(54) METHOD FOR PRODUCTION OF DOUGH
WITHOUT YEAST TO BAKE BREAD

(57) A method provides to place required amount of white flour in flour section, close it hermetically and create air or carbon dioxide pressure within the range of 4-10 bar, while 4-10 bar of air or carbon dioxide pressure is provided in dough section of dough maker; at that, carbon dioxide dissolved in water is supplied to dough section, at first, and then flour is poured from flour store in intervals of 5 seconds to 15 minutes or carbon dioxide gas is introduced into dough section and a pressure of 4-10 bar is provided, then necessary amount of water is introduced into dough section and water is mixed to dissolve carbon dioxide in the water, after that, flour is poured from said storage in dough section or water is sprayed after creating a pressure of 4-10 bar in dough section with carbon dioxide gas, as a result whereof the carbon dioxide is dissolved in water, after that the flour had been thrown from flour storage in dough section or required amount of flour and water are put in dough section creating carbon dioxide gas pressure of 4-10 bar, after that kneading the dough is started, after finishing the kneading of the dough, the pressure of carbon dioxide gas or air is increased in the kneading section in the range of 5-30 bar, and the dough is moved to the baking molds placed inside the casting section, from where the baking molds are moved to the kneading section, after kneading the dough the pressure of carbon dioxide gas or air is increased in kneading section in the range of 5-30 bar, and the dough is moved to baking molds placed inside of casting section, wherefrom the baking molds are moved to kneading section, and after hermetical isolation of fermenting section, it is released from the pressure, then carbon dioxide in the dough begins to

release from the water in bread baking forms, and fermented dough placed in bread baking forms is puffed up and the dough is ready for baking without cutting and processing; at that, during kneading, and fermenting and puffing process gas pressure of 4-30 bar is constantly maintained in dough kneading section, and carbon dioxide gas or air pressure of 4-10 bar is maintained in dough pouring section.

domain of human MASP-2. In some embodiments, the
antibodies or antigen-binding fragments thereof inhibit
lectin pathway complement activation. Also provided
are polynucleotides encoding the disclosed monoclonal

 (54) MAGNETIC TOROID AND A MAGNETICAL-
 LY ACTUATED ROTARY COUPLING
 DEVICE COMPRISING THEREOF
 (57) The present invention relates to a magnetic toroid
 (100) characterized by a Möbius-like toroid twisted by
 a degree, wherein the cross section of the Möbius-like
 toroid is a closed shape with at least four straight sides,
 wherein each side of the Möbius-like toroid is
 orthogonally magnetized to form the magnetic toroid
 (100), thereby creating a magnetic field having rotating
 polarity around the magnetic toroid (100) when the
 magnetic toroid (100) is spinning on its axis. The
 present invention also relates to a magnetically
 actuated rotary coupling device (200) comprising a
 first magnetic toroid (101) and a second magnetic
 toroid (102) being disposed adjacent to the first
 magnetic toroid (101), wherein the first magnetic
 toroid (101) is rotatable on its own axis relative to
 motion of the second magnetic toroid (102) when
 portions of their respective magnetic fields interact
 with each other.

 1 – Chemical preparations for use in industry, namely, acids used in oil and gas exploration and production; hydraulic fluid; chemical preparations, namely, degreasing solvents used in oil and gas exploration and production; chemicals used in oil drilling; drilling muds for use in oil and gas well drilling; chemicals for welding; gases for welding; metal welding flux; chemical drilling fluids for use in subterranean wells, namely, drilling muds, completion fluids, workover fluids and wellbore fluids; chemical additives for use with drilling fluids; chemical drilling fluids for use in oil well drilling; hydrogen as an energy carrier; and lithium as part of a renewal energy system.

