(57) A protector 2 includes main cleats 3 of constant width allocated on both sides from tire 1 equatorial plane under opposite angle to each other; at that, main cleats allocated from opposite sides from equatorial plane are displaced related to each other in circumferential direction. Subsidiary cleat 4 is disposed on equatorial plane and is attached on main cleat one end creating continues ring, and additional cleat 5 is attached on another end thereof. Additional cleats are disposed on both

sides of equatorial plane on imagined circumferences, in parallel to equatorial plane, creating interstice so, that additional cleats from one side in projection cover interstice on another side. Protector peripheral zones are created with the cleats.

(57) Paper stack cutting equipment 1 includes a post 2 and a table 3 placed thereon, stack passing and pressing mechanism, a knife 4 with a holder 5, a guide 6 providing holder motion, a drive and knife moving inclined-curved mechanism created with couple of curve-arm connecting rod mechanisms. Connecting rods 7 and 8 one end is connected to knife holder 5 by means of hinges 9 and 10; and another end is connected to curve-arms 11 and 14 by means of hinges 13 and 14. Mechanism includes telescopically created lever 17, which one end is installed on a support 15 by means of hinge 16. Lever free end is connected to curve-arm 11 and connecting rod 7 ends by means of hinge 13. A slider 18 connected to curve-arm 12 and connecting rod 8 ends by means of hinge 14 is disposed on the lever.

6 – Pipes of metal, including pressure pipes of metal; compressed air ducts of metal; collars of metal for fastening pipes; junctions of metal for pipes; elbows of metal for pipes; common metals and their alloys; building materials of metal; cables and wires of metal, not for electric purposes; ironmongery and small items of metal hardware; goods of metal, included in this class; branching pipes of metal; fittings of metal for compressed air ducts; fittings of metal for building; clips of metal for cables and pipes; containers of metal for air, compressed gas or liquid air; closures of metal for containers; metal sheets; flanges (collars) of metal; masts of metal; grease nipples; door fittings of metal; all aforesaid goods exclusively for and/or in connection with compressed air generation, compressed air distribution and compressed air treatment; parts of all the aforesaid goods, included in this class.

7 – Machines and mechanical apparatus for the generation of compressed air, vacuum and air flow, included in this class; compressors (machines), including reciprocating compressors and screw compressors; blowers for the compression, exhaustion and transport of gases; blowing machines; air suction machines; vacuum pumps being machines; parts of the aforesaid goods (included in this class), including central screw compressor units or central reciprocating compressor units; air compressors; pneumatic transporters; compressed air machines; compressed air motors; compressed air pumps; compressed air vessels being parts of machines; pressure tanks being parts of machines; pumps being parts of machines, motors or engines; turbines, other than for land vehicles; machine tools; pneumatic tools; filters being parts of machines, motors or engines, except those for installation in vehicles and caravans, yet

not except those for installation in portable compressors; air filters for motors and/or compressors, except those for installation in vehicles and caravans, yet not except those for installation in portable compressors; catalytic converters for the adsorption of hydrocarbon vapors (gas catalytic converters); activated carbon absorbers and catalytic converters, being parts of machines; activated carbon filters for use in compressed air systems, being parts of machines; high pressure filters being parts of machines; condensate separators being parts of machines; vacuum cleaners; cooling radiators for motors and engines; coolers for motors, compressors or blowers; air condensers; condenser installations; de-aerators being parts of machines; oil separators being parts of machines, including de-oilers for separating oil from air; fittings for compressors and machines; fittings for engine boilers; taps being parts of machines or motors; seals being parts of machines; compressed air main charging systems (control devices for the regulation of compressed air, being parts of machines); compressed air reservoirs being parts of machines; regulators being parts of machines; speed governors for machines and motors; pressure regulators being parts of machines; valves being parts of machines, including pressure valves; pressure reduction valves being parts of machines; pneumatic controls for machines and motors; motors, other than motors for land vehicles; electric motors, other than for land vehicles; generators of electricity; machine housings; mounts for machines; stands for machines; tables for machines; couplings and driving belts, other than for land vehicles; gear boxes, other than for land vehicles; ball-bearings; shaft couplings being machines; cranks being parts of machines; crank shafts; machine wheels; axles for machines; pump diaphragms; superchargers; turbo compressors; fans for motors; antipollution devices for motors and/or compressors, being parts of machines and motors; heat exchangers being parts of machines; parts of all the aforesaid goods, included in this class; safety accessories for compressors, namely safety valves, regulating valves; compressed air reservoirs being parts of compressors, machines and motors; control and regulating devices for compressors, blowers or vacuum pumps; apparatus and devices for machine control; regulating and safety accessories for compressors.

