# INID CODES FOR IDENTIFICATION OF BIBLIOGRAPHIC DATA

## INVENTIONS, UTILITY MODELS

- (10) Number of publication for application, which has been examined
- (11) Number of patent and kind of document
- (21) Serial number of application
- (22) Date of filing of the application
- (23) Date of exhibition or the date of the earlier filing and the number of application, if any
- (24) Date from which patent may have effect
- (31) Number of priority application
- (32) Date of filing of priority application
- (33) Code of the country or regional organization allotting priority application number
- (44) Date of publication of application not granted, but examined and number of bulletin
- (45) Date of publication of registered document
- (51) International Patent Classification Index

- (54) Title of the invention
- (57) Abstract
- (60) Number of examined patent document granted by foreign patent office, date from which patent has effect and country code
- (62) Number of the earlier application and in case of divided application, date of filing an application
- (71) Name, surname and address of applicant (country code)
- (72) Name, surname of inventor (country code)
- (73) Name, surname and address of patent owner (country code)
- (74) Name, surname of representative or patent attorney
- (85) Date of commencement of the national phase of International Application
- (86) Number and date of filing of international application
- (87) Number and date of publication of international application
- (94) Calculated date of expiry of the SPC or the duration of the SPC

## DESIGNS

- (10) Number of publication for application
- (11) Number of patent and kind of document or number of registration
- (15) Date of registration/Date of patent renewal
- (18) Expected expiration date of patent or registration
- (21) Serial number of application
- (22) Date of filing of the application
- (23) Date of exhibition or the date of the earlier filing and the number of application, if any
- (24) Date from which patent may have effect
- (28) Number of designs included in the application
- (30) Data relating to priority (number of application, date of filing of application, two-letter code identifying the authority with whom the priority application was made)
- (31) Number of priority application
- (32) Date of filing of priority application
- (33) Code of the country or regional organization allotting priority application number
- (34) Two-letter code according to WIPO St.3 identifying the authority with which the priority application was made
- (44) Date of publication of design and number of bulletin (the first publication)
- (45) Date of publication of design registered by WIPO and number of bulletin

- (51) International Classification for designs (class and subclass of the Locarno Classification)
- (54) Title of the invention
- (55) Reproduction of the design
- (57) Description of characteristic features of the design including indication of colors
- (58) Date of recording of any kind of amendment in the Register
- (62) Number of the earlier application, registration and document number and if available the date of filing an application in case of divided application
- (71) Name, surname and address of applicant (country code)
- (72) Name, surname of creator (country code)
- (73) Name, surname and address of patent owner (country code)
- (74) Name, surname of representative or patent attorney
- (81) Contracting states concerned
  - II designated contracting states according to the 1960 Act
  - III designated contracting states according to the 1999 Act
- (85) Owner's permanent address
- (86) Owner's nationality
- (87) Owner's residence
- (88) State in which the owner has a real and effective industrial or commercial establishment

## TRADEMARKS

- (111) - Number of registration
- (151) - Date of registration
- (156) - Date of the renewal
- (181) - Expected expiration date of registration
- (186) - Renewal expiration date of registration
- (141) - Date of cancel of duration of the mark
- (210) - Serial number of application
- (220) - Date of filing of the application
- (230) - Data concerning exhibition
- (260) - Number of application, for which favorable decision of examination about registration has been taken (publication number)
- (310) - Number of the first application
- (320) - Date of filing of the first application
- (330) - Code, identifying national or regional Office where the first application was made
- (511) - International Classification of Goods and Services for the purposes of registration of trade marks and/or list of goods and/or services classified according thereto
- (526) - Disclaimer
- (531) - Description of figurative elements of Trade Marks according to the International Classification of the Figurative Elements of Marks

- (540) - Reproduction of Trade Mark
- (550) - Nature and kind of Trade Mark
- (551) - Indication to the effect that the mark is a collective mark, a certification mark or a guarantee mark
- (554) - Three-dimensional mark
- (580) - Date of recording of any kind changes in respect of applications or registrations
- (591) - Information concerning colors claimed
- (731) - Name and address of the applicant
- (732) - Name and address of the holder of the registration
- (740) - Name and address of the representative
- (750) - Addreses for correspondence
- (770) - Name and address of the previous applicant or holder in case of change in ownership
- (771) - Previous name and address of the applicant or holder in case of change in ownership
- (791) - Name and address of the licensee
- (793) - Indication of conditions and/or restrictions under the license (Type of license, number of license agreement, data of license, data of validity of license)