7 – Oil, gas, geothermal, water development, and carbon dioxide field equipment, namely, drilling rig mechanization machines and devices; structural and replacement parts for drilling rig mechanization machines, namely, locks, nipples, expandables, cones, isolation valves, liner hangers, couplings, bushings, percussion hammer drills, manifolds, collars, cables, retainers, stabilizers, hold openers, mills, seals, plugs, drill bits, drill stems, tubes, tubing, swivels, half-mule shoes, guide shoes, burn shoes, washover shoes, drilling machine bearings, drilling machine rotors, packers, stators being parts of drilling rigs machines, safety valves, hangers, slicklines [parts of machines], pumps, tubing, pipes, pipe joints, safety joints, casings, and cables; devices adapted for use with drilling rig mechanization machines, namely, flow control devices, gas flotation machine, toolstring centralizer, casing centralizer, liner centralizer, logging device centralizer, bow-spring centralizer monitoring devices, multi-lateral devices, packing devices, hold openers, under reamers, whip stocks, drilling motors, drilling machines, drilling hammers, drilling impact tools, milling assemblies, tongs, cutters, casing and tubing patches,

injection pump, injection mandrel, injection line, injection swages, shale shakers, desanders, desilters, mud cleaner, shale shaker, vacuum degasser, decanter centrifuge, mud agitator, mud tank, centrifugal pump, mixing hopper, mud gas separator centrifuges, heat exchanger, compressor, air coolers, evaporators, batch reactor, continuous reactor, tubular furnace, boiler, pumps, dust collectors, wet scrubber, fabric filter, settling chamber, precipitator, oil treater, straddles, vacuums, retrieving tools, fishing tools, drilling rigs, packers, rotating control devices, banding tool, hangers, reservoir screening machine, surface well screening machines, inflow control tools, slicklines, perforating devices, accelerators, scrapers, exchangers, gas lifting devices, fluid separators, meters, motors, accumulator, steerable motor, mud motor, generators, actuators, wellhead control panels, flowheads, machines for subsea boosting, booster pump, pump station, suction anchor, mudmat, hydraulic booster, vibration detectors, machines for borehole imaging, machines for seismic imaging, electromagnetic pipe scanner, wells, storage devices, tanks, hydraulic power units, machines for delivering hydraulic pressure and flow, hydraulic pumping units, hydraulic control system, hydraulic actuator, hydraulic booster, and apparatus for the remote observation and operation of oil and gas drilling rigs, pumps for use in irrigation systems; parts of oilfield wellhead machines, namely, chokes, degassers, and centrifuges; power operated pressure control equipment consisting of parts of oilfield wellhead machines, namely, chokes, degassers, centrifugal degassers, hydrogen sulfide mud gas separators, dual mud gas separators for horizontal drilling; machine parts, namely, rubber and metal mechanical o-ring seals used in equipment for oil and gas exploration and production; cutting machines and machine tools, namely, powered machines for cutting or shaping or finishing metals or other materials; precision machine tools, namely, hard metal tools, high speed steel (HSS) tools, carbide tools, ceramic tools, poly crystalline diamond (PCD) tools, and diamond-coated and diamond-uncoated tools, and hard metal tools, all for use in the cutting and forming of material by others; mechanical seals; air-operated power tools, namely, drills, grinders, and millers; drills for the mining industry; electric power drills; pneumatic hand-held drills; power drills; power tools, namely, reamers; electric welding machines; laser welding machines; friction-stir welding tools, namely, welding torches; electric welding machines, namely, friction-stir welding machines; bits for mining machines; bits for power drills; core drilling bits; mining bits; tool bits for machines; bearings, as parts of machines; roller bearings for machines; pump diaphragms; machines, namely, cementing equipment in the nature of skid-mounted cementing units, batch mixers, liquid additive systems, mechanical cement slurry defoamer, subsea cementing head, casing packer, isolation packer, and solids fraction monitor used in oil and gas exploration

and production; laser welding machines; electrodes for welding machines; electrical power generators using geothermal power; electrolysis machines for production of hydrogen gas; and machines for lithium mining; wireline tractors used in oil and gas exploration and production; deadline anchors [machine] for tying down drill line and measuring load suspended from drilling rig; load anchors [machine] for supporting and reducing loads in wells; pump anchor [machine] for setting and resetting pumping depth of downhole pumps; spears (mechanically operated device) for recovery of equipment lost downhole.

