 proximity to an opening in a vessel or inserted into an
 opening in a vessel, and to measure distances from a
 scanner emitter/sensor 40 within the scanner assembly
 10 to a plurality of points on the surface of the
 refractory lining to characterize the concave interior
 of the vessel in a single scan. A scanner manipulator
 having a manipulator arm attached to the scanner
 assembly maintains the scanner assembly in mea-
 surement positions. A control system controls the
 position of the scanner assembly, the orientation of
 the emitter sensor, and the acquisition, storage,
 processing and presentation of measurements pro-
 duced by the emitter/sensor. The field of view
 obtained from the scanner assembly 10 in a single
 scan exceeds a hemisphere.

ANTIBIOTICS
(57) Present invention relates to monobactam
compounds of Formula I:

and pharmaceutically acceptable salt thereof. The present invention also relates to pharmaceutical composi-

tions comprising a monobactam compound of structural formula I or a pharmaceutically acceptable salt thereof. The invention further relates to the compounds of formula (I) for use in methods for treating a bacterial infection, either alone or in combination with a therapeutically effective amount of a second beta-lactam antibiotic. The present invention discloses the synthesis and characterisation of exemplary compounds as well as biological assays thereof. An exemplary compound is e.g. (S)-2-((((Z)-1-(2-aminothiazol-4-yl)-2-(((S)-2,2-dimethyl-4-oxo-1-(sulfooxy)azetidin-3-yl)amino)-2-oxoethylidene)amino)oxy)-2-((R)-6-(N-((S)-pyrrolidin-3-yl) carbamimidoyl)chroman-2-yl)propanoic acid (example 7; compound 1).

process and pharmaceutical compositions thereof. The
invention also relates to the process for the isolation by
crystallization of the compound (I). The invention also
relates to a crystal form of a compound of formula (I).

puter-aided billing (within the scope of cashless payment transactions) and computer-based invoicing for fuel, ferry fees, motorway fees, toll fees and/or valueadded tax; customer invoicing, for others; accident services, namely procurement of contracts for others for replacement vehicles and tow vehicles as well as towing services; price comparison services, in particular provision of information relating to the price of fuels at home and abroad; business management; business administration; business consulting; office functions; accounting services; auditing; consulting [personnel management consulting] in organizational as well as personnel matters for third parties; marketing [sales research]; market research; opinion polling; public relations; personnel and job placement; personnel recruitment; preparation of cost-price analyses; consulting on the organization and management of companies; consulting on management issues; procurement services for third parties [acquisition of goods and services], in particular procurement of materials, supplies; systematization and compilation of data in computer databases; business consulting and processing in the field of software supported services in the area of billing services, namely business consulting in the preparation of billing statements [office functions] based primarily on software programs developed with customers; submission of refund requests via electric portals of individual customer financial authorities [office functions]; management, processing and dispatch of reminders [office functions]; monitoring and posting of refund amounts [office functions]; advertising; recording of personal and vehicle-related data (office functions); office functions, namely computer-based compilation and evaluation of vehicle master data, of tank data, of invoices, of motor vehicle costs and revenues, and the statistical analysis thereof; business statistical evaluation in relation to GEO positions of vehicles as compared to geo-positions of the maps used; office functions, namely computer-based order planning including systematically updating data in computer databases for planning the availability of motor vehicles and orders both in terms of organization and business planning; address administration; vehicle fleet management, namely fleet control and fleet management of cars and trucks, namely administrative fleet management including filing of documents [except insurance documents]; arranging of contracts for third parties on the purchase and sale of goods, namely tires; consumer information, namely providing information and advice for consumers in matters of cashless en-route supply of services in the field of goods and passenger transport; office functions, namely compilation of information to send automated reports; compilation of business information; advertising in the field of toll collection and transport infrastructure; advertising, including advertising with brochures for promotional purposes; information in business matters, especially provided online via a hotline; conducting, organizing, preparing business re-

ports in the field of national and international commercial road transport of goods and passengers, namely preparing and evaluating reports and statistics on the localization of vehicles in real time and data on vehicle use and driving behavior [including driving time, speed, accelerations]; arranging contracts for third parties for the provision of replacement vehicles; management and monitoring of incentive schemes; organization and management of customer loyalty schemes including for commercial, promotional and advertising purposes; evaluation of companies (filling stations); benchmarking services; compilation of different filling station services and fuel offers, for others, to facilitate the comparison and purchase of these services; data entry and data processing (collection, systemization, updating and maintenance of data) in computer databases (office functions); management of telephone callcenters for third parties for the execution of contracts for the rental of cars and trucks; all the aforementioned services rendered by means of a global or local computer network and/ or by means of the Internet; payroll advisory services; business consulting services related to the establishment of wage, salary and salary classification structures, declaration of compliance with the minimum wage in certain EU countries, assistance and advice on the submission of documents to public authorities in accordance with EU directives; administrative services for companies, such as ticket management and in relation to remote control of charging stations, also via helpdesks; administrative processing of commercial transactions with regard to ad-hoc charging; management and compilation of contact data for mobile applications in computer databases, customer portals and interfaces in order to use connected services; performance of data analyses/interpretations, customer analyses and behavior predictions for business purposes; billing of mobile transactions [office functions]; commercial and business advisory services related to electricity trading, namely in relation to electricity purchasing pools, marketing advice and/or energy purchase management, load profile optimization; price search for comparison purposes; electricity customer acquisition through mail order advertising; collection and processing of collected telematics data [office functions]; logistics management in the areas of transport and dispatch services, namely related administrative services; office work in the form of maintenance of supplier data/prices [tariff management]; negotiating and execution of contracts for third parties with credit card and prepaid credit card issuers or credit card and prepaid credit card providers; retail services with batteries, hydrogen and alternative motor vehicle drives; price comparison services relating to prices for fuels at home and abroad; services in the field of the cashless en-route supplying services for nationally and internationally active industrial goods and passenger transport businesses, of commercial vehicle fleets of passenger vehicles and/or lorries, and in the transport sector, namely pre-

paration and balancing of invoices (billing) (within the scope of cashless payment transactions) based mainly on software programs developed in a customer-oriented way, computer-aided billing (within the scope of cashless payment transactions) and invoicing for fuel, ferry fees, motorway fees, toll fees and/or value-added tax; procurement of mobile telephony services; procurement of contracts for mobile telephony services for third parties; telephone advice via a call center on the execution of contracts for the rental of cars and trucks.