(54) WORKING MEDIUM PROPERTY DIFFERENCE POWER GENERATION SYSTEM AND WORKING MEDIUM PROPERTY DIFFERENCE POWER GENERATION METHOD THAT USES THE POWER GENERATION SYSTEM

(57) A system uses natural heat energy as a source of heat for the working medium and contains first working medium line (L1) that circulates first working medium (W1), first heat exchanger (1A), first thermal engine (2A), and a first power generator (3A), it is also equipped with second medium line (L2) that circulates second working medium (W2), second heat exchanger (1B), third working medium (W3) supply device (5) that supplies third working medium (W3) in mixing device (6) with second thermal engine (2B) and second power generator (3B). On both of downstream side of first thermal engine on first working medium line and a downstream side of second thermal engine on second working medium line the third heat exchanger (1C) is included. Also included is third working medium discharge device (10) for discharging third working medium to the third heat exchanger.

(54) METHOD FOR DOUGH PRODUCTION FOR  
BAKING BREAD WITHOUT YEAST

(57) A method provides mixing of carbon dioxide gas/water solution, under the pressure of 5-10 bar, with white flour, and dough kneading under the pressure of 5-10 bar in dough kneading machine; then, making free the machine from the pressure, as a result whereof the carbon dioxide becomes free from the water, bubbles appear in the dough and it is puff. As gas pressure is more at dough preparation, as large bubbles are appear, and the dough is more puff. Sparkling water (water/carbon dioxide solution) addition onto the dough placed in the kneading machine can be provided by means of two methods: sparkling water is prepared in the separate machine, and then it is added into kneading machine, by one method, and water and gas are sprayed, under pressure of 5-10 bar, in the kneading machine, by another method.

7 – Machines, namely crushing, mixing, homogenising and de-aeration machines and mills for the food industry, the luxury foods, alcohol and tobacco industry, the paint and lacquer industries, and for the ceramic, chemical, pharmaceutical, cosmetic, textile and rubber industries; machine tools and tools therefore; parts and fittings for the aforesaid machines and machine tools, included in this class; machines and apparatus for producing, processing, treating and preparing of foodstuffs and beverages, and cosmetic, pharmaceutical and chemical bases, intermediates and end products, and parts and fittings for the aforesaid machines and apparatus, included in this class; machines and apparatus for the painting and varnishing, ceramic, chemical, pharmaceutical, cosmetic, textile and rubber industry, and for use for chemical and/or biological reactions and powder processing, and parts and fittings for the aforesaid machines and apparatus, included in this class; machines and apparatus for processing and treating, in particular for peeling, comminuting, cutting, chopping, crushing, pureeing, milling, separating, breaking, stirring, mixing, blending, kneading, beating, conching, homogenising, negative and positive pressure treating, aerating, dispersing, emulsifying and preparing of foodstuffs, and parts and fittings of the aforesaid machines and apparatus, included in this class; machines and apparatus for processing and treating, in particular for peeling, comminuting

ting, cutting, chopping, crushing, pureeing, milling, separating, breaking, stirring, mixing, blending, kneading, beating, conching, homogenising, negative and positive pressure treating, aerating, dispersing, emulsifying and preparing of cosmetic, pharmaceutical and chemical bases, intermediates and end products, and parts and fittings for the aforesaid machines and apparatus, included in this class; installations consisting of machines for manufacturing, treating, processing and preparing foodstuffs, food and beverages, and cosmetic, pharmaceutical and chemical raw materials, intermediate products and end products, and parts and fittings for the aforesaid installations, included in this class; feeding machines, dispensing machines, spraying machines, bottling machines, filling machines, decanting machines, settling machines, inserting machines, turning machines, packaging machines, pumps, mills, filtering machines, separators and centrifuges, included in this class, and parts and fittings for the aforesaid machines, included in this class; butchers' machines, bakery and patisserie machines, machines for the bread and baked goods industry, machines for the fish industry, machines for making prepared food (ready-to-cook, ready-to-bake, ready-to-infuse/ready-to-mix, ready-to-make or ready-to-eat) and delicatessen food, machines for the milk industry and machines for the confectionery and chocolate industry, and parts and fittings for the aforesaid machines, included in this class; food preparation machines, machines for making sauces, pastes, creams and spices, and electromechanical machines for cosmetics, pharmacy and chemical industry, and parts and fittings for the aforesaid machines, included in this class; electromechanical machines and apparatus for making foodstuffs and beverages for industrial kitchens and mass catering, included in this class, and parts and fittings for the aforesaid machines, included in this class; motors and engines (except for land vehicles); machine coupling and transmission components (except for land vehicles); agricultural implements other than hand-operated; heat exchangers (parts of machines); valves; replacement parts for all the aforesaid goods, included in this class.

