INID CODES FOR IDENTIFICATION OF BIBLIOGRAPHIC DATA

INVENTIONS, UTILITY MODELS

- (10) Number of publication for application, which has been examined
- (11) Number of patent and kind of document
- (21) Serial number of application
- (22) Date of filing of the application
- (23) Date of exhibition or the date of the earlier filing and the number of application, if any
- (24) Date from which patent may have effect
- (31) Number of priority application
- (32) Date of filing of priority application
- (33) Code of the country or regional organization allotting priority application number
- (44) Date of publication of application not granted, but examined and number of bulletin
- (45) Date of publication of registered document
- (51) International Patent Classification Index
- (54) Title of the invention
- (57) Abstract
- (60) Number of examined patent document granted by foreign patent office, date from which patent has effect and country code
- (62) Number of the earlier application and in case of divided application, date of filing an application
- (71) Name, surname and address of applicant (country code)
- (72) Name, surname of inventor (country code)
- (73) Name, surname and address of patent owner (country code)
- (74) Name, surname of representative or patent attorney
- (85) Date of commencement of the national phase of International Application
- (86) Number and date of filing of international application
- (87) Number and date of publication of international application

DESIGNS

- (10) Number of publication for application
- (11) Number of patent and kind of document or number of registration
- (15) Date of registration/Date of patent renewal
- (18) Expected expiration date of patent or registration
- (21) Serial number of application
- (22) Date of filing of the application
- (23) Date of exhibition or the date of the earlier filing and the number of application, if any
- (24) Date from which patent may have effect
- (28) Number of designs included in the application
- (30) Data relating to priority (number of application, date of filing of application, two-letter code identifying the authority with whom the priority application was made)
- (31) Number of priority application
- (32) Date of filing of priority application
- (33) Code of the country or regional organization allotting priority application number
- (34) Two-letter code according to WIPO St.3 identifying the authority with which the priority application was made
- (44) Date of publication of design and number of bulletin (the first publication)
- (45) Date of publication of design registered by WIPO and number of bulletin
- (51) International Classification for designs (class and subclass of the Locarno Classification)
- (54) Title of the invention
- (55) Reproduction of the design
- (57) Description of characteristic features of the design including indication of colors
- (58) Date of recording of any kind of amendment in the Register
- (62) Number of the earlier application, registration and document number and if available the date of filing an application in case of divided application
- (71) Name, surname and address of applicant (country code)
- (72) Name, surname of creator (country code)
- (73) Name, surname and address of patent owner (country code)
- (74) Name, surname of representative or patent attorney
- (81) Contracting states concerned
 - II designated contracting states according to the 1960 Act
 - III designated contracting states according to the 1999 Act
- (85) Owner's permanent address
- (86) Owner's nationality
- (87) Owner's residence
- (88) State in which the owner has a real and effective industrial or commercial establishment

(57) There is represented the IV catheter introducer comprising: a retractable needle 246, an elastomeric grommet 258 disposed between housing 214 and the IV catheter assembly avoiding unintentional separation of IV catheter assembly from housing during shipping and handling prior use. It acts as a needle guide and helps housing and IV catheter assembly coaxial orientation. At that, housing is able to clean needle exterior side at needle retraction, after that the grommet excludes blood outflow from hub 266 rare. At that, the grommet comprises an ear 261 directed back and engaged with housing cutout 287 for grommet and housing rotary alignment.

BODY RADially**

(57) An invention relates to container radial expanding method providing: cylindrical container body 10 having longitudinal weld seam and a flange 9 assurance on at least one end; suspended body fixation on flange periphery, and suspended and fixed body radial expanding from fixed end towards suspended end. At that, radial expanding is executed with: flexible perforating instrument 39, and means 36, 37, 38, 43 regulating radial expansion united peripheral surface diameter. The means effects on perforating instrument internal surface. Furthermore, there is represented container body radial expanding apparatus.

A horizontal shaft 6 is cropped rotatable in bearings allocated in the case. A generator 7 is fixed on shaft one end, and on another end a basic wind wheel 8 is fixed. Furthermore, two additional wheels 11 and 12 are cropped rotatable on the horizontal shaft, so that wings 13 of all wind wheels are disposed in common vertical plane of rotation. Each additional wind wheel comprises a hub 14, and a rim 16 is tied thereby means of spokes 15. Wings are fixed in the blackets 17 allocated on said rim in equal distances. The plant includes: a node to rigid additional wind wheels onto

the horizontal shaft, blackets angularly installation mechanism, and a control system.

features or other biometric features; signal processing software for use in detecting and identifying persons or biometric features of persons in the field of security and access control; apparatus, instruments and software for detecting and identifying counterfeit documents; fixed, portable and on-board equipment for medico-legal security applications; apparatus, instruments and software for secure game, lottery or betting applications; optronic sensors for data capture from game, lottery or betting tickets; electronic readers, devices (apparatus, software for verifying and identifying digital data; apparatus, instruments, software, terminals, devices (apparatus, software for reading for authentication and identifying digital data; software, terminals and devices (apparatus, software for reading for authenticating and identifying the machine-readable area on passports, visas, identity cards, drivers' licenses, health cards, voting cards, resident cards, residence permits, health professionals' cards and other personal administrative documents, featuring an electronic chip capable of transmitting data with or without contact; password identification devices (apparatus, software); apparatus and instruments, software, terminals, readers for data processing; data storage apparatus and instruments; software for verifying and identifying secure digital data; apparatus and instruments for monitoring personal identity data; integrated circuit cards, integrated circuit cards for running and loading applications on computer terminals; integrated circuit cards for mobile radiocommunication systems; integrated circuit cards for access to, and communication with the users of, data networks; data processing equipment, particularly for integrated circuit card terminals, and parts for the aforesaid goods; operating system software, computer programs, operating system software for integrated circuit cards; databases; apparatus for testing integrated circuit cards; facilities for processing integrated circuit cards; apparatus for printing and engraving cards.

16 – Printed matter, especially printed cards for use as identity cards, telephone cards, checks, credit or bank cards; passports, visa documents, identity cards, driving licences, health cards, voting cards, resident cards, residence permits, health professionals' cards and other personal administrative documents featuring a machine-readable area, all these documents being of paper or cardboard.

38 – Telecommunications; interactive telecommunication via the Internet and other telecommunication networks; technical advice in the field of data communication and telecommunication; advice, consulting and information concerning the aforementioned services, especially that transmitted by electronic networks such as the Internet.

42 – Expert appraisals and consulting in the field of controlling the access of persons; design, research

and development of programs and software for reading fingerprints, palm prints, features of the iris, the veins, the voice, facial or body features or other biometric features in the field of access control or authentication of persons; expert appraisals and consulting in the field of verification of personal records; design, research and development of systems for verifying records; expert appraisals and consulting in the field of identity management platforms; design, research and development of electronic identification programs and software; automation services for computers; conversion of data from physical to electronic media; design, installation, maintenance and updating of data processing software; cryptography services; encoding of identity documents; advice, consulting and information concerning the aforementioned services, especially that transmitted by electronic networks such as the Internet.

