for the operation of waste treatment plants; leasing personnel, namely providing personnel for the installation, repair and maintenance of heating systems, air-conditioning systems, ventilation systems, sanitary facilities, control and regulating systems; temporary secondment of personnel; procurement of spare parts for third parties and of technical and other consumables such as cleaning agents and toilet paper in connection with the maintenance and upkeep of buildings; payroll preparation; cost-price analysis; business inquiries; administrative processing of purchase orders; business management and organisation consultancy; business management consultancy; advice on business management matters; business organisation consultancy; business management and organisation consultancy with a view to quality control and quality assurance; procurement services for goods and services for third parties; book-keeping; auditing; compilation of statistics; invoicing; market research; provision of expert business opinions; commercial or industrial business management assistance, marketing (market research); public relations; outsourcing services (business assistance); clerical services (word processing); secretarial services; tax preparation; organisation and carrying out of promotional events; publication of printed products

(also in electronic form) for advertising purposes, consumer advice; provision of business contact information for trading of goods and services, also via the Internet; wholesale and retail services as regards current and gas; arranging contracts for third parties for the provision of services; office work for handling contracts; responding to customer complaints lodged over the telephone; processing of measured values for electric meters by systemizing these data in computer databases, also online; business management and organisation consultancy on matters in connection with energy-saving measures, in particular by online; computerized data management; consultancy in the field of electronic data processing (EDP).

36 – Insurance, insurance brokerage (in particular automobile third-party insurance, fully comprehensive and partially comprehensive insurance), settlement of claims (insurance); financial affairs; monetary affairs; real-estate affairs; electronic capital transfer, home banking; telebanking, namely online processing of banking transactions; financial advising with regard to the investment of risk capital; property management, namely rental of buildings (as far as included in this class); financial advisory services in the field of energy, fuel cells, wind power plants and photovoltaic plant; financing the development of holistic energy concepts; financial advice in connection with energy-saving measures and optimization of heating systems; financial services; property and real-estate management; building management; caretaker services (building administration); financing vehicle acquisition; granting of monetary loans and arranging for credits; financial advisory services in the field of energy, in particular financial advice on energy matters for households, trade and industry; financial advice in connection with energy-saving measures, in particular in relation to electric meter reading and data analysis therefore, also online.

37 – Building construction, namely building of waste treatment plants, building of power plants, in particular hydro-power plants, nuclear power plants, coal-fired plants, gas and steam turbine power plants, thermal power plants, heating plants; building of landfill gas power plants and natural gas/solar thermal power plants; building of solar power plants, wind power plants, hydro-power plants, biogas power plants; building of power plants, in particular cogeneration units, waste incineration plants, waste-to-energy plants, hydro-power and wind power plants, photovoltaic power plants and transformer stations; installation services; repair, namely repair of network systems (hardware), energy networks, waste treatment plants, power stations, irrigation systems, alarm systems, electrical appliances, heating installations, air-conditioning systems, refrigerating systems, telepho-

nes, furnaces, office equipment, machines, pumps, locks and motor vehicles; repair of data terminal equipment (hardware); network management, namely installation and maintenance of network systems (hardware); construction (building) and installation of distribution and transportation networks and of transformer stations; construction of piping networks; construction and repair of power generation and power distribution plants, fuel cells, wind power plants and photovoltaic power plants; maintenance of power, fresh-water and waste-water installations and network systems; construction and maintenance of waste-water and fresh-water installations; technical property management, namely maintenance of buildings; cleaning of facades; plant installation and related assembly services, including maintenance, servicing, renovation, extension, modification and repair services also in relation to the modernization and renovation of waste-water and fresh-water installations, lines and other installations for feeding and drainage, sanitary installations, heating, ventilation and air-conditioning systems, industrial plants, machinery installations and parts thereof, technical equipment, systems and equipment for the protection of buildings, installations, means of transport, domestic appliances, electronic equipment for entertainment and information technology as well as photovoltaic installations, supply lines (e.g. gas and electricity), buildings and parts thereof; repair services, namely repair of data terminal systems (hardware), network systems (hardware), distribution and transportation networks, waste treatment plants, power stations, power generation and distribution plants, waste-water and fresh-water installations and network systems, buildings, sanitary installations, heating, ventilation and air-conditioning systems, industrial plants, machinery installations and parts thereof, technical equipment and electric street lighting; repair of mobile phones; network management, namely installation and maintenance of network systems (hardware); maintenance of data terminal installations (hardware); installation of internet terminals; installation (construction) and maintenance of electric street lighting; installation (construction) of supply and disposal infrastructure (lines for electricity, gas, water and data, waste-water lines and sewage system) when developing land; road construction; cleaning of buildings (interior and exterior); repair, maintenance and servicing of vehicles; repair of vehicle fleets; cleaning of vehicles; installation of fixed-network connections; repair, maintenance, servicing and rebuilding of cable infrastructures, wide area networks (hardware), local area networks (hardware) telecommunications systems (hardware), installations in buildings and special-purpose networks (hardware), fire-alarm systems, detection systems and other media technology installations (hardware); installation and servicing of