9 – Data processing equipment and computers; fire-extinguishing apparatus; downloadable and recorded computer software to process data used for oil and gas exploration and production in locating, evaluating and producing hydrocarbons; downloadable computer firmware for digital enablement of oilfield tools; automated self-contained electronic surveillance devices that can be deployed to gather information in oil and gas exploration and production facilities; testing and measuring equipment used in oil and gas exploration and production facilities to test performance and efficiency of oil and gas well equipment; petroleum industry equipment, namely, electronic rig instrumentation for monitoring well pressure and volume of returned drilling fluid; micro-processor computer controlled rig-floor monitors with alarms for use in monitoring and displaying drilling equipment and the flow of gases or liquids; electronic pit volume totalizers and return flow sensors for use in blow-out prevention or monitoring of drilling fluid pressure, temperature, viscosity, and composition; electronic drilling recorders, namely, micro-processor controlled drilling mud electronic data logger for use in sensing and logging drilling fluid pressure, temperature, viscosity and composition; electric cables, fiber optic cables; cement testing machines; welding transformers; magnets for industrial purposes; magnets used in oil and gas exploration and production; hydrogen fuel cells; downloadable and recorded computer software for data processing and use in connection with exploring and developing geothermal resources, water management, and carbon dioxide storage and containment; and downloadable and recorded software for optimization of production of oil and gas wells in the fields of oil and gas exploration and production; sensors adapted for use with drilling rig mechanization machines.

12 – Trucks equipped with apparatus to conduct services well testing, evaluating, drilling, completing, producing and repairing rendered in connection with oil and gas wells, and for acquiring, processing, interpreting, storing, presenting and transmitting from one location to another of well site logging data; boats and barges equipped with pumping equipment for fracturing, acidizing, cementing, and sand control in connection with oil and gas wells; land vehicles for cable inspection and on-site oil and gas well measurements;

cementing equipment in the nature of cement trucks and cement trailers used in oil and gas exploration and production.

13 – Explosive substances and projectiles in the nature of shaped charges in the oil and gas industry for use in perforating metal casing lining and oil well along with the adjoining earth formation.

35 – Managing the exploration, production and operations of gas and oil properties for others; advertising and marketing services, namely, promoting the goods and services of others in the fields of oil and gas exploration and production; online procurement for others, namely, purchasing of oil well drilling and well improvement services related to the fields of oil and gas exploration and production; data processing services in the fields of oil and gas exploration and production; business consulting services for the energy industry related to establishing and improving business functions, namely, corporate and project strategies, organization management, operations management, operations improvement, technology management, mergers and acquisitions, and company integration.

37 – Construction project management services for others in the fields of oil and gas exploration and production; oil and gas drilling; consulting services in the fields of oil and gas well drilling; maintenance of wellbore area in oil and gas well drilling, namely, sand control services related to the fields of oil and gas well drilling; oil pumping, namely, artificial lift services in the fields of oil and gas well drilling; installation, maintenance, and repair of oil separators; rental of well drilling tools in connection with the fields of geothermal resources, water management, and carbon dioxide storage and containment; repair and maintenance of oil and gas drilling equipment and facilities; subterranean well drilling services; rental of wireline tractors used in oil and gas exploration and production; cementing services for oil and gas wells; drilling of wells; rental of drilling platforms; installation and maintenance of irrigation systems; installation and repair of irrigation devices; rental of well drilling tools used in connection with irrigation services and oil and gas exploration and production; well improvement services, namely, enhanced oil recovery services for enhancing well production; recovery services, namely excavation to recover lost instruments and tools in well during oil and gas exploration and production; providing technical advice in the field of oil and gas drilling, namely technical advice on drilling fluids and drilling fluid use, and technical advice on data control, products control, and pressure control; and lithium mining extraction services; remedial services for oil and gas production, namely, refracturing, hydraulic fracturing of subsurface geologic formations, optimizing artificial lift operations, matrix stimulating operations, acid stimulation services, and postperforating treatments to remove debris from existing perforations, all for enhancing well production; rental of pro-