9 – Apparatus and instruments for conducting, switching, transforming, accumulating, regulating, storing or controlling electricity; electronic and electric controls and computer hardware and software for control of machines and apparatus for producing, processing, treating and preparing of foodstuffs and beverages, and cosmetic, pharmaceutical and chemical bases, intermediates and end products, and installations therewith and consisting thereof; electronic and electric controls and computer hardware and software for control of machines and apparatus for the paint and lacquer, the ceramic, chemical, pharmaceutical, cosmetic, textile and rubber industries, and for use for chemical and/or biological reactions and powder processing; electronic and electric controls and computer hardware and software for control of cooking, heating,

cooling and other thermal treatment apparatus and equipment, warming, heating, cooking, refrigerating and freezing machines and apparatus, ovens, air conditioning apparatus, heat exchangers, heat accumulators, heat collectors, heat regenerators, heat generating apparatus, lighting installations, devices, apparatus, lamps, regulators and meters, and installations therewith and consisting thereof; electronic and electric controls and computer hardware and software for control of electromechanical machines and apparatus for preparing of foodstuffs and beverages for industrial kitchens and mass catering; electronic and electric controllers and computer hardware and software for controlling sterilising apparatus and sterilising installations, drying apparatus and installations, pasteurising apparatus and installations, steam generators, burners, humidifying installations and microwave ovens; energy regulators; apparatus and instruments for switching, transforming, accumulating, regulating or conducting energy; monitoring and control apparatus and systems consisting thereof for the status, operation and management of machines and apparatus for producing, processing, treating and preparing of foodstuffs and beverages, and cosmetic, pharmaceutical and chemical bases, intermediates and end products, comprising computer software, computer hardware, sensors, transmitters and receivers, included in this class; computer hardware and software for receiving, storing, processing, transmitting and display of data; computer hardware and software for monitoring and controlling the status, operation and management of machines and apparatus for producing, processing, treating and preparing of foodstuffs and beverages, and cosmetic, pharmaceutical and chemical bases, intermediates and end products, both on-site and remote, included in this class; fault recorders and fault storage devices for recording and storing of data resulting from monitoring and control of machines and apparatus for producing, processing, treating and preparing of foodstuffs and beverages, and cosmetic, pharmaceutical and chemical bases, intermediates and end products, included in this class; electric and electronic sensors for measuring data for monitoring and control of the status, operation and management of machines and apparatus for producing, processing, treating and preparing of foodstuffs and beverages, and cosmetic, pharmaceutical and chemical bases, intermediates and end products, included in this class; vibration sensors; electric sensors; gas sensors for measuring gas concentration; industrial calibration sensors; fluid sensors for measuring fluid characteristics; liquid level sensors; humidity sensors; flowability sensors; fluid resistance sensors; optical sensors; photoelectric sensors; pressure sensors; proximity sensors; sensors for determining conductivity, temperature, position, distance, speed and acceleration; timing sensors; ultrasound sensors; safety equipment for machines and apparatus for producing, processing, treating and preparing of foodstuffs and beverages, and cosmetic, phar-

maceutical and chemical bases, intermediates and end products, namely safety sensors and cameras; environmental monitoring systems, comprising meters and sensors for measuring pressure, moisture and temperature, and alarm and reporting functions; heat sinks and refrigerating apparatus for electronic and electric controls, control modules, apparatus, circuits and switches, and for measuring apparatus; temperature regulators for electronic and electric controllers, control modules, apparatus, circuits and switches, and for measuring apparatus; electric light regulators, electric light regulators and light meters; replacement parts for all the aforesaid goods, included in this class.

11 – Warming, heating, cooking, refrigerating and freezing machines and apparatus for producing, processing, treating and preparing of foodstuffs and beverages, and cosmetic, pharmaceutical and chemical bases, intermediates and end products, and parts and fittings for the aforesaid machines and apparatus, included in this class; installations, consisting of machines for warming, heating, cooking, refrigerating and freezing of foodstuffs and beverages, and cosmetic, pharmaceutical and chemical bases, intermediates and end products; warming, heating, cooking, refrigerating and freezing machines and apparatus for meat and sausage production, meat and sausage processing, vegetable processing, fruit processing, cereal processing, processing milk products, pastry and confectionery production, bread and baked goods production, and parts and fittings for the aforesaid machines and apparatus, included in this class; warming, heating, cooking, refrigerating and freezing machines and apparatus for fish processing and production of prepared food (ready-to-cook, ready-to-bake, ready-to-infuse/ready-to-mix, ready-to-make or ready-to-eat) and delicatessen food, confectionery and chocolate goods, food and foodstuff production, sauce, paste, cream and spice production, and production of cosmetics, pharmaceuticals and chemicals, and parts and fittings for the aforesaid machines and apparatus, included in this class; ovens for producing, processing, treating and preparing of foodstuffs and beverages, and cosmetic, pharmaceutical and chemical bases, intermediates and end products, and parts and fittings for the aforesaid machines and apparatus, included in this class; apparatus and equipment for cooking, heating, cooking and otherwise thermally treating foodstuffs and beverages, included in this class; sterilisers and sterilizing installations; drying apparatus and installations; pasteurisers; steam generating apparatus; burners; installations for humidifying; heat exchangers, other than parts of machines; heat accumulators; heat accumulators; heat regenerators; heat generating apparatus; microwaves; cool-