telecommunications networks (hardware) together with the transmission and dial switching technology contained therein, including network management related thereto; installation of transportation networks; building of waste-water treatment plants; repair of telecommunications systems, electro-acoustic systems, radiophone systems, community antenna systems; installation and repair of radiophone systems essentially consisting of radiophone devices, radio masts and radio receivers; installation and repair of community antenna systems essentially consisting of receiving antennas for radio and television signals, antenna wire and wiring, establishment (construction) of consumer systems (for gas/natural gas, local heat, cooling); repair and maintenance of air-conditioning systems; services of a painter; installation and maintenance work within the scope of services of an electrician, plumber, joiner, concrete worker, well sinker, paver, building construction worker, road worker, heating, cooling and soundproofing technician, carpenter, electro-mechanic, heating and ventilation technician, refrigeration plant builder, motor mechanic, metal worker, locksmith, tinsmith, all aforementioned services included in this class; cleaning of apartments and buildings; linen ironing; assembly services relating to the installation and dismantling of furniture; installation, repair and maintenance of heating systems, air-conditioning systems, ventilation systems, sanitary installations, regulation and control systems in buildings; in each case including remote installation, repair and maintenance; installation of systems and equipment for remote operation and control of appliances and equipment in the house and in the garden; repair, namely detection of malfunctions and correction of such malfunctions in systems and equipment in the house and in the garden; installation, repair and maintenance of measuring, signalling and controlling apparatus and instruments; installation and maintenance of computer hardware for the transfer of data for remote reading of electric meters; technical advice on the operation of electric street lighting; technical advice on the operation of lighting systems; technical advice on the operation of street lighting systems as far as included in this class.

38 – Telecommunications, in particular electronic bulletin board services; providing access to telecommunications networks together with the transmission and dial switching technology included therein and including the network management related thereto; providing access to a global computer network and thereby to text, images, audio-visual offers, multimedia offers, databases and computer programmes on the Internet; email data services; online services, namely transmission of messages, images and information of any kind; web messaging, namely conveyance of messages of any kind to Internet addresses; providing telecommu-

nications connections to a global computer network; videotext services; telex services; broadcasting of television programmes and radio programmes; telephone services; broadcasting of cable television programmes; communication via fibre-optic networks; telecommunications line, routing and junction services; cellular telephone communication; message sending; computer-aided transmission of messages and images; electronic mail; rental of message sending apparatus; paging services by radio, telephone or other means of electronic communication; services of a press agency, in particular collection and supply of press reports; broadcasting of radio programmes; satellite transmission; telephone services; telegraph services; telegram services; transmission of telegrams; information about telecommunication; teleconferencing services; facsimile transmission services; rental of telecommunication equipment, in particular facsimile units, modems, telephones; providing access to information in data networks; rental of mobile phones and provision (rent) of substitute mobile phones; pre-paid Internet access services; providing access to chat lines, chat rooms and discussion forums on the Internet; transmission of data via electricity networks (power line); rental of fixed-line connections; pre-selection telephony (telecommunications services); call-by-call telephony (telecommunications services); providing access to e-commerce platforms on the Internet; providing access to Internet portals for third parties; providing access to portals and platforms on the Internet; providing access to electronic information, communication and transaction platforms on the Internet; Internet services, namely providing access to information on the Internet; electronic exchange of messages via chat lines, chat rooms and Internet forums; providing access to measured values of electric meters on the Internet; rental of access time to databases with search and retrieval facilities; technical advice on the operation of telecommunications networks; technical advice on the operation of cable networks, wide area networks, local area networks, telecommunications systems and installations in buildings and special-purpose networks.

39 – Transport; packaging, storage and delivery of goods of all kinds; travel arrangement; distribution of fresh water; provision of transportation networks for the supply and distribution of gas and energy to third parties, in particular electricity, water and heating (local and long-distance heat), and cooling energy, in particular to industrial customers customers, and supply to third parties through the delivery of electricity, gas, water and heat (local and long-distance heat) and cooling energy; rental of vehicles; collection (removal), storage, deposit and transport of waste; logistics services in the field of transportation; removal services (as far as included in this class), in particular rental of removal

vehicles, logistics services in the field of transportation with regard to removals; transportation of passengers and goods by boat and motor vehicle; vehicle towing as part of breakdown services; removal services; truck hauling of goods; providing and renting out parking and storage space to third parties; rental of parking places in parking garages; storage of spare parts for third parties and storage of technical and other consumables, e.g. cleaning agents and toilet paper in connection with the maintenance and upkeep of buildings; transport of mobile phones for repair purposes (mobile phone pick-up service); order delivery services; leasing leasing of vehicles; technical advice on the operation of power distribution plants; technical advice on the operation of distribution networks and transportation networks; technical advice on the operation of installations for gas supply.