duction facilities and plants for others to allow production of oil and gas while full field development is being planned and permanent facilities are being built; rental of well drilling tools used in connection with irrigation services and oil and gas exploration and production.

39 – Waste oil collection for recycling; transportation and physical storage of captured carbon dioxide for others; distribution of electricity from geothermal power; and storage and distribution of hydrogen gas; transportation logistics services, namely, planning and scheduling the transport of drilling rigs and vessels used in oil and gas exploration and production.

40 – Perforating services in connection with the oil and gas industries; generating electricity from geothermal energy; carbon capture for others using direct capture technology, absorption, adsorption, chemical looping, membrane gas separation, and gas hydration; and gas production services, namely hydrogen production.

41 – Educational services, namely, conducting classes, seminars, conferences, and workshops in the fields of oil and gas exploration, measurement, detection, and production, geothermal resources, water management, storage and containment of carbon dioxide, and environmental issues and distribution of course material in connection therewith.

42 – Providing information, news and commentary in the fields of oil and gas exploration; technical support services, namely, troubleshooting of computer software problems used in the fields of oil and gas exploration and production; updating of computer software for others; providing technical information updates of computer software used in the fields of oil and gas exploration and production; computer software consultation; consultation services in the fields of selection, testing, implementation and use of computer hardware and software systems for others; providing online information in the fields of computer software used in the fields of oil and gas exploration and production; testing, analysis, and evaluation of hydrocarbon properties of oil and gas reserves; providing measurements and downhole telemetry while drilling; engineering services in the field of environmental compliance; conducting environmental wellbore survey services in the field of oil and gas exploration and production, geothermal resources, water management, and storage and containment of carbon dioxide industries; oil and gas well logging and testing services; inspection services, namely, inspection of oil and gas well fields and detection of leaks in oil and gas well structures and operations thereof; sampling services, namely sampling of oil and gas for quality analysis purposes; performing oil and gas well diagnostics; oil and gas well surveying; surveying of oil-bearing seams; non-medical ultrasound imaging services in connection with oil and gas exploration; conducting

magnetic resonance imaging interpretation and analysis for the oil and gas industries; computer modeling services, namely, computer simulation of drilling processes and operation of facilities used in oil and gas exploration and production; engineering, modeling, and designing of wells and drilling parameters, namely, models or plans for constructing and operating facilities for oil and gas wells in connection with drilling; software as a service (SAAS) services featuring software for use in optimization of oil and gas exploration and production solutions, including cloud based solutions, software-as-a-service solutions, machine learning, artificial intelligence, and on-premise solutions; design of seismic acquisition parameters, namely, models or plans for acquiring seismic data used in connection with oil and gas drilling operations; rental of extended well testing facilities for others to allow production of oil and gas while full field development is being planned and permanent facilities are being built; subterranean oil well testing services for use in connection with subterranean oil well drilling operations; engineering services in connection with the selection and use of specialized equipment for subterranean well drilling operations; oil well testing, namely providing oil well pressure control testing services for others in the oil and gas industries; oil and gas exploration; engineering services in connection with exploring and developing geothermal resources, water management, and carbon dioxide storage and containment; consulting services in the field of research and development in the field of geothermal energy, namely geothermal resources, water management, and carbon dioxide storage and containment; rental of computer software for data processing and use in connection with exploring and developing geothermal resources, water management, and carbon dioxide storage and containment; engineering services in the field of carbon capture and storage; research and development in the field of carbon capture and storage; engineering services in the field of lithium extraction; research and development in the field of lithium extraction; engineering services in the field of geothermal power production and distribution; research and development in the field of geothermal power production and distribution; engineering services in the field of hydrogen production, storage and distribution; research and development in the field of hydrogen production, storage and distribution; and software as a service (SAAS) services featuring computer software to process data used for oil and gas exploration and production in locating, evaluating and producing hydrocarbons.