ing elements; coils as parts of cooling installations; cooling evaporators; heat sinks for refrigerating apparatus, ventilating apparatus and heating apparatus; cooling fans; commercial refrigeration units; industrial cooling installations; cooling tanks for furnaces; apparatus and installations for cooling gases and liquids; separators for removing condensation by refrigeration; refrigerating machines; refrigerant condensers; lighting devices, apparatus and lamps; computerised lighting installations, devices and apparatus; filters and colour filters for lighting; louvres for light deflection; diffusers being parts of lighting installations; reflectors for luminaires; suspension rails [not electrified] for electrical lighting fixtures; replacement parts for all the aforesaid goods, included in this class.

35 – Consultancy and preparation of expert opinions for commercial purposes using a process technology centre, business feasibility studies, consultancy and preparation of expert opinions for commercial purposes for product transfer, commercial scale-up, commercial analytics and product evaluation; commercial optimisation of existing processes and products, commercial development of new processes and products; commercial energy and resource management; commercial consultancy and support for procuring apparatus, machines, systems and plants; cost price analysis; business inquiries; business management and organization consultancy; business management consulting; procurement services for others [purchasing goods and services for other businesses]; professional business consulting; relocation services for businesses; development of usage concepts for manufacturing equipment from a professional business perspective (facility management); business investigation; compilation of statistics; drawing up of business expert reports; market research; marketing studies; opinion polling; business research; public relations services; organization of exhibitions for commercial or advertising purposes; business organisation consulting; organisational consultancy; organisational project management in the field of production, apparatus, machines, equipment and plants, logistics; outsourcing services [business assistance]; planning and monitoring of business developments with regard to organisational matters; presentation of companies on the Internet and other media; price comparison services; news clipping services; business consultancy and advisory services; business administration; organisation of trade fairs for commercial or advertising purposes; consumer consultancy; sales promotion for others; arranging of trading and economical contacts, also over the Internet; arranging commercial transactions for third parties, also within the framework of e-commerce; arranging of contracts for others for the buying and selling of goods; arranging of contracts, for others, for the providing of services; advertising; computerized file management; computerized file management; data search in computer files for others; systemization of information into computer databases; compilation of infor-

mation into computer databases; trading in, and negotiation of contracts relating to the purchase and sale of used apparatus, machines, equipment and plants, namely machines and apparatus for manufacturing, treating, processing and preparing foodstuffs, food and beverages, and cosmetic, pharmaceutical and chemical raw materials, intermediate products and end products, machines and apparatus for the painting and varnishing, ceramic, chemical, pharmaceutical, cosmetic, textile and rubber industry, and for use for chemical and/or biological reactions and powder processing, installations consisting of machines for manufacturing, treating, processing and preparing foodstuffs, food and beverages, and cosmetic, pharmaceutical and chemical raw materials, intermediate products and end products, apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, apparatus and instruments for switching, converting, accumulating, regulating and controlling energy, warming, heating, cooking, refrigerating and freezing machines and apparatus for manufacturing, treating, processing and preparing foodstuffs, food and beverages, and cosmetic, pharmaceutical and chemical raw materials, intermediate products and end products, installations consisting of machines for warming, heating, cooking, refrigerating and freezing foodstuffs, food and beverages, and cosmetic, pharmaceutical and chemical raw materials, intermediate products and end products, and air conditioning apparatus and installations for manufacturing, treating, processing and preparing foodstuffs, food and beverages, and cosmetic, pharmaceutical and chemical raw materials, intermediate products and end products.