45 – Personal record verification services using alphanumeric and biometric data; delivering identity documents identifying and granting rights to persons such as welfare cards, health cards, drivers' licenses or electoral cards; dematerialization services; personalization services for documents; electronic authentication and identification services for paperless applications and for electronic services provided over the Internet, using electronic identifiers such as integrated circuit cards, USB keys or any kind of physical or computer-based token, electronic signatures, electronic certificates, time-stamping and electronic archiving services.

1 – Chemicals used in industry, science and photography, as well as in agriculture, horticulture and forestry; unprocessed artificial resins, unprocessed plastics; fertilizers; fire extinguishing compositions; tempering and soldering preparations; chemical substances for preserving foodstuffs; tanning substances; adhesives for industrial purposes; sensitized films, unexposed; synthetic resins; thermoplastic and thermosetting synthetic resins and organic flowed-in gaskets, for general use in applied arts; chemical intermediates; organosilicon compo-

unds, namely polysiloxanes and silanes in the form of resins, pastes, liquids, elastomers, vulcanizing products and accelerators; antifoamers; catalysts for paints; chemicals used for developing and fixing X-ray films and other chemicals in connection with developing the said films; phosphorescent substances; chemical substances used as fissile materials; fuel for nuclear reactors; fused quartz in various shapes, such as disks, ingots, shanks and tubes for general use in applied arts; adhesive materials for industrial purposes; polycrystalline alumina ceramics for general use in applied arts; brazing products and flux; thermoplastic and thermosetting adhesives; chemical, biochemical and reagent products for use in industry, science and research; chemical products, kits and reagents for analysis or diagnosing for scientific purposes, namely chemical products for use in cell culture and separation, the purification of nucleic acid, nucleotides, fluorescent nucleotides, oligonucleotides, peptides, proteins, amino-acids, organic molecules and markers for use in synthesizing DNA/RNA; luminescence reagents; reagents for quantifying the gene expression; reagents for the polymerase chain reaction process; reagents for the rolling circle amplification process; reagents for use in cloning of DNA and vehicles, modification and restriction enzymes; reagents used for labelling, sequencing and fragment analysis of nucleic acids, proteins and custom synthesis; reagents for recombinant protein expression purification; chromatography media; reagents for electrophoresis, bio-informatics, spectrophotometry and fluorometry; radiochemicals for scientific research purposes; reagents for scintillation assays; high through put screening assays for drug development; reagents for use in fluoroscopic and confocal high-resolution laser microscopy; specialised chemicals for use in industry, science and research; gases and gas mixtures for industrial, research and scientific purposes; chemical preparations and substances for the manufacture of pharmaceutical products, diagnostic preparations and substances; chemical test reagents, saline solution and reagent-coated paper, all for scientific and laboratory use; fissionable chemical elements for scientific research purposes; radioactive elements and isotopes for industrial, scientific and research purposes; radioactive sources and standards for use in radiographic techniques; radioactive sources for use in non-destructive testing, purification or sterilizing techniques; radionuclides for scientific research purposes; chemical products and compounds for the treatment of water supply systems, wastewater treatment systems, cooling water circuits, steam generation and boiler water systems, boiler condensate systems, liquid separation systems, systems for water clarification and dehydration in aqueous systems, conditioning systems, gas scrubbing systems, industrial process systems, fuel pro-

cessing systems, gas and hydrocarbon processing systems, petrochemicals and petroleum and gas processing systems, paper and pulp manufacturing systems, plastic and metal coating systems, metal processing systems; chemical products, namely additives (chemical) for gasoline, additives for furnace oil and additives for improving the performance of fuel for turbine engines; bags of water-absorbent chemically treated granular material to be placed in fuel tanks; test kits containing reagents for determining the presence of algae and active organic organisms in diesel fuel; bacterial cultures and nutrients for the treatment of slurries and wastewater; chemical polymer products for dispersing particulate matter in steam generating equipment; chemical products and compounds used as anti-fouling and demulsifying agents in coke and derivative product manufacturing operations in the iron and steel industry; chemical products, catalysts, semi-worked plastic materials used as materials, filters for removing acid gases, untreated plastics, crystalline whisker and zinc oxide; none of the aforesaid goods comprising photographic, cinematographic or optical products; radiopharmaceutical products for scientific and research uses; polymer membrane materials for separating liquids.

2 – Paints, varnishes, lacquers; preservatives against rust and against deterioration of wood; colorants; mordants; natural resins, raw; metals in foil and powder form for painters, decorators, printers and artists; corrosion inhibitors in the form of a coating for use in the metal-finishing industry, namely an aqueous acid product for final flushing; corrosion inhibitors in the form of a coating for cooling water circuits; corrosion inhibitors in the form of a coating, namely resinous coatings for metal and masonry surfaces; coating materials, etching solutions; toner cartridges for printers; ink cartridges for printers; toner, toner for copiers, toner for facsimile machines.

3 – Bleaching preparations and other substances for laundry use; cleaning, polishing, degreasing and abrasive preparations; soap; perfumery, essential oils, cosmetics, hair lotions; dentifrices; cleaning products containing chemical products and compounds for cleaning steel, aluminum, galvanized and mixed metal surfaces for general industrial use for the manufacture of metal goods; cleaning agents containing chemical products and compounds for industrial use for removing contaminants from industrial process systems; scouring solutions for paint containing chemical products and compounds for removing paint from equipment surfaces in operations in paint spraying booths.

5 – Pharmaceutical and veterinary preparations; sanitary preparations for medical purposes; dietetic substances adapted for medical use, food for babies; plasters, materials for dressings; material

for dental fillings and dental impressions; disinfectants; pesticides; fungicides, herbicides; pharmaceutical diagnostic preparations; pharmaceutical, veterinary preparations for diagnostic purposes; pharmaceutical and veterinary substances for medical purposes; diagnostic reagents and products for medical purposes; diagnostic substances for medical purposes; contrasting substances for medical imaging; diagnostic reagents used for scanners for use in vivo; diagnostic imaging media for imaging using magnetic resonance (MRI); radiopharmaceuticals for clinical and medical purposes; radiopharmaceutical sources and standards for nuclear medicine; pharmaceutical radioactive and reactive non-radioactive products for producing radiopharmaceuticals for in vivo diagnostics or for therapeutic purposes; gases and mixtures for use in medical imaging; pre-filled flasks containing medical diagnostic reagents; pre-filled cartridges containing chemical solutions for medical purposes; pre-filled cylinders containing gases and gas mixtures for medical purposes; implantable radiation therapy devices comprising radio-isotope therapeutic radiology sources in capsules; system for administering radiation therapy comprising radioactive grains and a bioabsorbable positioning mechanism.