36 – Financial services; factoring; debt collection services, in particular the collection of outstanding debts [debt collection operations] and the management of debts [asset management], in particular research, investigation on pecuniary circumstances for the classification of debts and debt risks and the monitoring of payment terms; financial processing of VAT refund payments within the framework of invoicing, refunds and deferral of payments; processing of credit financing [financial services] within the framework of invoicing via banks and other credit institutions, including bank consortia as borrowers; electronic processing of mineral oil tax refund payments in various countries, in particular in the EU area; processing of energy tax refund payments; financial consulting in the area of real estate and finance, except insurance; issue of service cards with payment function to industrial freight and passenger transport businesses for the cashless enroute supplying services relating to automobiles, heavy trucks, buses and their drivers; computer-based settlement of finance transactions including in relation to service cards having a payment and a legitimization function; electronic payment processing of foreign value-added mineral oil tax refunds and refund of energy taxes; conducting cashless payment transactions in the field of payment of road toll fees and other road fees; handling electronic payment transactions; service card services for payment processing, in particular in relation to toll plazas; freight forwarding, namely customs clearance [financial services] for others; border clearance and ferry-boat services, namely brokerage of access rights to toll roads and tunnels (customs clearance for others); collecting utilization fees by issuing vignettes; issue of vignettes; preparation of financial damage reports; issuing tokens of value, namely for the purposes of emissions reduction and monitoring [so-called green services]; services in connection with prepaid credit cards for electronic payment transactions, namely services for the prepaid recharging of credit cards of third-party credit card providers and the company's own credit cards as part of security services, e.g. in the event of breakdowns for truck drivers to pay for repairs on site; issuance of credit cards and prepaid credit cards and electronic payment processing; electronic capital transfer by means of on-board computers in vehicles; execution of financial transactions, namely recording,

processing and settlement of mobile transactions for mineral oil companies and end customers.

37 – Services of a motor vehicle repair workshop; service station services and the sales and services areas relating thereto, namely cleaning of motor vehicles, repair of motor vehicles; breakdown assistance, namely repair of motor vehicles on site and at motor vehicle repair shops; maintenance of motor vehicles; repair of tyres and motor vehicle cooling systems; maintenance of tyres and motor vehicle cooling systems; operation of a multilingual breakdown service via a hotline on the Internet, namely advice from motor vehicle specialists on repairing vehicle breakdowns; installation of toll logging and toll billing equipment; maintenance of toll logging and toll billing equipment; installation and maintenance of units equipped with a system for geolocalisation and position recognition or for recognition of passages; installation and maintenance of electronic satellite geotracking apparatus and instruments, known as GPS or GPS-GPRS; installation and maintenance of telematic (data transmission) and GPS-vehicle locating systems for the localisation of vehicles in real time and for the transmission of data of vehicle use and vehicle handling as well as for the evidence management concerning delivery of freights; installation and maintenance of non-voice telecommunication apparatus and instruments for the transmission of data over short distances between road systems and mobile units; installation and maintenance of apparatus for recording, transmission and reproduction of sound and images, installation and maintenance of electronic transmitting and receiving equipment [on-board units] for use on toll roads; installation, repair and maintenance of radio and telecommunications equipment as well as equipment for navigation, direction finding and localization of transmitters, transceivers, receivers, antennas, sensors, control and monitoring equipment; geofencing, namely installation of control and monitoring devices of vehicles in defined areas; provision of information regarding the refueling of vehicles with electric energy; installation and maintenance of charging infrastructure hardware through remote access [remote maintenance]; reservation of charging stations for users in the e-mobility sector.

38 – Telecommunications services including radio services, namely transmission of radio guidance of motor vehicles taking part in industrial freight transportation; provision of multilingual breakdown services, namely provision telecommunications services for access to technical expertise of vehicle experts with regard to roadside assistance via the Internet; providing access to and transmission of messages, data and information on the Internet; telecommunication services for nationally and internationally operating industrial freight and commercial passenger transport services, namely transmission of information about the state of roads, the traffic situation, the loca-

tion of service stations, the location of vehicles, technical vehicle matters, the price of fuel at home and abroad via the Internet and radio services; transmission of information via computer servers, data transmission services with free access; telematics services, including in relation to freight tracking and evidence management regarding the delivery of freight; data transmission services, namely in relation to entry of geoposition, engine and speedometer data; transmission and exchange of information via multimedia carriers; telecommunications services for geolocalisation purposes; providing access to a worldwide computer network; providing connections to a worldwide computer network by means of telecommunications; telecommunications services in relation to providing electronic mail notifications via the internet and delivery (transmission) of automated reports [electronic messaging services]; providing access to online data in computer networks; telephone services for hotlines; rental of telecommunications equipment for the transmission of messages and on-board-units; professional consultancy in the field of telecommunications, in particular with regard to geolocalisation installations in connection with traffic conditions on road and motorway networks and with regard to on-board-units; telecommunications services for remote access to on-board-units for the purpose of updating and/or extending personalization data; transmission of consumption data collected from charging stations [in compliance with calibration regulations]; provision of access to data or documents stored in central files for remote diagnostics [second level support]; provision of authorized access to database links; providing access to information on the Internet, namely information on charging station positions; telecommunication services for connected-car services [networked automobiles] in and outside the vehicle through remote access, either via a fixed communication model with integrated SIM card or via the hotspot function of an external device, e.g. a smartphone; provision of access to Internet platforms for connection to digital fleet maps; online-telephone services via an information, complaint and emergency hotline.