37 – Assembly, installation, inspection in the context of maintenance and repair, maintenance, repair and retrofitting of apparatus and installations for conducting, switching, transforming, accumulating, regulating or controlling electricity, and apparatus and instruments for switching, converting, accumulating, regulating and controlling energy; assembly, installation, inspection in the context of maintenance and repair, maintenance, repair and retrofitting of machines and apparatus for manufacturing, treating, processing and preparing foodstuffs, food and beverages, and cosmetic, pharmaceutical and chemical raw materials, intermediate products and end products, of installations consisting thereof and comprising the aforesaid, and machine tools and tools therefor; assembly, installation, inspection in the context of maintenance and repair, maintenance, repair and retrofitting of cooking, heating, refrigerating and other thermal treatment apparatus and equipment, warming, heating, cooking, refrigerating and freezing machines and apparatus, stoves (heating apparatus), air conditioning apparatus, heat exchangers, heat accumulators, heat collectors, heat regenerators, heat generating apparatus, lighting installations, devices, apparatus, lamps, regulators and light meters, and of installations consisting thereof

and comprising the aforesaid; assembly, installation, inspection in the context of maintenance and repair, maintenance, repair and retrofitting of sterilising apparatus and sterilising equipment, drying apparatus and equipment, pasteurising apparatus and equipment, steam generators, burners, humidifying equipment, and microwave ovens; assembly, installation, inspection in the context of maintenance and repair, maintenance, repair and retrofitting of electromechanical machines and apparatus for preparing foodstuffs and beverages for industrial kitchens and mass catering; assembly, installation, inspection in the context of maintenance and repair, maintenance, repair and retrofitting of feeding machines, dispensing machines, spraying machines, bottling machines, filling machines, decanting machines, settling machines, inserting machines, turning machines, packaging machines, pumps, mills, filtering machines, separators and centrifuges; assembly, installation, inspection in the context of maintenance and repair, maintenance, repair and retrofitting of butchers' machines, bakery and patisserie machines, machines for the bread and baked goods industry, machines for the fish industry, machines for making prepared food (ready-to-cook, ready-to-bake, ready-to-infuse/ready-to-mix, ready-to-make or ready-to-eat) and delicatessen food, machines for the milk industry, machines for the confectionery and chocolate industry, machines for manufacturing prepared food products; assembly, installation, inspection in the context of maintenance and repair, maintenance, repair and retrofitting of machines for manufacturing sauces, pastes, creams and spices, and machines for use in cosmetics, pharmacy and chemistry, and parts and fittings for the aforesaid machines; assembly, installation, inspection in the context of maintenance and repair, maintenance, repair and retrofitting of machines and apparatus for the painting and varnishing, ceramic, chemical, pharmaceutical, cosmetic, textile and rubber industry, and for use for chemical and/or biological reactions and powder processing; assembly, installation, inspection in the context of maintenance and repair, maintenance, repair and retrofitting of motors and engines, except for land vehicles, machine coupling and transmission components, except for land vehicles, agricultural implements, other than hand-operated, machine tools and tools therefor.

41 – Translation and interpretation; providing of training and further training, education, distance learning courses, correspondence courses, courses, training courses and workshops (training), including for conducting and assisting with IQ (installation qualification) and OQ (operational qualification), on site, in-house, mobile, in a training centre, online and via multimedia devices; coaching; consultancy in relation to and organisation, arranging and conducting of exhibitions for training and further training, and for educational purposes, colloquiums, conferences, congresses, seminars, courses, symposiums, training co-

urses and workshops (training); providing of non-downloadable electronic publications, including technical and operating instructions, magazines (periodicals) and books in electronic form, including on the Internet and on intranets; electronic desktop publishing; digital image processing (photograph editing) and digital writing and publication of texts, other than for advertising purposes; layout services, other than for advertising purposes; creating and editing of sound and video recordings and productions; writing of text, image and film documentation and reports, other than for advertising purposes; writing of technical and operating instructions.

42 – Engineering, technological services, technical analysis, research and development in the fields of mechanical engineering, electrical engineering, control technology, process technology, physics, foodstuff and food technology, chemistry, pharmacy, cosmetics, biology, bacteriology, hygiene, agriculture, horticulture, animal husbandry, sound insulation, product development, safety technology, design and software; creation, design, installation, commissioning, inspection, maintenance, repair and updating of software; technical consultancy and surveys using a process technology centre, engineering feasibility studies, technical product transfer, technical scale-up, technical analytics and product evaluation; technical optimisation of existing processes and products, technical development of new processes and products; provision of information concerning research and technical project studies relating to the use of natural energy; technical calibration; technical consultancy and assistance for procuring apparatus, machines, equipment and plants; technical customer service and support (consultancy); design, development, managing and maintenance of an online portal targeted at technical and/or economic issues for customers; preparation of technical reports and quality testing of products for certification purposes.