7 – Machines and machine tools; motors, other than for land vehicles; machine coupling and transmission components (except for land vehicles); agricultural implements other than hand-operated; incubators for eggs; apparatus, equipment and instruments for electricity generation, namely electricity generators and wind turbines generating electricity; turbines; turbines for production of energy; wind turbines for production of energy; wind turbines linked to wind farms, turbine production installations, namely electricity production installations; generator motors; parts and components of all the above products; electricity generators using solar energy; machines and machine systems, including parts and fittings for producing, transforming, converting electricity; dynamos; electrical motors of all kinds, gas and steam turbines and components thereof, electric generators and components thereof, aeroplane engines, compressors; washing machines, dishwashers, garbage disposals and compressors; pumps, namely centrifugal pumps, diaphragm pumps, bellows pumps, pumps and transfer pumps; devices for controlling liquids, namely valves, regulators, actuators, ejectors; liquid separation cartridges and components thereof, including semi-permeable membranes; filter cartridges for various manufacturing machinery for filtering applications, including the filtration of coating solutions for the manufacture of magnetic tapes and the filtration of petrochemical products, drinking water, beer in the brewing industry and other special chemicals; machines for feeding and applying chemical products used in industry; centrifugal and

axial compressors; piston compressors; rotary sliding vane and screw pumps; rotary, vacuum, electrical, submersible and centrifugal pumps; turboexpanders, namely, air and electrical compressors; CNG (compressed natural gas) refuelling machinery for land vehicles and industrial equipment and parts and accessories for all the above goods, namely pumps, valves, fuel filters, filter cases, ignition rotors, blades, bearings and mechanical seals; condensers [steam]; motors for boats; turbo-compressors for motors and engines; fuel injectors; welding machines, industrial robots, machines for inserting electronic components, dry etching machines, electrical micro-discharge machines, optical disk production systems, precision connection equipment, processing machines for printed wiring boards, filler rods, parts mounting machines, soldering machines, machines for fastening screws, electric tools; electric motors, electric generators; elevator (lift); washing and drying machines, electric washing machines, electric dishwashers; compressors (not surgical); pumps, electric pumps; mixing, cutting and mincing machines, mixing machines, electric juice extractors, electric food processors, electric meat grinders, electric can openers, electric knife sharpeners, electric coffee grinders, electric ice crushers, electric machines for processing waste; garden tools, electric lawnmowers, garden sprays for disinfectants and insecticides; electric cleaning appliances, electric vacuum cleaners, electric floor polishers; electric window-washing devices; electric hand tools and instruments; welding machines; arc, gas or plasma metal cutting machines; mixers, juicers, shakers, food processors, mincers/meat grinders, electric can openers.

9 – Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking [supervision], life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording disks; automatic vending machines and mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment and computers; extinguishers; protective helmets for sports; spectacles, sunglasses, goggles for sports; software, computer game programs; service-station fuel pumps for refueling airplane engines; fuel distribution equipment, namely calibrated fuel pumps, electrical fuel level gauges, control valves for regulating gas flow rate and fuel lines; automated service-station management systems comprising operating software, calibrated fuel pumps, flow-rate control panels, fuel lines and fuel nozzles for refueling land and water vehicles and airplanes; gas meters; onboard and roadside communication and signaling systems, train inspection

systems, crossing notification systems, electric points control apparatus; GPS monitoring and surveillance systems for freight-forwarding industries and railways; electricity distribution devices and products, namely capacitors, circuit breakers, circuit-breaker distribution panels, circuit cut-off switches, cut-outs, commutators, contactors, current rectifiers, current limiters, electric contacts, electric collectors, electric conductors, electric connectors, electric controllers, electric inductors, power supply systems, electricity distribution boards and branch boxes, electricity control consoles, electricity switching panels and boxes; computer software intended for individuals charged with troubleshooting and maintaining programmable controllers, computer software for blood vessel analysis, including cardiac vessels, also with calculation functions with regard to blood vessels, computer software for patient medical monitoring equipment, computer software for receiving, processing, transmitting and displaying data, computer software for the development of customized programs allocation of goods; computer software for use online allowing office equipment vendors to present requests, manage portfolios and communicate with a company; computer software for accessing information on mortgages and insurance, computer software used for collection of data relating to vital signs, computer software for analysis of electrical systems and electronic instruction manuals sold as sets, computer software for employees of financial institutions for determining financial investments of customers and processing the sale of said investments, computer software designed to obtain information about flooding risks for real-estate property, computer software for developing graphical user interfaces and viewing data, calculation software for mortgage payments, computer software for controlling and managing maintenance services for vehicle fleets, computer software for using and accessing commercial computer services, computer software for customers to obtain information on lease portfolios, computer software for a radiological information system for radiologists and radiology departments, computer software for managing databases containing information on employees and patients for the purposes of archiving and patient monitoring, computer software installed on and used with PCs and medical monitoring equipment for graphical user interfaces, computer software for sending encrypted and compressed data on radio-paging systems (transport), computer software providing access to Web sites where buyers and sellers can do business electronically, and computer software for underground navigation purposes, namely for steering the assembly of borehole viewers for oil drilling and borehole assemblies for guiding underground installations; electronic, nuclear, industrial and laborato-

ry, test, measurement, calculation and control instruments and apparatus, telephones; electrical goods, goods for producing and distributing electricity and protective products against overvoltage, namely lightning conductors, bus ducts; capacitors; contactors for lighting; input/output controls and devices; fuses; lighting controls; switch boxes, LEDs, namely light-emitting diodes, electricity voltage regulators, surge voltage protectors, surge absorbers, voltmeters, electric circuit boards, relays and automatic time switches, solenoids and end switches, across-the-line manual starters, pinch-off voltage starters, electric switches and isolating switches, crossovers for patch panels and pumping panels, circuit breakers and isolators, transformers, electric circuit boards and electric lighting boards, electric wires, cables, cords and leads, electric wiring and attachments, lightning conductors, electricity meters, watt meters, earth resistances, humidity and temperature sensors; industrial calibration sensors, push-button switches, control centers for engines and their electrical control systems and voltage regulators included in this class; computer software and computer programs for medical and industrial use and for research; electrophoresis apparatus; chromatography columns and pumps; apparatus for microfabrication; apparatus for bio-informatic systems; apparatus for scintillation; imaging apparatus for radioactive and luminescent emissions; integrated synthesis and purification systems; apparatus for manufacturing oligonucleotides; laser optical systems for digital imaging; glassware for laboratory use; vials and microflasks; microtitration plates; computer software for managing hospital operating theaters; computer software for managing information on intensive care; computer software for controlling industrial operations; computer software and manuals therefor sold as sets for use in managing factories; computer programs with graphic interface for controlling machines in industrial automation applications; computer software for creating graphic presentations and dynamic data print interfaces for graphic applications in real-time for commercial and industrial use; communications software for connecting computer network users; computer software for plastic injection molding; computer software for controlling, monitoring, simulating, communicating, recording and compiling data and factory automation; computer software for integrating manufacturing machine operations, process control, providing data for display, problem monitoring and production report generation; software packages for operating and programming grinders in the manufacturing industry; computer hardware for industrial process control, namely computer screens; laptop computers, Ethernet cards and cables; computer networking hardware, memory cards; microchips; microprocessors; concentrators, commutators