39 – Rental of construction vehicles and other special-purpose vehicles; tracking of passenger or freight vehicles by computer or via GPS (transport information); vehicle breakdown services, namely vehicle towing and rescue services; accident services, namely providing replacement vehicles, towing vehicles and a towing service; automobile towing services; car rental; rental services, namely rental of automobiles, trucks, busses and vehicles for freight forwarding; rental of vehicle accessories, in particular luggage racks, child safety seats, vehicle trailers, snow chains; transport of motor vehicles by rail; rolling road (intermodal transportation), namely transport systems for the accompanied or unaccompanied combined railway traffic in form of the rolling road, namely transport of complete trucks or semi-tractor trailers by rail; packa-

ging of goods; storage of goods; travel arrangements; transshipment of goods to be transported; information services for the nationally and internationally operating industrial freight and commercial passenger transport, namely providing information about the state of roads, the traffic situation, the location of service stations, the location of vehicles, technical vehicle matters; tracking of broken-down commercial vehicles with computers by means of computer-aided map systems as well as by means of electronic navigation and positioning devices; controlling of fleet vehicles using electronic navigational and positioning apparatus via mobile radiotelephony; transport services, in particular freight forwarding, except the customs clearance of goods; provision of transport arrangements for goods via the Internet through the provision and operation of an online reservation system; advice in the field of transport, handled via hotlines; provision of information, namely city, travel and traffic information; delivery of teleshopping offers for others; booking of travel; parking space search service, namely the provision of information on the availability and location of parking spaces and the display of free parking spaces using electronic navigation and positioning devices; itinerary travel advice services; route planning in the form of travel route consulting services; freight brokerage in relation to orders; delivery of cash in emergencies for third parties by contractual partners; navigation services [IoT (Internet of Things)- based GPS positioning]; information services for nationally and internationally operating commercial goods and passenger transport with regard to road conditions, the traffic situation, the location of car stations, the location of vehicles, and technical data of vehicles.

41 – Provision of multilingual breakdown services, namely interpreting services; reservation of tickets for entertainment events; organization of competitions; coaching with the aim of increasing the motivation of users, operators; holding of lecture events for cultural purposes and workshops [training]; education; training; entertainment; provision of training and education services, including training and education events; organization of recreational events; organization of conferences; organization and holding of congresses; organization and holding of symposiums; organization and holding of colloquiums; organization and holding of training events related to franchising concepts; education and training in the field of franchising; publication and editing of books, brochures [except for promotional purposes] and training materials.

42 – Installation and maintenance of software for toll registration and toll invoicing devices as well as for systems for geolocalisation and position recognition or recognition of passages, for electronic apparatus and instruments for geotracking via satellite, for transmitting and receiving apparatus [on-board units], for navigation equipment; hosting of databases; creation, updating and maintenance of computer software and

programs for data processing, except for the insurance sector; operation of data centers, namely leasing of computer capacities in computer centers; design and planning of telecommunications facilities; scientific and technological consultancy via help desk services and hotline services; technical development of magnetic and chip cards and other computer-aided verifications; electronic data storage; design of internet sites and homepages; creation of internet sites and homepages; drawing up of technical damage reports; IT services, namely setting up notification functions to send automated reports; scientific and technological research and preparation of technical reports in the field of industrial freight and commercial passenger transport services, namely preparation and technical evaluation of reports and statistics on the localization of vehicles in real time and for the transmission of data of vehicle use and vehicle handling [for example travel time, speed, accelerations] as well as comparison and evaluation of the GEO positions of vehicles with GEO positions of the maps used; creation of software for sending automated reports; creation of software for the remote access to on-board-units to update and/or extend personalization data, for updating the software version of the on-boardunit operating system, and for updating maps or other data relevant to toll collection; creation, installation and adaptation of application software for multimedia content delivery and customized software for navigation devices, smartphones, computers, except for insurance; design and development of computer software for logistics, supply chain management and e-business portals; creation of computer software and programs for data processing, especially in the field of finance, [except insurance] and real estate; scientific and technological research and the provision of information in databases for science and research; scientific and technological services and research and related design services; industrial analysis and research services; design and development of computer hardware and software, in particular the creation of computer software and programs, except for the insurance sector; configuration and maintenance of software for charging infrastructure through remote access [remote maintenance]; updating of software and apps for mobile devices via overthe-air programming [OTA]; load management to control peak loads [energy sector], namely monitoring and controlling energy consumption (electrical energy); energy management, namely provision of consultancy regarding photovoltaics for charging stations; quality assurance and optimization of POI [Point of Interest] by means of technical-mathematical consulting in the areas of algorithms and interface connections; programming of data export software; online provision of nondownloadable apps for the digitization of fuel cards to enable processing via online transactions without reading the card details of the physical card; provision of temporary online use of mobile applications to enable contactless