9 – Electric accumulators; electric accumulators for vehicles; starter accumulators, designed as the sealed accumulator type (without servicing), as well as the accumulator with servicing type, requiring regular control of the electrolyte level, enabling distilled water to be added; lead acid batteries for starting motor vehicles for loading and for loading heavy equipment, as well as for machines intended for road construction; standard (traditional) WET accumulators, particularly lead-calcium accumulators (PbCa, PbSn, PbCaAg), filled with a liquid electrolyte of sulfuric acid, designed as the type of accumulators enabling distilled water to be added; AGM accumulators, including lead-calcium accumulators (PbCa) with a glass separator, impregnated with sulfuric acid, designed as the type of accumulators with no servicing; GEL accumulators, including lead-calcium (PbCa) accumulators, filled with an electrolytic solution in the nature of gel, based on sulfuric acid mixed with silica powder; AGM dry accumulators designed to be installed in confined and sloping spaces (any angle, including 90°); acid-lead accumulator batteries, designed on the basis of "wet cells" of the SLI type (starter batteries) and the type of those with a deep cycle and/or with a regulated valve (VRLA); EFB accumulators for automatic starting of the engine, particularly designed for cars applying mainly the "start and stop" system without recuperation; accumulators for buses and coaches; accumulators for automobiles-taxis and for special use vehicles; batteries for farming equipment; batteries for railway-engine equipment; batteries for starting passenger automobiles; starter batteries for piston engines and/or for auxiliary turbines, for use in aeronautics, particularly for cadmium nickel accumulators, hydride nickel accumulators, zinc-silver accumulators, lithium-ion accumulators (Li-Ion) and lithium polymer accumulators (LiPo); accumulators for use in starter batteries of the lithium-iron-phosphate (LiFePO₄) type; lithium-iron-phosphate batteries (LFP batteries), supporting thermal chain reactions; batteries for use as a secondary chemical power source in a design of the nickel-cadmium (NiCd) battery type, nickel chloride (Ni-NaCl) and nickel metal hydride (NiMH) used exclusively to power portable power tools, photographic equipment, flashlights, radio-controlled electronic modules and portable apparatus; lithium iron phosphate elements for battery systems for use in aerospace, marine, submarine and automobile applications; accumulator batteries with lithium systems for special accumulator batteries with lithium systems for special business applications – scooters and motorcycles; stationary batteries intended for tele-