and computer network routers, computer accessories, visual display units and terminals; computer whiteboards; central processing units and system cards; call controllers, operator interfaces, reference interfaces and data collectors; control and manufacturing applications, namely for statistical process control, data collection, direct numerical control; document management systems; products and systems for digital signal processing, namely industrial automation controls and programmable logic controllers; adaptive control products in the form of external controllers for optimizing machine-tool rough cut and semi-rough cut performance; distributed and remote input/output equipment, input/output modules, interface modules, electric power supply units and assembly equipment; burglary and theft alarm systems; security devices, namely logic programming computers, operator control panels, electronic burglar detection systems, electronic detectors of breaking glass, electronic vibration detectors, magnetic contacts for security systems, electronic switch plates, electronic motion detectors for alarm systems, movement-sensitive electronic switchers, sirens with fixed connection, audio loudspeakers, in-car navigation systems, alarm monitoring and access control systems; fire, heat and smoke alarms and detectors; access control systems using computer cards; card readers, card encoders and encoded cards for access control systems using cards; camcorders; video devices used for object recognition; video devices used for tracking objects; video devices for reading license plates; video devices used for alarm screening; video devices used for facial recognition; video devices used for vehicle recognition; traffic-responsive video devices; video devices for controlling access doors; video devices for intrusion detection; hardware or software for processing which analyses digital video images to extract, record and report information automatically, and remote video monitoring systems for security and surveillance applications; central video monitors; video recorders; filming apparatus; closed-circuit video systems; closed-circuit video systems comprising one or more cameras and camera housings; RF, short-range, wireless transceivers; emitter-receivers for power lines; communications control equipment for operating closed-circuit cameras; communications control equipment, namely numerical keypad control devices, matrix switches, multiplexers, digital video recorders, integrated tilt panoramic zoom domes, remote video controllers, receivers, electronic alarms, triggers and management controls and video transmission devices sold separately or as parts of closed-circuit camera operating systems; personal digital assistants configured to be used by real-estate professionals; communication interface devices for PDAs; fiber-optic transmission systems, namely fiber-optic emitters,

receivers and transceivers for transmitting video, audio and data signals over fiber-optics; switches, electric; electromechanical locking devices; magnetic cards for locksmiths' goods, access control, presence monitoring, alarms and security systems; electric keys; portable electronic equipment for receiving, controlling, storing, manipulating, displaying and transmitting data and opening electronic locks; electronic access cards and their readers and encoders; magnetic access cards and their readers and encoders; smart access cards and their readers and encoders; proximity cards and their readers and encoders; key tags and their readers and encoders; barcode access cards and their readers, encoders and laminators; numerical access keypads; radio-frequency tracking sensors; control and tracking systems comprising one or more detectors, transceivers and radio-frequency tags for determining and monitoring the location and movements of personal property, stocks and persons; infra-red sensors; computer hardware and software for infrastructure management and infrastructure access system control and components thereof, namely control boards, access card readers and equipment and video imaging and video surveillance systems, digital hard disk recording systems, network transmission and remote access systems; networked digital video storage servers, applications for surveillance and access control, alarm monitoring and security, computer software and hardware for controlling and operating access and security systems comprising lockingsystems, door systems and access and identification devices; security boxes in the form of boxes for keeping keys; surveillance equipment sold separately or as parts or as a set as a system comprising one or more surveillance cameras, hidden cameras, closed-circuit television cameras, camera housings, camera supports, camera lenses, video monitors, video recording machines, digital recorders, video recording carriers, video switches, control panels, numerical keypad control devices, joystick controls, interface apparatus for alarms and access control equipment, transceivers, receivers, emitters, signal processors, multiplexers, matrix switches, controls, control panel housings, switch boxes, transformers, commutators, distributors, coaxial cables, connectors, motion sensors, microphones and loudspeakers; user interface software and control software for managing access, security and fire extinguishing systems; locks, electric; portable electronic computer and communication equipment for receiving, controlling, storing, manipulating, displaying and transmitting data for operating electronic locking devices; electronic key tags, readers and encoders; computer software and hardware for data processing; electric power supplies, namely batteries, current/voltage rectifiers/regulators and transformers; control panels, namely electronic apparatus designed to monitor a predeter-

mined activity electronically and activate a theft alarm; siren loudspeakers; drivers of electronic sirens, namely tone generators and amplifiers for sirens; communication equipment control software for operating and controlling closed-circuit cameras; switching devices incorporating magnetically actuated reed switches for theft alarm and fire alarm systems, in industrial tracking apparatus, revolution counters, equipment cupboard security locking systems, industrial apparatus for position monitoring, electric cables and valve and pump control apparatus and domestic security alarm systems; electric and electronic checking apparatus for detecting the presence of certain substances on persons, in luggage and cargo; electric and electronic checking apparatus for detecting the presence of explosives and/or drugs on persons, in luggage and cargo; apparatus for detecting the presence of explosives and other contraband goods; automatic time switches or apparatus sensitive to changes in conditions for launching and monitoring regeneration of washing cycles for water treatment installations; control valves for water treatment and filtering equipment; bioreactors for the culture of cells; portable analysis instruments, namely a probe with a recorder for converting microprocessor data for measuring organic and inorganic products in water; filters and housings of filters for use in laboratories; liquid separation apparatus for use in laboratories; membrane filters for use in laboratories; silt density measurement devices; deionization devices for use in laboratories, filters and casings of filters for use in laboratories; membranes for use in laboratories; liquid flow rate control devices, namely pumps, valves, flow meters and regulators for use in laboratories; ozone monitoring instruments; laboratory equipment, namely porous titration microplates for use in cell biology and other life science applications; electronic process and water treatment controls, namely apparatus for the treatment of industrial and commercial water supply systems, boiler water systems, cooling water systems, cooling water circuits and closed water supply systems, paper and pulp treatment systems, fuel processing systems and systems for processing metals to analyze system chemistry, determine the correct treatment program, apply the desired treatment and monitor the effectiveness of the treatment; data management software in the field of paper, pulp and water treatment; electronic controls for processing information in the field of paper, pulp and water treatment; apparatus for industrial water supply systems for measuring and monitoring pH values and conductivity; apparatus for supplying chemicals in measured quantities to industrial, commercial or municipal water supply systems; electronic test apparatus for water treatment; laboratory test equipment, namely testing apparatus for deposit rate and corrosion speed; mobile laborato-