payment with digitized fuel cards via an app at the terminal; provision of temporary online use of mobile applications [apps] to enable mobile payment transactions for fuels, parking and tolls; development of a platform to connect fuel cards digitally in a wallet and conducting the related required transactions; development of a platform that enables acceptance of mobile transactions; development of a central platform to which card transaction acceptance points can be connected to enable the acceptance and processing of mobile transactions; technical consulting services and technical support in the field of software for the expansion of the electric charging infrastructure, especially for municipalities and private homes; online provision of non-downloadable white label frontend applications [user surfaces] for carrying out the management of certain activities, especially in the field of electromobility, in particular initiating and monitoring the charging process; design and development of software for connected-car [webenabled networked automobiles having telematic functions] services in and outside the vehicle by remote access, either via a fixed communication model with integrated SIM card or via the hotspot function of an external device, e.g. a smartphone; provision of temporary use of web-based software for development environments with a structured graphical user interface [white label frontends]; computer technology client and user support services via computer networks; technical monitoring of charging infrastructure with regard to average consumption, charging times, fault messages, energy quantity; user authentication services for access control via RFID [automatic identification and localization of people and data using electromagnetic waves], via app authorization, and via QR code; technical inspection and control of security devices and equipment [alarm circuits, alarm systems and technical security devices] by security services; development and design of printed forms for third parties and updating of printed forms in the field of financial services.

43 – Reservation services for hotels.

45 – Legal services; security services for the protection of property and persons; personal and social services concerning individual needs, namely home guarding services, personal analysis and investigation services, personal shopping services, pastoral counselling, social networking services, private letter writing, pet sitting services, political lobbying services, reminder services, companionship services; licensing of franchise concepts; licensing of industrial property rights and copyrights; management of copyrights and industrial property rights, in particular patents, utility models, designs, including trademark rights; legal services, namely legal prosecution within the framework of claims management; legal consultations in tax matters, in particular in the EU area, preferably within the framework of tax identification numbers, new deposits and deferrals of payments; consultancy in inte-

lectual property and industrial property matters; licensing in intellectual property and industrial property matters, including in the field of copyrights; licensing of industrial property rights; legal consulting on taxation; legal consultancy services in the field of security, namely data protection, data security, data access, data archiving, certification, testifying services (security strategies); consultancy relating to legal questions concerning road safety; providing advice in the area of workplace safety, namely in setting minimum standards for working conditions for workers sent by employers based abroad to provide services across borders in accordance with EU directives.

elements) building materials] principally of metal or aluminum with honeycomb cores; multi-layer composite panels [(sandwich elements) building materials] principally of metal or aluminum with cores principally of bound silicate minerals; multi-layer composite panels [(sandwich elements) building materials] principally of metal or aluminum with lightweight inner cores principally of bound silicate minerals; multi-layer composite panels [(sandwich elements) building materials] for the construction of ventilation ducts and exhaust/evacuation systems, principally of metal or aluminum; multi-layer composite panels [(sandwich elements) building materials] for the construction of flood walls, principally of metal or aluminum; multi-layer composite panels [(sandwich elements) building materials] for the housing of machines and systems, and for the creation of storage space, principally of metal or aluminum; multi-layer composite panels [(sandwich elements) building materials] for the construction of emergency shelters, principally of metal or aluminum; multi-layer composite panels [(sandwich elements) building materials] for the construction of room dividers or partitions, principally of metal or aluminum; multi-layer composite panels (sandwich elements) for use in door panels, principally of metal or aluminum; multi-layer composite panels [(sandwich elements) building materials] for use in spandrel building units, principally of metal or aluminum; multi-layer composite panels [(sandwich elements) building materials] for fire doors, principally of metal or aluminum; multi-layer composite panels [(sandwich elements) building materials] principally of metal or aluminum with lightweight inner cores principally of thermoplastic material; multi-layer composite panels (sandwich elements) for the manufacture of technical apparatuses principally of metal or aluminum; facade units (intermediate goods) of metal; multi-layer composite panels (sandwich elements) with decor surfaces (intermediate goods principally of metal); multi-layer composite panels (sandwich elements) as a support structure for kitchen countertops, trade show flooring or machines (intermediate goods principally of metal); multi-layer composite panels (sandwich elements) for vehicle bodies and outfitting (intermediate goods principally of metal); multi-layer composite panels (sandwich elements) for air conditioning and climate control (intermediate goods principally of metal); multi-layer composite panels (sandwich elements) for technologies used in stables (intermediate goods principally of metal); multi-layer composite panels (sandwich elements) for the building and fitting-out of ships (intermediate goods principally of metal); multi-layer composite panels (sandwich elements) for wall elements in the manufacturing of tents (intermediate goods principally of metal); multi-layer composite panels (sandwich elements) for climate cabinets (intermediate goods principally of metal); multi-layer composite panels (sandwich elements) for retrofitting the inside and outside of buildings with thermal insulation