9 – Electric and/or electronic control and regulating devices for compressors, blowers, vacuum pumps, or air treatment apparatus and air treatment devices; electric and/or electronic apparatus and devices for process control and machine control; electric and/or electronic devices for the remote control of industrial processes; electric and/or electronic regulating devices for compressors, blowers and/or vacuum pumps, included in this class; electric and/or electronic control devices for compressors, blowers and/or vacuum pumps, included in this class; electric and

electronic components and units, included in this class; integrated circuits; electronic and/or optoelectronic components and units, included in this class; apparatus and instruments for weak-current engineering, namely for telecommunications, high-frequency engineering, measurement engineering and control engineering; apparatus and instruments for power engineering, namely for conducting, transforming, storing, regulating and control; measuring devices, automatic time switches, automatic weighers; data processing devices and apparatus, including data acquisition equipment and data acquisition apparatus; computer programs recorded on data carriers and/or in data memories; computers and installations consisting entirely or mainly thereof; computer output equipment, including printers, recorders, plotters, terminals, screens, other visual display and feeler units; apparatus and devices for data transmission, including installations consisting entirely or mainly thereof; data memories, namely floppy discs, magnetic hard discs and magnetic tapes, magnetic bubble memories, solid-state memories, tape decks, optically and/or mechanically encoded storage discs and storage tape systems; electrotechnical and electronic apparatus and devices, included in this class; sensors for the acquisition of physical quantities, included in this class; devices for the recording, transmission and reproduction of sound, images and data; parts of all the aforesaid goods, included in this class.

11 – Apparatus, devices and machines for air treatment, including for compressed air conditioning, mainly for the separation and deposition of solid and/or liquid contamination of the compressed air; air filtering installations, except those for installation in vehicles and caravans, yet not except those for installation in portable compressors; air purifying apparatus and air purifying machines; air dryers, including compressed air dryers; desiccant (adsorption) dryers; refrigeration dryers; membrane dryers; drying apparatus and drying installations; drying devices; refrigerating apparatus, refrigerating machines and refrigerating installations in connection with apparatus, devices or installations for generating, distribution and/or preparation of compressed air; air cooling devices; air coolers, including compressed air coolers; condensate drains for compressed air applications being parts of refrigerating devices; heat exchangers, included in this class; apparatus and machines for the treatment of condensate water by means of purification and/or filtration; air filters for air conditioning; filters being parts of household or industrial installations; filter systems, including air filtering installations; compressed air filters; dust filters for use in compressed air installations; air purifying lamps having a germicidal effect; apparatus and devices for the sterilization of air; regulating and safety accessories for gas devices; taps for pipes; safety accessories for compressors, namely protecti-

ve switches, pressure switches; control and regulating devices for air treatment apparatus and air treatment devices; compressed air reservoirs being parts of the aforesaid goods of class 11; parts of all the aforesaid goods, included in this class; pipe line spigots of metal.

16 – Manuals; paper, cardboard and goods made from these materials, included in this class; printed matter; photographs; computer programs in printed form.

37 – Construction of compressed air generation systems, compressed air distribution systems and compressed air treatment systems; installation, repair, maintenance and care of the goods mentioned in classes 6, 7, 9 and 11; installation services relating to apparatus, devices and installations for compressed air generation, compressed air distribution and compressed air treatment; installation and repair of compressors and compressor installations; plumbing; installation, maintenance and repair of machines for and/or in connection with compressed air generation, compressed air distribution and compressed air treatment; cleaning of compressors and compressed air installations; installation and repair of pipes, namely of pressure pipes; rental of compressed air machines; rental of installations and devices for the generation, conduction, storing, release and/or treatment of compressed air.

39 – Distribution and supply of compressed air for third parties.

40 – Generation of energy and of compressed air; consultancy services for third parties in the field of generation of energy or of compressed air; air purification; air freshening (air conditioning); rental and leasing of installations serving the generation or supply of energy or of compressed air; generation of compressed air for third parties.

41 – Training and further training of engineers, including in the field of compressed air, compressors and compressed air applications; education; providing of training; film production; arranging and conducting of conferences and seminars.

42 – Technical planning of installations serving the generation, conduction, storing, release and/or treatment of compressed air; technical consultancy in relation to the development of technologies and technical components for compressed air systems; scientific and industrial research; computer programming; engineering services; construction drafting; technical project studies; quality control; preparation of reports relating to engineering consultancy services; material testing; all of the aforesaid services exclusively in the fields of compressed air generation, compressed air distribution and compressed air treatment; engineering consultancy services in the field of compressed air generation, compressed air treatment and compressed air distribution; research

in the fields of compressed air generation, compressed air treatment and compressed air distribution.