ries fitted with equipment and instruments for measuring and monitoring pH values, conductivity and chromate concentrations in domestic and industrial water, for performing inorganic analyses and microbiological tests on water; electronic and electrochemical products, namely fuel cells; apparatus for converting photo-electric radiation into electricity, namely photovoltaic solar modules, photovoltaic hybrid solar modules, electronic sensors for measuring solar radiation, solar batteries; apparatus for converting electronic radiation into electrical energy, namely photovoltaic solar modules, systems and components and all related system components; printers, laser printers, inkjet printers, multifunction and multipurpose printers, parts of all of the above products; portable electronic devices for the wireless reception and/or transmission of data, allowing users to store or manage personal information and allowing the transmission or reception of voice, video and image communications; computer software for synchronizing data between a remote unit and a fixed unit, and computer software allowing simplex and/or duplex wireless connections for data; portable digital electronic devices and related software; portable electronic devices for the wireless reception and/or transmission of data; computer software for redirecting messages, electronic mail and/or other data from a personal computer or a computer server to one or more portable electronic devices; computer software and computer programs for managing and operating wireless devices; telecommunication devices; computer software for accessing, searching, indexing and retrieving information and data from global computer networks and global communication networks and for browsing Web sites on the aforesaid networks; computer software for sending and receiving short messages and electronic mail and for filtering non-text information from data; portable electronic devices for voice, video, data and image communications; computer-gaming software for use with mobile telephone handsets; electronic games software for use with mobile telephone handsets; software, packaged software; batteries, dry cell batteries, rechargeable batteries, battery chargers, storage batteries, solar batteries, fuel cells; carbon, carbon electrodes for dry batteries, carbon rods for welding; wiring apparatus, electric connectors, electric cables, electric conduits, floor ducts specially designed to receive electric cables, ballast (for discharge lamps), under-carpet wiring systems, lighting code switches, circuit breakers, magnetic contactors and starter switches, circuit protectors, switching devices, electric junction boxes, electric switches for devices, electric sockets, electric plugs, insulating materials, electric timers, other wiring and cabling devices; signaling apparatus and instruments, video intercoms, intercom systems, electric door chimes,

intercoms, fire alarms, gas leak alarms, anti-theft alarm devices, portable emergency intercoms; acoustic machines and apparatus, radios, tape players/recorders, radio cassette recorders, portable tape players, compact disk players/recorders, mini-disk players/recorders, consoles for minidisks, audio DVD players/recorders (digital versatile disks), secure digital players/recorders, secure digital maps, loudspeakers, tuners, amplifiers, stereo component systems, disk drives, graphic equalizers, radio alarm clocks, integrated circuit recorders, digital sound processing devices, headphones, headsets, microphones, cassette players/recorders, computer software for compact disks (pre-recorded), electric megaphones, language laboratories, audio systems for motor cars, public address systems, mixing consoles, cleaning products for audio equipment, audio cables, video cables, other acoustic machines; audiovisual machines and apparatus, television receivers, cathode ray tube display monitors, cathode ray tubes, image camera tubes, plasma television receivers, plasma displays, television receivers (liquid crystal displays), liquid crystal displays, television receivers combined with video tape players/recorders, television receivers combined with disk players, antennas, tuners for satellite distribution, tuners for television, Internet terminals, video projectors, video cassette recorders, camescopes, video cameras, video printing apparatus, laser disk players, vcd players, computer software for CDs (video CDs, video players/recorders for DVDs (digital versatile disks), color video systems for large-scale display, cable television systems, computer hard disk drives, video-imagers, electrical optical display boards, multi-use electrical display systems, closed circuit video equipment systems, computer software for DVDs (digital versatile disks), television cameras, video switches, non-linear editing systems, editing controllers, DVD creation systems (digital versatile disks), light-emitting diode displays, other audiovisual machines; optical disk machines and apparatus; optical disk drives, optical disk recorders, optical disk players, optical disk changers, optical disk cartridges, optical disk recording systems; communication machines and apparatus, transmitters and receivers of facsimile messages, transceivers, telephones, mobile/cell phones, cases for mobile/cell phones, telephone answering machines, private automatic exchange systems, global positioning system receivers, radio telephones, marine radars, radio paging receivers, mobile communications systems, multi-channel access radio systems, electric traffic information signs, video conferencing systems, systems for private mobile telephones, local network systems, codecs (coders/decoders) AV, car navigation systems (road guidance systems), electronic systems for collection of road tolls, GPS-antennas (global positioning systems); surveillance apparatus

and instruments (monitoring), electrical devices for opening doors, communication and surveillance systems for apartment buildings, intrusion detection systems, automated systems for surveillance and function control in buildings, electrical multilayer security apparatus; automatic control machines and instruments, electrical distribution panels, control apparatus for road signs, bus stop systems, ultrasound vehicle detectors, information and telecommunications networks for road traffic management, light dimmers, pilot light switches, inverters, programmable control systems, transformers, cabinets, domestic electricity generating systems, power capacitors; data processing apparatus; computers and computer peripheral equipment, text-processing equipment, computer software (recorded), image scanners for personal computers, printers, PC-cards (personal computers), computer keyboards, computer mice (data processing equipment), CD-ROM drives (read-only-memory compact disks), floppy disk drives, card read/write systems, barcode readers, time recorders, portable data terminals, point-of-sale systems, data collection terminals, personal digital assistants, DVD-RAM/ROM drives (digital versatile disks random access memory/read-only memory), CAD/CAM (computer-aided design/computer-aided manufacturing) systems, computer hard disk drives, electronic calculators, computer software, uninterrupted power supplies for computers/communication/broadcasting; external storage media, video cassettes, cleaning heads, D-VHS (video systems for the home), other peripherals for computers; video tapes, audio cassettes, diskettes, optical disks, minidisks, DVDs (digital versatile disks), memory cards with integrated circuits; weighing and measuring apparatus and instruments, thermoluminescent dosimetry systems, portable X-ray dosimeters, electronic meters, ammeters, electricity consumption meters, locking gauges, electrical leakage gauges, electrical insulation meters, thermometers, measurement system processors, electric multicircuit-type mains voltage monitors, micrometer gauges, body fat monitors, pedometers, audio/video analyzers, oscilloscopes, modulators, voltmeters, distortion meters, other apparatus for measuring; sensors, photosensitive sensors, thermometric sensors, position sensors, angular rate sensors, rotation sensors, angle sensors, dew point sensors, other sensors; electric components, light-emitting diodes, liquid crystals, liquid crystal display modules, magnetrons, diodes, transistors, thermostats, integrated circuits, semiconductor memory (devices), single-chip microcomputers, cartridges for electrical capacitor microphones, half-tone image processors, thermal printing heads, magnetic heads, permanent magnets, connectors, relays, display components, semi-conductor lasers, charge-coupled devices (CCDs), image detectors, film condensers, oxygen enrichment membrane units, elec-