(intermediate goods principally of metal); multi-layer composite panels (sandwich elements) for formwork panels in the construction sector (intermediate goods principally of metal); multi-layer composite panels (sandwich elements) for acoustic insulation or noise barriers (intermediate goods principally of metal); multi-layer composite panels (sandwich elements) for bulletproofing in vehicles or buildings (intermediate goods principally of metal); multi-layer composite panels (sandwich elements) for clean-room technologies and medical devices and systems (intermediate goods principally of metal); multi-layer composite panels (sandwich elements) for leaf-concealing door designs (intermediate goods principally of metal); multi-layer composite panels (sandwich elements) for roof units of carousel revolving doors and sliding doors (intermediate goods principally of metal); multi-layer composite panels (sandwich elements) for the manufacture of aircraft containers (intermediate goods principally of metal); multi-layer composite panels (sandwich elements) for flooring in the construction of railway vehicles and buses (intermediate goods principally of metal); multi-layer composite panels (sandwich elements) for wall heating elements, construction and the manufacture of vehicles (intermediate goods principally of metal); multi-layer composite panels (sandwich elements) for building furniture (intermediate goods principally of metal); multi-layer composite panels [(sandwich elements) intermediate goods] principally of metal with honeycomb cores; multi-layer composite panels [(sandwich elements) intermediate goods] principally of metal with cores principally of bound silicate minerals; multi-layer composite panels [(sandwich elements) intermediate goods] principally of metal with lightweight inner cores principally of bound silicate minerals; multi-layer composite panels (sandwich elements) for the construction of ventilation ducts and exhaust/evacuation systems (intermediate goods principally of metal); multi-layer composite panels (sandwich elements) for the manufacture of vacuum-table elements for machine construction (intermediate goods principally of metal); multi-layer composite panels (sandwich elements) for the manufacture of transport containers (intermediate goods principally of metal); multi-layer composite panels (sandwich elements) for the manufacture of flood walls (intermediate goods principally of metal); multi-layer composite panels (sandwich elements) for the housing of machines and systems, and for the creation of storage space (intermediate goods principally of metal); multi-layer composite panels (sandwich elements) for the construction of emergency shelters (intermediate goods principally of metal); multi-layer composite panels (sandwich elements) for the construction of room dividers or partitions (intermediate goods principally of metal); multi-layer composite panels (sandwich elements) for the manufacture of billboards, advertising vehicles and 3D or point-of-sale units (intermediate goods principally of metal); multi-layer com-

posite panels (sandwich elements) for use in door panels principally of metal; multi-layer composite panels (sandwich elements) for use in spandrel building units (intermediate goods principally of metal); multi-layer composite panels (sandwich elements) for bulletproofing in vehicles or buildings, principally of metal or aluminum; multi-layer composite panels (sandwich elements) for climate cabinets principally of metal or aluminum; multi-layer composite panels (sandwich elements) for vehicle bodies and vehicle outfitting, principally of metal or aluminum; multi-layer composite panels (sandwich elements) for the building and fitting-out of ships, principally of metal or aluminum; multi-layer composite panels (sandwich elements) for the manufacture of vehicles, principally of metal or aluminum; multi-layer composite panels (sandwich elements) for flooring in the construction of railway vehicles and buses, principally of metal or aluminum; sound-absorbing multi-layer composite panels [(sandwich elements) intermediate goods] consisting primarily of metal; intrusion-resistant multi-layer composite panels [(sandwich elements) intermediate goods] consisting primarily of metal; partition elements (intermediate goods) consisting primarily of metal; multi-layer composite panels [(sandwich elements) intermediate goods] consisting primarily of metal; insulated panels, particularly multi-layer composite panels (intermediate goods) consisting primarily of metal; composite panels as intermediate goods of metal or aluminium; multi-layer composite panels (sandwich elements) as a support structure for kitchen countertops, principally of metal or aluminum; multi-layer composite panels (sandwich elements) for building furniture, principally of metal or aluminum; multi-layer composite panels (sandwich elements) for the manufacture of vacuum-table elements for machine construction, principally of metal or aluminum; multi-layer composite panels (sandwich elements) for the manufacture of transport containers, principally of metal or aluminum; multi-layer composite panels (sandwich elements) for the manufacture of aircraft containers, principally of metal or aluminum; multi-layer composite panels (sandwich elements) for the manufacture of billboards, advertising vehicles, and 3D or point-of-sale units, principally of metal or aluminum; industrial door panels (intermediate goods) consisting primarily of aluminum; multi-layer structural composite panels [sandwich elements] for the attachment or coupling of building components such as windows, doors and similar units (intermediate goods consisting primarily of metal).

17 – Multi-layer composite panels [(sandwich elements) intermediate goods] consisting primarily of plastic; multi-layer composite panels [(sandwich elements) intermediate goods] consisting primarily of polyvinyl chloride; multi-layer composite panels [(sandwich elements) intermediate goods] primarily with rigid foam cores; multi-layer composite panels [(sandwich elements) intermediate goods] consisting

primarily of HPL [high-pressure laminated sheets]; multi-layer composite panels [(sandwich elements) intermediate goods] consisting primarily of epoxy resin; multi-layer composite panels [(sandwich elements) intermediate goods] consisting primarily of GFRP [glass-fiber reinforced plastics]; rigid foam panels (intermediate goods) with a self-adhesive surface on one or both sides for the manufacture of a multi-layer composite panel (sandwich element); multi-layer composite panels (sandwich elements) with decor surfaces (intermediate goods principally of plastic); multi-layer composite panels (sandwich elements) as a support structure for kitchen countertops, trade show flooring or machines (intermediate goods principally of plastic); multi-layer composite panels (sandwich elements) for vehicle bodies and outfitting (intermediate goods principally of plastic); multi-layer composite panels (sandwich elements) for air conditioning and climate control (intermediate goods principally of plastic); multi-layer composite panels (sandwich elements) for technologies used in stables (intermediate goods principally of plastic); multi-layer composite panels (sandwich elements) for the building and fitting-out of ships (intermediate goods principally of plastic); multi-layer composite panels (sandwich elements) for wall elements in the manufacturing of tents (intermediate goods principally of plastic); multi-layer composite panels (sandwich elements) for climate cabinets (intermediate goods principally of plastic); multi-layer composite panels (sandwich elements) for retrofitting the inside and outside of buildings with thermal insulation (intermediate goods principally of plastic); multi-layer composite panels (sandwich elements) for formwork panels in the construction sector (intermediate goods principally of plastic); multi-layer composite panels (sandwich elements) for acoustic insulation or noise barriers (intermediate goods principally of plastic); multi-layer composite panels (sandwich elements) for bulletproofing in vehicles or buildings (intermediate goods principally of plastic); multi-layer composite panels (sandwich elements) for clean-room technologies and medical devices and systems (intermediate goods principally of plastic); multi-layer composite panels (sandwich elements) for leaf-concealing door designs, principally of plastic; multi-layer composite panels (sandwich elements) for leaf-concealing door designs (intermediate goods principally of plastic); multi-layer composite panels (sandwich elements) for roof units of carousel revolving doors and sliding doors (intermediate goods principally of plastic); multi-layer composite panels (sandwich elements) for the manufacture of aircraft containers (intermediate goods principally of plastic); multi-layer composite panels (sandwich elements) for flooring in the construction of railway vehicles and buses (intermediate goods principally of plastic); multi-layer composite panels (sandwich elements) for wall heating elements, construction and the manufacture of vehicles (intermediate goods principally of