40 – Treatment of materials; technical treatment of fresh water and waste water; waste-water disposal by waste-water treatment; fresh-water treatment; recycling of waste; waste recycling and disposal by composting, chemical conversion, treatment, destruction and incineration; thermal waste disposal; destruction of waste; production of energy and heat (local and long-distance heat); production of energy through operation of fuel cells, wind power plants and photovoltaic plants; waste-air purification; waste incineration; key cutting; technical advice on the operation of power generation plants, power plants, in particular hydro-power plants, nuclear power plants, coal-fired power plants, gas and steam turbine power plants, cogeneration units, thermal power plants, heating plants, waste incineration plants, waste-to-energy power plant, hydro-power and wind power plants, photovoltaic plants, transformer stations, solar power plants, wind power installations and biogas power plants; technical advice on the operation of workshops and waste-treatment plants; technical advice on the operation of waste-water treatment plants and air-conditioning systems; technical advice on the operation of waste-water and fresh-water installations; technical advice on the operation of waste treatment plants, landfill gas plants and natural gas/solar thermal plants.

41 – Education, training; sports and cultural activities, entertainment, also on the Internet; game services, also provided online; publishing of printed matter in electronic form, other than for advertising purposes, also on Intranets and on the Internet; employee training; planning and organizing of educational events; imparting technical know-how through training and by arranging education courses; digital imaging services.

42 – Scientific and technological services and research and design services relating thereto, in

particular scientific and technological services and research in the field of electric vehicle connection to the energy system of a house, parking garage, petrol station, street light or parking meter; engineering services for gas, water and long-distance heat network systems; industrial analysis and research services; design and development of computer hardware and software; weather forecast, also online; scientific and industrial research and development; environmental services, namely consultancy relating to technical research in the environmental field, technical development of concepts for the management of environmental risks; technical planning for the construction and operation of waste treatment plants; drawing up of expert technical opinions in connection with the environment; architectural services including construction planning and consultancy therefor; technical project planning of electric street lighting, waste-water treatment plants and air-conditioning systems; services of an engineer for energy conversion and application systems; technical planning of waste-water and fresh-water installations; technical planning of energy systems; technical advice in connection with energy-saving measures for households, trade and industry; construction engineering and technical advice in connection with energy-saving measures and the design optimization of heating systems; technical advice in connection with energy-saving measures, in particular through evaluation of measurement data from electric meters, also online; energy management, namely technical advice relating to the planning of power generation and distribution plants, fuel cells, wind power plants and photovoltaic plants; technical project planning, technical planning and technical advice therefor with regard to the operation of power generation and distribution plants, fuel cells, wind power plants and photovoltaic plants; drawing up of expert technical opinions with regard to energy, fresh water, waste water and lighting systems; development of technically and ecologically holistic energy concepts (consultancy in the field of environmental protection and technical advice in connection with energy-saving measures); research and development for third parties; research and development, in particular in the field of environment technology; technical project studies in the field of energy and water management and supply with special emphasis on ecology and infrastructure; technical development of infrastructure plans; technical measurement of electricity and natural gas; technical water laboratory services; development of software architectures, modules and interfaces for electronic and electro-technical equipment, components and systems; scientific services in the field of forestry and agriculture, namely afforestation research and scientific advice on afforestation, biological research and advice on

integrated crop production, research and advice on fertilization and harvest; technical planning, inspection and constructional planning of pipeline networks; provision of services of an engineer for energy conversion and application systems; technical project studies in relation to development planning; services of a surveyor's office; preparation of construction plans; technical planning on the operation of waste treatment plants, landfills gas plants and natural gas/solar thermal plants; technical planning of telecommunications networks, including network management and related dial switching technology; technical advice on the operation of geographic information systems; technical inspection of equipment, machinery and plant of every kind; network management, namely installation and maintenance of network systems (software); maintenance of software for Internet portals for third parties; computer programming services for the design and development of multimedia presentations; advice on the design of homepages and Internet pages; provision of search engines for the Internet; creation and design of websites and parts of websites on the Internet by means of computer-generated images and sounds (computer animation); server administration; advice in the field of telecommunications technology; rental of computer programmes on data networks; electronic data storage for third parties; design of homepages and web pages; services of an Internet agency, namely conceptual formulation, maintenance and administration of Internet content, advice on hardware and software, implementation of electronic data processing programmes in network structures and digital storage of software data, images, audio and/or video information; rental of data carriers with software, data, images, audio and/or video information stored thereon (included in this class); services of a certification centre (trust centre), namely allocation and administration of digital codes and/or digital signatures; rental of web servers; providing storage spaces on the Internet; technical advice relating to the design of Internet pages; checking of digital signatures; rental of storage spaces for use as websites for third parties (web hosting); development of software for Internet and Intranet applications; design and development of multimedia products for schools; scientific and technological advice on waste disposal; consultancy in the field of communications technology, technical consultancy in the field of geographical information systems; providing technical advice in the field of industrial research relating to distribution network; updating of computer software; updating of Internet pages; computer hardware and computer software consultancy; consultancy in the field of energy conservation; technical current measurements; rental of measuring devices (included in this class), in particular devices for measuring po-

wer consumption; rental of monitoring devices (included in this class), in particular devices for monitoring power consumption; installation and maintenance of computer software for the transfer of data for remote control of electric meters; development of software, development of software architectures, modules addresses.

45 – Legal advice and legal representation; granting industrial property licences, licensing of industrial property rights; licensing of software; registration of domain names; technical advice on the operation of fire detector systems.