tric tuner units, high-frequency units, parts validation units, ticket validation units, magnetic card read/write devices, voltage-controlled oscillators, phased-locked loop synthesizer modules, wireless communication modules and/or units, optical transmission components, printed wiring boards, components for loud-speakers, electricity supply, AC adapters (alternating current), focusing magnets, inductors (coils), capacitors for electrical apparatus, electrical signal filters, transformers, deflecting yokes, thermistors, varistors, piezoelectric ceramic components, acousto-optic devices, resistors, potentiometers, encoders, printing units, hybrid integrated circuits, switching components, heat-sealable wiring boards, transparent keyboards, electro luminescence elements, remote control units, magnetic resistance elements, thermal disconnectors, other electrical household utensils, electric flat irons, electric hair rollers, electrical hair irons; electric arc welding apparatus, welding electrodes; electric timers; data processing equipment, in particular for financial applications, operating systems programs; computer hardware and software, in particular for the development, maintenance and operation of local-area and wide-area computer networks; systems for reading smart cards and systems for reading stored data including integrated circuit memory units and bank card memory units; automated banking machines; accounting machines; coded cards, including magnetic cards and integrated circuit cards (smart cards), in particular for financial applications; card readers, printing apparatus, including printing apparatus for data processing systems and financial transaction systems; machines for banking establishments; encoders and decoders; modems; encoded magnetic cards, cards carrying electronic data, coded magnetic card readers, card readers carrying electronic data, electronic systems for encryption, computer hardware, computer terminals, computer software used in financial services, the banking and telecommunication industries; electric and electronic goods, namely calculating machines, pocket agendas, alarms and flashlights; bank cards, including printed bank cards and bank cards incorporating magnetic memory and integrated circuit memory; bank cards, credit cards, debit cards, including such cards fitted with integrated circuits and microprocessors; memory boards; automated teller machines; data processing equipment and computers incorporating cards fitted with microprocessors and integrated circuits; computer equipment in the form of integrated circuit cards and card readers incorporating transponders and other contactless payment devices; mouse pads; machines and electricity; induction devices, electricity regulation devices; electricity measuring instruments, electric protection devices, switching panels, apparatus for switching panels, wiring and cabling devices and consumables; devices for con-

trolling liquids, namely flow meters, pressure switches, sequential time switches, commutators and electrical controls; electric devices for killing insects; audio amplifiers for keyboards; external memories for musical instruments; hair-curlers, electrically heated; electrical hair irons; hair curlers, electric; data management systems and systems for storing anesthesia archives.

11 – Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; solar panels, solar energy collection panels; solar lighting accessories, namely interior and exterior solar lighting fixtures and lighting units; solar thermal installations, namely solar thermal modules; solar water heaters; gas and electric household cooking appliances, namely cooking rings, electric and gas stoves; gas and electric ovens and table ranges; heat exchangers, not parts of machines; thick-walled chemical reactors and nuclear reactors and fittings and components thereof, namely heat pumps, valves and fittings for steam circuits and valves regulating the flow rate of gases and liquids; electric lamps of all kinds and components thereof; electric lighting accessories and components thereof; freezers, air conditioning apparatus, electric ovens, cookers, electric refrigerators; microwave ovens for cooking; wall-mounted cooking ovens for domestic use; drawers for reheating foods; convection ovens; gas and electric table ranges; gas and electric cooking ovens and cookers; ventilation hoods for cookers and exhaust fans; water filters; water softening apparatus and installations; drying apparatus for washing; electric fans, ceiling fans, flashlights; lamps and lights for vehicles; electric lights for Christmas trees; separation devices for liquids; devices for concentrating liquids; recycling devices for liquids; filters for filtering solids from gases and liquids or filtering liquids from gases and for filtering one immiscible liquid from another; spiral elements or cartridges held in a tubular plastic sleeve for concentrating products and removing impurities in systems for treating liquids; water-conditioning devices for residential use; inverse osmosis modules and membranes therefor; water purification systems and devices consisting of clarifiers, electric deionization systems, condensate polishing filters, vacuum degassing devices, ultrafiltration devices, ultraviolet sterilization devices, ion exchange units, systems for regenerating acids and caustic products, reverse osmosis systems, forced-air decarbonation devices, filters, chemical feed systems and storage devices for bulk goods, sold with automatic controllers and instruments for monitoring operating parameters of devices and systems, electrochemical purification devices for liquids for industrial, commercial and municipal purposes; water filtering devices for domestic, industrial and commercial purposes; wastewater purification

units; drinking water purification units for domestic, industrial and commercial purposes; devices for separating liquids, namely industrial liquid filters; recycling devices, namely liquid purification devices; water treatment equipment, namely cartridges; water treatment equipment for domestic purposes, namely water softeners and water conditioners; media filters and depth filters for eliminating deposits, iron, sulphur, tastes and odors from water; water purification devices using reverse osmosis; depth filter units and cartridges for filtering liquids and air for domestic, industrial and commercial purposes; disposable cartridge filters for filtering industrial water; lighting apparatus and installations, incandescent lamps, gas discharge starters, screwed fluorescent lamps, fluorescent lamps, tungsten halogen lamps, electric pocket torches, fluorescent lanterns, other lamps, fluorescent lighting apparatus, dynamo lighting kits for bicycles, germicidal lamps, other lighting apparatus; cooking apparatus and installations, automatic machines for making bread for domestic purposes, electric kettles, electric rice cookers, gas rice cookers, slow cookers, electric grills, ovens for cooking, toasters, coffee pots, cookers, electric thermos coffee pots, gas cookers, induction cooktops, electric barbecue grills, microwave ovens, gas cookers equipped with oven, electric saucepans, sink basins, other kitchen ranges; cooling and freezing apparatus and devices, refrigerators, freezers, hot/cold water dispensers, deep-freeze and refrigerated display cases, electric water coolers, apparatus for making ice; ventilation apparatus and instruments, electric fans, fans, electric air purifiers, extraction hoods for cookers, electric dehumidifiers, electric humidifiers, blowers, blinds propelled by cold air; air exhaust units, ceiling fans, ceiling louvers, electrostatic precipitators, parts and components thereof, all included in this class; other ventilation installations and apparatus; heating apparatus and installations, steam generating, drying, cooling and air-conditioning apparatus, air conditioning apparatus bladed fan apparatus for air conditioning, apparatus for air freshening by evaporation, stoves, electric radiators, electric blankets, electric floor mats, kerosene-burning heaters, electric feet warmers (kotatsu), wireless gas heaters, other heating/cooling and air-conditioning units; water distribution apparatus; sanitary installations, electric bidets, toilets, toilet seats with hygienic cleaning function, portable toilets, wastewater treatment systems using aeration, water purifying units, incinerators (waste burners), household waste processors, saunas, bathtubs, bath installations, electric showers; water heaters, gas instantaneous water heaters, other water heaters; drying apparatus, dish drying devices, electric hair driers, laundry driers, other drying apparatus; electric lamps; electric dryers; electrical resistance heating cables; metal kitchen sinks.

12 – Vehicles; apparatus for locomotion by land, air or water; diesel and electric motors for land vehicles; bicycles, tires and tubular tires for bicycles, automatic vehicles, electric bicycles; pneumatic tires.