plastic); multi-layer composite panels (sandwich elements) for building furniture (intermediate goods principally of plastic); multi-layer composite panels [(sandwich elements) intermediate goods] principally of plastic with honeycomb cores; multi-layer composite panels [(sandwich elements) intermediate goods] principally of plastic with cores principally of bound silicate minerals; multi-layer composite panels [(sandwich elements) intermediate goods] principally of plastic with lightweight inner cores principally of bound silicate minerals; multi-layer composite panels (sandwich elements) for the construction of ventilation ducts and exhaust/evacuation systems (intermediate goods principally of plastic); multi-layer composite panels (sandwich elements) for the manufacture of vacuum-table elements for machine construction (intermediate goods principally of plastic); multi-layer composite panels (sandwich elements) for the manufacture of transport containers (intermediate goods principally of plastic); multi-layer composite panels (sandwich elements) for the manufacture of flood walls (intermediate goods principally of plastic); multi-layer composite panels (sandwich elements) for the housing of machines and systems, and for the creation of storage space (intermediate goods principally of plastic); multi-layer composite panels (sandwich elements) for the construction of emergency shelters (intermediate goods principally of plastic); multi-layer composite panels (sandwich elements) for the construction of room dividers or partitions (intermediate goods principally of plastic); multi-layer composite panels (sandwich elements) for the manufacture of billboards, advertising vehicles and 3D or point-of-sale units (intermediate goods principally of plastic); multi-layer composite panels (sandwich elements) for use in door panels principally of plastic; multi-layer composite panels (sandwich elements) for use in spandrel building units (intermediate goods principally of plastic); fire protection panels (intermediate goods) with a self-adhesive surface on one or both sides for the manufacture of a multi-layer composite panel (sandwich element); multi-layer composite panels (sandwich elements) with a surface of natural fiber-reinforced hybrid material on the basis of a renewable resource and a thermoplastic material; multi-layer composite panels [(sandwich elements) intermediate goods] principally of metal or plastic or wood with lightweight inner cores, principally of thermoplastic material; pressure-sensitive adhesive film; insulated panels, particularly multi-layer composite panels (intermediate goods) consisting primarily of plastic; sound-absorbing multi-layer composite panels [(sandwich elements) building materials] consisting primarily of plastic; multi-layer composite panels (sandwich elements) for bulletproofing in vehicles or buildings, principally of plastic; multi-layer composite panels (sandwich elements) for climate cabinets, principally of plastic; multi-layer composite panels (sandwich elements) for vehicle bodies and vehicle outfitting, prin-

cipally of plastic; multi-layer composite panels (sandwich elements) for the building and fitting-out of ships, principally of plastic; multi-layer composite panels (sandwich elements) for the manufacture of vehicles, principally of plastic; multi-layer composite panels (sandwich elements) for flooring in the construction of railway vehicles and buses, principally of plastic; sound-absorbing multi-layer composite panels [(sandwich elements) intermediate goods] consisting primarily of plastic; intrusion-resistant multi-layer composite panels [(sandwich elements) intermediate goods] consisting primarily of plastic; partition elements (intermediate goods) consisting primarily of plastic; multi-layer composite panels [(sandwich elements) building materials] as a support structure for kitchen countertops, principally of plastic; multi-layer composite panels (sandwich elements) for building furniture, principally of plastic; multi-layer composite panels (sandwich elements) for the manufacture of vacuum-table elements for machine construction, principally of plastic; multi-layer composite panels (sandwich elements) for the manufacture of transport containers, principally of plastic; multi-layer composite panels (sandwich elements) for the manufacture of aircraft containers, principally of plastic; multi-layer composite panels (sandwich elements) for the manufacture of billboards, advertising vehicles, and 3D or point-of-sale units, principally of plastic.

19 – Multi-layer composite panels [(sandwich elements) building materials] consisting primarily of wood; multi-layer composite panels [(sandwich elements) building materials] consisting primarily of plywood; sound-absorbing multi-layer composite panels [(sandwich elements) building materials] consisting primarily of wood; intrusion-resistant multi-layer composite panels [(sandwich elements) building materials] of wood; facade building units of wood; facade building units consisting primarily of glass; partition elements consisting primarily of wood; industrial door panels consisting primarily of wood; insulated panels, particularly multi-layer composite panels consisting primarily of wood; composite panels for construction, of wood; multi-layer composite panels [(sandwich elements) building materials]; entrance-door panels; windowsill elements; garage door panels; facade design elements; partition elements; double-ups (false edges), namely, panel-shaped elements of one or multiple layers consisting primarily of wood that are firmly joined to one another; panels [all of the aforementioned goods not of metal]; multi-layer structural composite panels [(sandwich elements) building materials] for the attachment or coupling of building components such as windows, doors and similar units, consisting primarily of wood; multi-layer composite panels [(sandwich elements) building materials] with decor surfaces, principally of wood; multi-layer composite panels [(sandwich elements) building materials] as a support structure for trade show flooring or machines, principally of wood; multi-layer composite