communications for emergency power for telephone exchanges, for equipment for the transmission of messages and voice data, for mobile and fixed communication systems, for radio and television systems and for transmitters and relay stations; UPS system batteries intended for electrical power stations, industrial sites, production companies, data storage centers, hospitals, banks and shopping centers, signaling and navigation systems; stationary batteries, intended for use in work in difficult use conditions with high working temperatures, for hybrid and cyclical applications in remote sites and in areas of frequent power cuts; batteries for storing energy from renewable energy sources; cyclic application batteries intended for use in AGM technology; traction accumulators; MVR traction batteries designed for a continuous load and discharge for a direct current supply time; traction batteries, for use in solar systems; semi-traction batteries intended for sites requiring a constant and sustainable electricity supply; special batteries intended for tanks and armored machines, compliant with NATO standards; batteries intended for motor boats, river boats, camping vans, pleasure boats and caravans; accumulators specifically for use in golf carts; ignition batteries; ignition devices, electric, for remote ignition; electric apparatus for commutation; inverters [electricity]; solar inverters of the on-grid type and the off-grid type; hybrid solar inverters; inverters for solar panels; solar elements; commutators; electric converters; outdoor hybrid modular energy storage systems of metal (Hybrid Energy Storage – HES), designed as having battery cabinets and cabinets for on-grid and off-grid operated converters; standard input and output modules and explosion-proof modules with a converter for energy storage; modular systems for the storage of domestic energy; local area modular systems for storing energy in the network, for particular use for regulating voltage in low voltage networks up to a predetermined value; modular energy storage systems for regulating frequency in the network; industrial modular energy storage systems for network stabilization and maximum load restriction in virtual networks; panels, control panels [electricity]; modular battery systems for off-road mobile equipment, particularly excavators with diesel generators, fork lift trucks, crawler robots, mining vehicles and other similar heavy machinery and vehicles; accumulator boxes; accumulator jars; anode batteries; acidimeters for accumulators; high-voltage batteries; ignition batteries; batteries for pocket lamps; electric batteries for vehicles; electric cells (batteries); electronic cigarette batteries; galvanic batteries; plates for batteries, including, grids for batteries; solar batteries; solar panels for electricity production; charging stations for electric vehicles; cell and battery chargers; apparatus for charging electric accumulators; chargers for electronic cigarettes; chargers for mobile telephones.

37 – Charging accumulators; installation, servicing and repair of electrical energy storage systems; servi-

cing electrical energy storage systems via remote monitoring systems; installing solar cells and modules; installation of solar power systems; providing information in the field of repair work related to electrical energy storage systems; rental of chargers; rental of portable chargers; charging of electric vehicles.

42 – Engineering; technical supervision [engineering]; research and development of new products for third parties and more specifically in the field of systems comprising apparatus and devices for switching, transforming, accumulating and storing electrical energy; engineering and scientific services relating to the development and creation of new electric accumulators in relation to the field of application thereof according to latest scientific discoveries and with a view to implementing new technologies in the field of manufacturing and operating accumulators and modular electrical energy storage systems; consultancy in the field of energy-saving; studies in the field of energy storage systems; technological consultancy in the field of energy storage systems based on electric batteries in connection with practical solutions for optimizing and reducing energy costs.

9 – Operating computer software for main frame computers; monitors (computer hardware); computer hardware; apparatus for recording images; monitors (computer programs); computer game programs; recorded computer game programs; apparatus for recording, transmission or reproduction of sound or images; communications servers (computer hardware); electronic components for gambling machines; computer application software featuring games and gaming; computer software for the administration of on-line games and gaming; computer hardware for games and

gaming; hardware and software for gambling, gambling machines, gambling games on the Internet and via telecommunication network; computer systems; computer operating system software; computer terminals; interactive terminals; multimedia terminals; electronic terminals for generating lottery tickets; interactive touch screen terminals; computer touchscreens; electronic display panels; liquid crystal display screens; digital signage display panels; multimedia software; multimedia apparatus and instruments; interactive multimedia software for playing games; computer screens; lcd large-screen displays; liquid crystal displays [lcds] for home theatres; media streaming software; computer application software for streaming audio-visual media content via the Internet; software; computer gaming software; computer software packages; computer operating system software; computer software, recorded; software drivers; virtual reality software; games software; entertainment software for computer games; computer programs for network management; electronic lottery tickets; computer software platforms; operating systems; interactive computer systems; operating system programs; computer game software for use with on-line interactive games; interactive casino games provided through a computer or mobile platform; software for slot machines, betting software, software for video slot games, for casino games, for gambling and bingo games, provided online or through computer networks and that can be played on any type of computer device, including arcade games, personal computers, portable devices and mobile phones; automated ticket printing apparatus; automatic ticket dispensing machines; lottery ticket dispensing apparatus; electronic ticket examination machines.