14 – Precious metals and their alloys and goods made of or coated with these materials not included in other classes, especially commemorative coins and medals; jewelry, precious stones; lapel pins; horological and chronometric instruments; key rings.

32 – Beer; mineral and aerated waters and other non-alcoholic drinks; fruit drinks and fruit juices; syrups and other preparations for making beverages.

35 – Advertising; dissemination of advertisements by any media, especially in the form of topic-based messages centred on human values; advertising by means of sponsoring; business management; business administration; office functions; promotion of the goods and services of others, through contractual agreements, especially through partnership (sponsoring) and licenses, offering them greater exposure and/or image strength and/or a surge of sympathy derived from that greater exposure and/or that image strength of cultural and sports events, especially international ones, and/or the surge of sympathy derived therefrom; promotion of the goods and services of others by means of what is referred to as the initial interest factor driving the public to consider, from among many competitors, goods or services that are presented to them with personal signs, emblems or messages to capture their attention; promotion of the goods and services of others by the means referred to as image transfer; rental of advertising space of all kinds and on any media, in digital or other form; business administration of the participation of national teams to an international athletic competition and promotion of support to said teams aimed at the public and interested sectors; services relating to inventory management; consulting in stock control services; advertising by means of direct marketing for others consisting of marketing databases; consulting in marketing by direct marketing for others consisting of marketing databases; advisory services in business reorganization; management services for truck and automobile fleets, namely invoicing and preparing travel reports via a global computer network; advice on management services for truck and automobile fleets; advisory services with regard to business administration; management of power stations for others; consulting in matters of management of power stations and commercial services, namely agency of contracts for repair and servicing, supply chain management services and advisory services on purchasing and supply in chemical services and products, management of supply and

inventory of goods, cost containment; consulting, marketing, cost and price analyses for electrochemical liquid purification devices for industrial purposes; administrative, commercial and technical management of computer files; data input and processing services; computer management consultancy; management of computer servers and value-added data transmission networks (multimedia, interactive videography, global computer telecommunication network systems); retail sales services relating to electric and electronic machines and apparatus (gathering for others, of a series of goods enabling customers to conveniently view and purchase those goods in a store for the retail sale of electrical goods), information concerning the sale of raw materials, business information, commercial information agencies, photocopying machine rental services; sales promotion for goods and services for others including via advertisements, promotional contests, discounts and bonuses in the form of promotional lotteries, discounts, reduction points, and value-added offers made in connection with the use of payment cards; promotion of sports competitions and events for the use of others; promotion of cultural concerts and events of others, organization of exhibitions for commercial or advertising purposes; providing documentation, namely direct mailing, direct mail advertising, distribution of samples, document reproduction; advertisements about commercial sales promotion of goods and services at retail sales level; provision of information in connection with e-commerce and electronic retail selling; providing information in connection with the purchase of goods and services online via the Internet and other computer networks; services for tourist documentation, with the exception of all services linked to the entry in a passport or similar document indicating that said document is in order and that the holder is allowed to travel in the country of the government that issued it, or to cross that country, namely advertising of transportation services, travel, hotels, accommodation, foods and meals, sports, entertainment and sightseeing tours, services tourist offices; maintenance of computerized databases.

36 – Insurance underwriting; banking; banking; banking; real estate affairs, credit card services; financing sporting and cultural activities; rental of property and accessory buildings prepared to receive corporate entertainment events; financing services by means of own funds and private brands; financial analysis and consultation; financial services of credit cards; credit card services, namely extension of credit to others; financial management of assets for others; insurance and reinsurance services, namely underwriting services of all types of insurance; equity capital investment; insurance underwriting services in the field of bonds; underwriting services for financial guarantees; financing for

personal loans; mortgage banking services; acquisition financing services; commercial financing services; commercial real estate agency services; mutual funds; investments in private funds and debts; information, advisory and assistance services in all the above fields, hire-purchase financing and rental of mobile and modular buildings, insurance brokerage services, credit agency services with respect to commercial and consumer credit, financing services for home loans and banking and financial services; monetary operations especially using bank cards or loyalty store cards; clearing, financial; issuing of checks and letters of credit; financial services; insurance; financial operations; bill payment services; debit card services; payment card services; prepaid card services; electronic transactions by means of credit and debit card; electronic funds transfer; providing smart and e-money cards; services for providing cash; credit and payment cards as substitutes for cash; electronic capital transfer; check [cheque] verification; check cashing services; providing access to cash dispensers and to deposit systems; payment processing services; transaction authentication and verification services; provision of financial information through a global computer network; sponsorship of festivals and concerts; financial services for the purchase of goods and services sold retail at points-of-sale for promotional purposes; providing information in the field of tourism, namely financial information; financial services for assistance to tourists; hire-purchase financing for telephone apparatus, facsimile machines and other telecommunications equipment; leasing of transport containers.

37 – Construction; repair; installation services; replacement, overhaul and maintenance of power stations, motors, turbines, wind turbines and apparatus, equipment and instruments for the generation of energy and of electricity and components thereof, components parts and ancillary equipment; installation, servicing and repair services for compressors and pumps, namely machines, expansion turbines, fuel pumps and fuel distribution equipment, compressed natural gas (CNG) supply equipment, gas turbines, steam turbines, air-cooled heat exchangers, steam condensers, thick-walled reactors and tubular reactors; maintenance and repair services of oil and gas pipelines; drilling and pumping of petroleum and gas; drilling for raw petroleum; installation of petroleum drilling rig pipes and pipelines; rental of tools for gas and petroleum drilling rigs; remote monitoring, diagnostics, repair and maintenance services for the repair and maintenance of airplane engines, turbines, electrical equipment, medical equipment, locomotives, including parts and accessories for all the above goods; rental of construction equipment; chemical cleaning services for glass-coated reactor vessels used in the chemical treatment and pharmaceutical industries;

maintenance services for heat transfer and condenser systems; services for the repair and maintenance of computerized cooling system equipment, machine repair and maintenance services, electrical instruments, apparatus and equipment; maintenance and repair services in the oil and gas sectors; services in connection with the installation of point-of-sale terminals at retailers; computer maintenance services; electric appliance installation and repair, repair of radio and television receivers, repair and maintenance of electrical communication apparatus and instruments, repair and maintenance of electrical household appliances, repair and maintenance of electric lighting apparatus, repair and maintenance of electrical distribution and control apparatus, repair and maintenance of electric motors, repair and maintenance of measuring and/or testing machines and instruments, repair and maintenance of medical apparatus and instruments, repair and maintenance of machines and tools for shaping metals, repair and maintenance of cooking apparatus, repair and maintenance of vending machines, repair and maintenance of water purification apparatus, repair and maintenance of musical instruments, repair and maintenance of watches and clocks, repair and maintenance of gas water heaters for domestic purposes, repair and maintenance of bathtubs, repair of toilets equipped with water points, installation, maintenance and repair of computer hardware, repair and maintenance of air-conditioning apparatus, installation, maintenance and repair of office machinery and equipment, installation, maintenance and repair of machinery, vehicle repair, repair and maintenance of electrical communication apparatus and instruments, repair and maintenance of computers, repair and maintenance of electronic printers, telephone repair, electrical work, telecommunications equipment; installation, servicing and repair services for compressors, pumps, namely machines, expansion turbines, fuel pumps and fuel distribution equipment, compressed natural gas (CNG) supply equipment, gas turbines, steam turbines, air-cooled heat exchangers, steam condensers, thick-walled reactors and tubular reactors; maintenance and repair services for oil and gas wells.