panels [(sandwich elements) building materials] for air conditioning and climate control, principally of wood; multi-layer composite panels [(sandwich elements) building materials] for technologies used in stables, principally of wood; multi-layer composite panels [(sandwich elements) building materials] for wall elements in the manufacturing of tents, principally of wood; multi-layer composite panels [(sandwich elements) building materials] for retrofitting the inside and outside of buildings with thermal insulation, principally of wood; sandwich elements for formwork panels in the construction sector, principally of wood; sandwich elements for acoustic insulation or noise barriers, principally of wood; multi-layer composite panels [(sandwich elements) building materials] for clean-room technologies and medical devices and systems, principally of wood; multi-layer composite panels (sandwich elements) for leaf-concealing door designs, principally of wood; multi-layer composite panels [(sandwich elements) building materials] for roof units of carousel revolving doors and sliding doors, principally of wood; multi-layer composite panels [(sandwich elements) building materials] for wall heating elements and construction, principally of wood; multi-layer composite panels [(sandwich elements) building materials] principally of wood with honeycomb cores; multi-layer composite panels [(sandwich elements) building materials] principally of wood with cores principally of bound silicate minerals; multi-layer composite panels [(sandwich elements) building materials] principally of wood with lightweight inner cores principally of bound silicate minerals; multi-layer composite panels [(sandwich elements) building materials] with honeycomb cores of cardboard; lightweight filler elements consisting primarily of silicate minerals; multi-layer composite panels [(sandwich elements) building materials] for the construction of ventilation ducts and exhaust/evacuation systems, principally of wood; multi-layer composite panels [(sandwich elements) building materials] for the construction of flood walls, principally of wood; multi-layer composite panels [(sandwich elements) building materials] for the housing of machines and systems, and for the creation of storage space, principally of wood; multi-layer composite panels [(sandwich elements) building materials] for the construction of emergency shelters, principally of wood; multi-layer composite panels [(sandwich elements) building materials] for the construction of room dividers or partitions, principally of wood; multi-layer composite panels (sandwich elements) for use in door panels, principally of wood; multi-layer composite panels (sandwich elements) for use in spandrel building units, principally of wood; multi-layer composite panels [(sandwich elements) building materials] principally of wood with lightweight inner cores, principally of thermoplastic material; intrusion-resistant multi-layer composite panels [(sandwich elements) building materials] consisting primarily of plastic; facade units

of plastic; partition elements consisting primarily of plastic; multi-layer composite panels [(sandwich elements) building materials] consisting primarily of plastic; multi-layer composite panels [(sandwich elements) building materials] consisting primarily of polyvinyl chloride; multi-layer composite panels [(sandwich elements) building materials] predominantly with rigid foam cores; multi-layer composite panels [(sandwich elements) building materials] consisting primarily of HPL (high-pressure laminated sheets); multi-layer composite panels [(sandwich elements) building materials] consisting primarily of epoxy resin; multi-layer composite panels [(sandwich elements) building materials] consisting primarily of GFRP [glass-fiber reinforced plastics]; rigid foam panels with a self-adhesive surface on one or both sides for the construction of a multi-layer composite panel [(sandwich elements) building materials]; multi-layer structural composite panels [(sandwich elements) building materials] for the attachment or coupling of building components such as windows, doors and similar units consisting primarily of plastic; multi-layer composite panels [(sandwich elements) building materials] with decor surfaces, principally of plastic; multi-layer composite panels [(sandwich elements) building materials] as a support structure for trade show flooring or machines, principally of plastic; multi-layer composite panels [(sandwich elements) building materials] for air conditioning and climate control, principally of plastic; multi-layer composite panels [(sandwich elements) building materials] for technologies used in stables, principally of plastic; multi-layer composite panels [(sandwich elements) building materials] for retrofitting the inside and outside of buildings with thermal insulation, principally of plastic; multi-layer composite panels [(sandwich elements) building materials] for formwork panels in the construction sector, principally of plastic; multi-layer composite panels [(sandwich elements) building materials] for acoustic insulation or noise barriers, principally of plastic; multi-layer composite panels [(sandwich elements) building materials] for clean-room technologies and medical devices and systems, principally of plastic; multi-layer composite panels [(sandwich elements) building materials] for roof units of carousel revolving doors and sliding doors, principally of plastic; multi-layer composite panels [(sandwich elements) building materials] for wall heating elements and construction, principally of plastic; multi-layer composite panels [(sandwich elements) building materials] principally of plastic with honeycomb cores; multi-layer composite panels [(sandwich elements) building materials] principally of plastic with cores principally of bound silicate minerals; multi-layer composite panels [(sandwich elements) building materials] principally of plastic with lightweight inner cores principally of bound silicate minerals; multi-layer composite panels [(sandwich elements) building materials] for the construction of ventilation