28 – Gaming machines for gambling; chips for gambling; mah-jong; arcade games; gambling machines operating with coins, notes and cards; games; electronic games; parlor games; gaming chips; gaming tables; slot machines [gaming machines]; LCD game machines; slot machines and gaming devices; coin-operated amusement machines; roulette chips; poker chips; chips and dice [gaming equipment]; gaming equipment for casinos; roulette tables; gaming roulette wheels; casino games; gambling machines and amusement machines, automatic and coin-operated; coin-operated amusement machines and/or electronic coin-operated amusement machines with or without the possibility of gain; boxes for coin-operated amusement machines, slot machines and gaming machines; electronic or electrotechnical amusement machines and apparatus, gaming machines, coin-operated entertainment machines; housings for coin-operated amusement machines, gaming equipment, gaming machines, machines for gambling; electropneumatic and electrical gambling machines (slot machines); lottery games; electronic targets for games and sports; parlor game equipment and accessories not included in other classes, in particular tokens, chips, marbles; parlor ga-

mes, apparatus, equipment and accessories therefor, not included in other classes, in particular electronic targets, backgammon, scratch cards, playing cards, lottery cards, dice; lottery tickets; printed lottery tickets; lottery scratch cards; scratch cards for playing lottery games.

41 – Gambling; services related to gambling; gaming services for entertainment purposes; casino, gaming and gambling services; training in the development of software systems; provision of gaming equipment for gambling halls; providing casino equipment [gambling]; gaming machine entertainment services; providing casino facilities [gambling]; amusement arcade services; games equipment rental; rental of gaming machines; providing amusement arcade services; rental of gaming machines with images of fruits; editing or recording of sounds and images; sound recording and video entertainment services; hire of sound reproducing apparatus; provision of gaming equipment for casinos; providing of casino facilities; online gambling services; casino management services; services related to operation of amusement arcades, on-line casinos and on-line betting websites; online interactive entertainment; on-line casino services; online game services through mobile devices; providing online entertainment in the nature of game tournaments; providing on-line information in the field of computer gaming entertainment; sports betting services; online sports betting services; lottery services; organization of lotteries; conducting lotteries; prize draws [lotteries]; conducting lotteries for others; providing slot machine parlors; rental of slot machines [gaming machines].

9 – Electric accumulators; electric accumulators for vehicles; starter accumulators, designed as the sealed accumulator type (without servicing), as well as the accumulator with servicing type, requiring regular control of the electrolyte level, enabling distilled water to be added; lead acid batteries for starting motor vehicles for loading and for loading heavy equipment, as well as for machines intended for road construction; standard (traditional) WET accumulators, particularly lead-calcium accumulators (PbCa, PbSn, PbCaAg), filled with a liquid electrolyte of sulfuric acid, designed as the type of accumulators enabling distilled water to be added; AGM accumulators, including lead-calcium accumulators (PbCa) with a glass separator, impregnated with sulfuric acid, designed as the type of accumulators with no servicing; GEL accumulators, including lead-calcium (PbCa) accumulators, filled with an electrolytic solution in the nature of gel, based on sulfuric acid mixed with silica powder; AGM dry accumulators designed to be installed in confined and sloping spaces (any angle, including 90°); acid-lead accumulator batteries, designed on the basis of "wet cells" of the SLI type (starter batteries) and the type of those with a deep cycle and/or with a regulated valve (VRLA); EFB accumulators for automatic starting of the engine, particularly designed for cars applying mainly the "start and stop" system without recuperation; accumulators for buses and coaches; accumulators for automobiles-taxis and for special use vehicles; batteries for farming equipment; batteries for railway-engine equipment; batteries for starting passenger automobiles; starter batteries for piston engines and/or for auxiliary turbines, for use in aeronautics, particularly for cadmium nickel accumulators, hydride nickel accumulators, zinc-silver accumulators, lithium-ion accumulators (Li-Ion) and lithium polymer accumulators (LiPo); accumulators for use in starter batteries of the lithium-iron-phosphate (LiFePO₄) type; lithium-iron-phosphate batteries (LFP batteries), supporting thermal chain reactions; batteries for use as a secondary chemical power source in a design of the nickel-cadmium (NiCd) battery type, nickel chloride (Ni-NaCl) and nickel metal hydride (NiMH) used exclusively to power portable power tools, photographic equipment, flashlights, radio-controlled electronic modules and portable apparatus; lithium iron phosphate elements for battery systems for use in aerospace, marine, submarine and automobile applications; accumulator batteries with lithium systems for special accumulator batteries with lithium systems for special business applications – scooters and motorcycles; stationary batteries intended for telecommunications for emergency power for telephone exchanges, for equipment for the transmission of messages and voice data, for mobile and fixed communication systems, for radio and television systems and