38 – Telecommunications; broadcasting of television programs, television broadcasts (live or recorded); cellular telephone communication; communications via electronic computer terminals, databases and telecommunication networks connected to the Internet; communications by telex; communications by telegrams; communications via telephones; communications via fax machines; radio-paging; communications by teleconferencing; television broadcasting; cable television broadcasting; radio broadcasting; news agencies; other message transmission services; dissemination of a commercial site on the Internet; radio and television broadcasting services

provided by means of the Internet; electronic mail; providing access to computer newsletters and on-line chatrooms; transmission of messages and images by computer; providing access to services of ordering and purchase from home and office by computer and/or interactive communications technologies; telecommunication of information (including Web pages), computer programs and all other data; electronic messaging; provision of access to the Internet for users; services providing telecommunication connections to the Internet or to databases; providing access to digital music Web sites on the Internet; to Web MP3 sites on the Internet; rental of access time to a central database (telecommunications); providing access to search engines; running chatrooms on the Internet; rental of access time to a central database server; rental of access time to a computer database (telecommunication services); simulcast broadcasting, especially via electronic interconnections, of films and video recordings and sounds; wireless data messaging services, in particular services allowing the user to send and/or receive messages over a wireless data network; messaging services simplex and duplex; electronic transmission of data, images, audio and video documents and data, including texts, cards, letters, messages, mail, animations and electronic mail, via local or global communication networks, including the Internet, intranets, extranets, television, mobile communications networks, cellular networks and satellite networks; electronic transmission of computer software over local and global communications networks, including the Internet, intranets, extranets, television, mobile communications networks, cellular networks and satellite networks; providing access to databases and to local or global communication networks, including the Internet, intranets, extranets, television, mobile communication, cellular and satellite networks; services for transmitting/relaying messages, namely electronic message transmission; telecommunication services for dissemination of information via mobile telephone, namely, transmission of data to mobile telephones; communication services via mobile telephone; transmission and reception of voice communication services; transmission and reception services via value added network; telecommunication services via data communications and via multimedia networks; rental of access time to a database server center.

41 – Teaching; providing of training; entertainment; sporting and cultural activities, televised cultural and sporting entertainment; organization of exhibitions for cultural or educational purposes; operating lotteries and competitions; betting and gaming services linked to, or in connection with, sport; entertainment services provided at sports events or concerning sports events; organization of sporting and cultural activities and events; organi-

zing real or virtual sports competitions; operating sports facilities; audio and video equipment rental services; production, presentation and distribution of films and video and audio recordings; rental of films and video and audio recordings; presentation, rental and/or provision by means of a computer network of interactive educational and entertainment goods, namely CDIs, CD-ROMs, computer games; coverage of radio broadcast and televised sports events; production services for radio and television programs and videotapes; production of cartoons; production of animated shows for television; ticket reservation services for shows and sports events; timing of sports events; arranging of beauty contests; interactive entertainment; online betting services; providing games on the Internet; providing raffle services; information on entertainment or education, provided online from a data bank or from the Internet; electronic games services provided by means of the Internet; providing electronic publications online; publication of books, magazines and texts (other than advertising texts) and periodicals; publication of books, magazines and texts (other than advertising texts) and electronic magazines online; provision of digital music from the Internet; providing digital music from Internet MP3 Web sites; providing sports results; information services in connection with sport and sports events; rental of recorded sounds and images; audio production services; information services relating to sports events provided online from a computer database or from the Internet; editing and publishing services; providing digital music (non-downloadable); offering digital music via telecommunications; statistical information services in connection with sports results and as regards audience rating at sports competitions; providing of training in the operation and functioning of signaling and crossing notification systems for transit industries and railways; educational services in medical imaging and diagnostics, namely running seminars, conferences, symposiums or workshops related to the pharmaceutical industry, for physicians and employees of pharmaceutical companies; educational services, namely running seminars, conferences, symposiums or workshops in the field of life sciences and biotechnology for scientists and researchers; running seminars on problems of industrial water treatment; training services in all the above fields; services providing training in management and medical matters through the use of instructions and demonstrations provided online, via the Internet, intranets and extranets; educational services, namely conducting practical training workshops, classes and seminars comprising demonstrations in the medical and management field; design, production and holding of classes, seminars and all training activities in the field of computing; concert planning and production; reservation of seats for

shows; cinema presentations; entertainment information; film production; production of shows; theatrical productions; services for operating golf courses; health club services; sport camp services; presentation of live performances; film performances; organization of shows (impresario services); holiday camp services (entertainment); movie studios; news reporters services; provision of online electronic publications (not downloadable); music hall services; educational services, namely conducting of lessons, seminars, presentations, video presentations, providing educational material, namely distribution of materials in the field of financial knowledge; educational services in the field of tourism; information services in the field of tourism, namely information services on reservation of tickets for entertainment events; information services in the field of tourism, namely information in the field of entertainment; information services in the field of tourism, namely information services on schedules for sporting, cultural and entertainment activities; services relating to entertainment for assistance to tourists; tourist reservation services, namely reservation services for activities and entertainment; assistance services to tourists regarding the booking of tickets for entertainment events; assistance services to tourists regarding schedules of sporting, cultural and entertainment activities.

42 – Scientific and technological services and research and design relating thereto; industrial analysis and research services; carrying out laboratory analyses; design and development of computers and software; services linked to wind and wind energy, namely professional advisory services and engineering services; design for others regarding wind energy; industrial design services; design of equipment and installations for producing energy, wind energy and electricity; engineering services, technical consulting and research for the gas and petroleum industries; petroleum and gas exploration services; geophysical survey services for the petroleum and gas industries; analysis of oil and gas fields; oil and gas prospecting, namely well locating and testing; oil and gas well testing; inspection of oil and gas pipelines; diagnostic and remote monitoring services for compressors, pumps, turbo-expanders, gasoline pumps and fuel distribution equipment, compressed natural gas (CNG) replenishment equipment, gas turbines, steam turbines, air-cooled heat exchangers, vapour condensers, thick-walled reactors and tubular reactors; providing information technology solutions in the field of transit and railway industries worldwide; research, consulting and support services in connection with engineering, design and development problems encountered by governments, individuals and industrial and commercial companies and public utilities; computer programming services for others; computer software analysis and design services for