ducts and exhaust/evacuation systems, principally of plastic; multi-layer composite panels [(sandwich elements) building materials] for the construction of flood walls, principally of plastic; multi-layer composite panels [(sandwich elements) building materials] for the housing of machines and systems, and for the creation of storage space, principally of plastic; multi-layer composite panels [(sandwich elements) building materials] for the construction of emergency shelters, principally of plastic; multi-layer composite panels [(sandwich elements) building materials] for the construction of room dividers or partitions, principally of plastic; multi-layer composite panels [(sandwich elements) building materials] for use in spandrel building units, principally of plastic; fire protection panels with a self-adhesive surface on one or both sides for the construction of a multi-layer composite panel [(sandwich element) building materials]; multi-layer composite panels [(sandwich elements) building materials] with a surface of natural fiber-reinforced hybrid material on the basis of a renewable resource and a thermoplastic material; multi-layer composite panels [(sandwich elements) building materials] principally of plastic with lightweight inner cores principally of thermoplastic material; pressure-sensitive adhesive film; insulated panels (building materials), particularly multi-layer composite panels consisting primarily of plastic; facade units of plastic; facade units (intermediate goods) of wood; multi-layer composite panels (sandwich elements) with decor surfaces (intermediate goods principally of wood); multi-layer composite panels (sandwich elements) as a support structure for kitchen countertops, trade show flooring or machines (intermediate goods principally of wood); multi-layer composite panels (sandwich elements) for vehicle bodies and outfitting (intermediate goods principally of wood); multi-layer composite panels (sandwich elements) for air conditioning and climate control (intermediate goods principally of wood); multi-layer composite panels (sandwich elements) for technologies used in stables (intermediate goods principally of wood); multi-layer composite panels (sandwich elements) for the building and fitting-out of ships (intermediate goods principally of wood); multi-layer composite panels (sandwich elements) for wall elements in the manufacturing of tents (intermediate goods principally of wood); multi-layer composite panels (sandwich elements) for climate cabinets (intermediate goods principally of wood); multi-layer composite panels (sandwich elements) for retrofitting the inside and outside of buildings with thermal insulation (intermediate goods principally of wood); multi-layer composite panels (sandwich elements) for formwork panels in the construction sector (intermediate goods principally of wood); multi-layer composite panels (sandwich elements) for acoustic insulation or noise barriers (intermediate goods principally of wood); multi-layer composite panels (sandwich elements) for bulletproofing in vehicles or buildings (intermediate

goods principally of wood); multi-layer composite panels (sandwich elements) for clean-room technologies and medical devices and systems (intermediate goods principally of wood); multi-layer composite panels (sandwich elements) for leaf-concealing door designs (intermediate goods principally of wood); multi-layer composite panels (sandwich elements) for roof units of carousel revolving doors and sliding doors (intermediate goods principally of wood); multi-layer composite panels (sandwich elements) for the manufacture of aircraft containers (intermediate goods principally of wood); multi-layer composite panels (sandwich elements) for flooring in the construction of railway vehicles and buses (intermediate goods principally of wood); multi-layer composite panels (sandwich elements) for wall heating elements, construction and the manufacture of vehicles (intermediate goods principally of wood); multi-layer composite panels (sandwich elements) for building furniture (intermediate goods principally of wood); multi-layer composite panels [(sandwich elements) intermediate goods] principally of wood with honeycomb cores; multi-layer composite panels [(sandwich elements) intermediate goods] principally of wood with lightweight inner cores principally of bound silicate minerals; multi-layer composite panels (sandwich elements) for the construction of ventilation ducts and exhaust/evacuation systems (intermediate goods principally of wood); multi-layer composite panels (sandwich elements) for the manufacture of vacuum-table elements for machine construction (intermediate goods principally of wood); multi-layer composite panels (sandwich elements) for the manufacture of transport containers (intermediate goods principally of wood); multi-layer composite panels (sandwich elements) for the manufacture of flood walls (intermediate goods principally of wood); multi-layer composite panels (sandwich elements) for the housing of machines and systems, and for the creation of storage space (intermediate goods principally of wood); multi-layer composite panels (sandwich elements) for the construction of emergency shelters (intermediate goods principally of wood); multi-layer composite panels (sandwich elements) for the construction of room dividers or partitions (intermediate goods principally of wood); multi-layer composite panels (sandwich elements) for the manufacture of billboards, advertising vehicles and 3D or point-of-sale units (intermediate goods principally of wood); multi-layer composite panels (sandwich elements) for use in door panels principally of wood; multi-layer composite panels (sandwich elements) for use in spandrel building units (intermediate goods principally of wood); plastic intermediate goods as composite panels and for construction; multi-layer composite panels (sandwich elements) for bulletproofing in vehicles or buildings, principally of wood; multi-layer composite panels (sandwich elements) for climate cabinets, principally of wood; multi-layer composite panels (sandwich elements) for vehicle bodies and vehicle out-

fitting, principally of wood; multi-layer composite panels (sandwich elements) for the building and fitting out of ships principally of wood; multi-layer composite panels (sandwich elements) for the manufacture of vehicles, principally of wood; multi-layer composite panels (sandwich elements) for flooring in the construction of railway vehicles and buses, principally of wood; sound-absorbing multi-layer composite panels [(sandwich elements) intermediate goods] consisting primarily of wood; intrusion-resistant multi-layer composite panels [(sandwich elements) intermediate goods] consisting primarily of wood; partition elements (intermediate goods) consisting primarily of wood; multi-layer composite panels [(sandwich elements) intermediate goods] consisting primarily of principally of wood; insulated panels, particularly multi-layer composite panels (intermediate goods) consisting primarily of wood; composite panels as intermediate goods of wood; multi-layer composite panels [(sandwich elements) building materials] as a support structure for kitchen countertops, principally of wood; multi-layer composite panels (sandwich elements) for building furniture, principally of wood; multi-layer composite panels (sandwich elements) for the manufacture of vacuum-table elements for machine construction, principally of wood; multi-layer composite panels (sandwich elements) for the manufacture of transport containers, principally of wood; multi-layer composite panels (sandwich elements) for the manufacture of aircraft containers, principally of wood; multi-layer composite panels (sandwich elements) for the manufacture of billboards, advertising vehicles, and 3D or point-of-sale units, principally of wood; industrial door panels (intermediate goods) consisting primarily of plastic or wood.

20 – Multi-layer structural composite panels [sandwich elements] for the attachment or coupling of building components such as windows, doors and similar units (intermediate goods consisting primarily of plastic or wood).

27 – Wall coverings; ceiling coverings.