for transmitters and relay stations; UPS system batteries intended for electrical power stations, industrial sites, production companies, data storage centers, hospitals, banks and shopping centers, signaling and navigation systems; stationary batteries, intended for use in work in difficult use conditions with high working temperatures, for hybrid and cyclical applications in remote sites and in areas of frequent power cuts; batteries for storing energy from renewable energy sources; cyclic application batteries intended for use in AGM technology; traction accumulators; MVR traction batteries designed for a continuous load and discharge for a direct current supply time; traction batteries, for use in solar systems; semi-traction batteries intended for sites requiring a constant and sustainable electricity supply; special batteries intended for tanks and armored machines, compliant with NATO standards; batteries intended for motor boats, river boats, camping vans, pleasure boats and caravans; accumulators specifically for use in golf carts; ignition batteries; ignition devices, electric, for remote ignition; electric apparatus for commutation; inverters [electricity]; solar inverters of the on-grid type and the off-grid type; hybrid solar inverters; inverters for solar panels; solar elements; commutators; electric converters; outdoor hybrid modular energy storage systems of metal (Hybrid Energy Storage – HES), designed as having battery cabinets and cabinets for on-grid and off-grid operated converters; standard input and output modules and explosion-proof modules with a converter for energy storage; modular systems for the storage of domestic energy; local area modular systems for storing energy in the network, for particular use for regulating voltage in low voltage networks up to a predetermined value; modular energy storage systems for regulating frequency in the network; industrial modular energy storage systems for network stabilization and maximum load restriction in virtual networks; panels, control panels [electricity]; modular battery systems for off-road mobile equipment, particularly excavators with diesel generators, fork lift trucks, crawler robots, mining vehicles and other similar heavy machinery and vehicles; accumulator boxes; accumulator jars; anode batteries; acidimeters for accumulators; high-voltage batteries; ignition batteries; batteries for pocket lamps; electric batteries for vehicles; electric cells (batteries); electronic cigarette batteries; galvanic batteries; plates for batteries, including, grids for batteries; solar batteries; solar panels for electricity production; charging stations for electric vehicles; cell and battery chargers; apparatus for charging electric accumulators; chargers for electronic cigarettes; chargers for mobile telephones.

37 – Charging accumulators; installation, servicing and repair of electrical energy storage systems; servicing electrical energy storage systems via remote monitoring systems; installing solar cells and modules; installation of solar power systems; providing information in the field of repair work related to elec-

trical energy storage systems; rental of chargers; rental of portable chargers; charging of electric vehicles.

42 – Engineering; technical supervision [engineering]; research and development of new products for third parties and more specifically in the field of systems comprising apparatus and devices for switching, transforming, accumulating and storing electrical energy; engineering and scientific services relating to the development and creation of new electric accumulators in relation to the field of application thereof according to latest scientific discoveries and with a view to implementing new technologies in the field of manufacturing and operating accumulators and modular electrical energy storage systems; consultancy in the field of energy-saving; studies in the field of energy storage systems; technological consultancy in the field of energy storage systems based on electric batteries in connection with practical solutions for optimizing and reducing energy costs.
